**Korolev V.A. CATALOGUS ON THE COLLECTION OF LEPIDOPTERA. Part II.
PAPILIONIDAE.** – Moscow, 2014. 387 p., 20 color tabs., bibl. 240 Titles

In the second part of the Catalogue of author's private Lepidoptera collection, collected over more than 50 years, a family *Papilionidae* presented. Systematic catalog of the collection contains about 400 species, 700 subspecies taxa *Papilionidae*, full label data more than 2 thousand specimens swallowtail butterflies from various regions of the former Soviet Union, as well as Asia, Africa, Australia, South and North America, 20 color tables, and over 720 black and white photographs of collected butterflies.

The book is intended for entomologists, lepidopterists, experts in the field of zoogeography, ecology, as well as a wide range of butterflies lovers interested in swallowtails butterflies.

**Королёв В.А. КАТАЛОГ КОЛЛЕКЦИИ ЧЕШУЕКРЫЛЫХ (*Lepidoptera*). Часть II.
PAPILIONIDAE.** – Москва, 2014. 387 с., 20 цв. табл., библ. 240 назв.

Во второй части каталога авторской частной коллекции чешуекрылых, собранной за более чем 50 лет, представлено семейство парусников (*Lepidoptera, Papilionidae*). Систематический каталог коллекции содержит около 400 видов, 700 подвидовых таксонов *Papilionidae*, полные этикеточные данные свыше 2 тыс. экземпляров парусников из различных регионов территории бывшего СССР, а также из Азии, Африки, Австралии, Южной и Северной Америки, 20 цветных таблиц, а также свыше 720 черно-белых фотографий коллекционных бабочек.

Книга предназначена для энтомологов, лепидоптерологов, специалистов в области зоогеографии, экологии, а также широкого круга любителей бабочек, интересующихся парусниками.

**Korolev V.A. KATALOG DER SAMMLUNG VON SCHMETTERLINGE (*Lepidoptera*).
Teil II. PAPILIONIDAE.** – Moskau, 2014. 387 S., 20 Farbtafeln, Bibliographie 240 Titel

Im zweiten Teil des Katalogs der Privatsammlung von Lepidoptera des Autors über mehr als 50 Jahren gesammelt werden, zeigt eine Familie *Papilionidae*. Systematische Katalog der Sammlung enthält etwa 400 Arten, 700 Unterarten Taxa *Papilionidae*, vollständige Etiketten Daten mehr als 2000 Kopien *Papilionidae* aus verschiedenen Regionen der ehemaligen Sowjetunion sowie in Asien, Afrika, Australien, Süd- und Nordamerika, 20 Farbtafeln und weit über 720 schwarz-weiß Fotografien von Schmetterlingen.

Das Buch ist für Entomologen, Lepidopterologen, Experten auf dem Gebiet der Tiergeographie, Ökologie, sowie eine Vielzahl von Schmetterlingen Liebhaber interessiert *Papilionidae*.

Preface

Own collection of butterflies (*Lepidoptera, Diurna*) of the world fauna, collected by the author over a period of more than 50 years, is presented in the Catalogue.

The main goal of this edition – provide access to the author's collection of a wide range of professionals lepidopterists and amateurs of butterflies. Most private collections of butterflies is not accessible to a wide range of specialists. Only the author and a small circle of his colleagues working with the collection. Only after one or another private collection of butterflies flagged for any museum, it is made available for research. It happens to most collections. But in a number of private collections happen in the museum did not fall at all. In this case they are lost to science. Therefore, the second goal of the catalog – to keep scientific information about this collection.

Almost any private collection of butterflies, even a relatively small amount (if it properly documented), contains interesting and important materials for science. Well, in the case of large collections they themselves often become the basis for the museum's collection or make it a significant (if not the main) part. One can cite many examples of this.

Such a role, for example, the largest private collection of butterflies, collected by the famous Moscow lepidopterist A.V.Tsvetaev (1903-1980), fulfilled. It consisted of 84 thousand specimens and entered to the Zoological Museum of Moscow University. Large private collections of A.P.Kuzyakin and G.D.Samodurov, joined to the collection of the Darwin Museum in Moscow, and many others. But catalogues of their *Lepidoptera* collections not published.

Unfortunately, there are very little the published catalogues of private and museum collections of butterflies. One of the first such catalogue have appeared only in the XIX century and is usually represented only systematic lists of butterflies names presented in a particular collection, without specifying their label data, sex, number, names of collectors. As is well known, in the XVIII and early XIX century labeling butterflies generally performed very poorly. The scientific value of such catalogs and collections was not high. They are only allowed to judge the representativeness of a particular collection and its volume.

For example of such catalogues can be called the catalogue of *Papilioidae* deposited in the British Museum (of natural history), London, published by G.R. Gray, (1853) and A.G. Butler (1868, 1869, 1870 etc.); the catalogue of the diurnal *Lepidoptera* collection formed by W.C.Hewitson and published by W.Kirby (1879); the catalogue of the butterflies collection of Kazan University, compiled by A.M.Butlerov and published in 1887 after his death.

Later, at the end of XIX and XX century were published more professional catalogues of collections of individual butterflies' groups and catalogues of type specimens. Among these publications can be called catalogues published by the British Museum (natural history) (F.D.Godman and O.Salvin, 1878; H.Druce, 1878; G.F.Hampson, 1898; P.R.Ackery, 1973; etc.); the catalogue of *Papilionidae* in the collection of Ch.Oberthür, 1879; the catalogue of *Lepidoptera* collection of H.Edwards in the American Museum of Natural History; the catalogue of *Papilionidae* deposited in National museum of natural history, Paris, published by E.Bouillet E.and F. le Cerf (1912); the catalogues of *Lepidoptera* deposited in the Tring Museum, published by L.W.Rotschild (1910-1918, etc.); the catalogue of type-specimens in the Fruhstorfer collection *Lepidoptera*, published by L.Martin (1922); the catalogue of butterflies named by R.Verity (Kudrna O., 1982); the catalogues of type specimens of the genus *Parnassius*, deposited in the Zoological Museum of the University of Kiev and Zoological institute of Russian Academy of Science (St.Petersburg), published by V.V.Tschikolovets (1993); the catalogue of the type-specimens of the *Sphingidae* deposited at the Zoologische Staatsammlung Munchen, published by M.A.Miller and A.Hausmann (1999); the catalogues of *Lepidoptera* in the collection of Museum

natural history Galaty, Romania (A.Marcu, L. Rákosi, 2002); the catalogue of types in the *Lepidoptera* collection which belonged to the Prof. Ioan Nemeş (1924-2009), currently curated at the Museum of Natural Sciences Dorohoi (Botoşani County, Romania), published by M.Stanescu and C.Amarie (2013-2014); the catalogues of types *Lepidoptera* in the collection of the National Museum of Natural History, Smithsonian Institution, Washington, D.C. (published by J.W.Brown et al., 2004, etc.) and many others. Catalogues of types from *Lepidoptera* collections of C.Linnaeus and J.Fabricius, as well as many other major lepidopterists (H.W.Bates, A.R.Wallace, O.Staudinger, etc.), are particularly important.

In the presented edition all own collection of butterflies is intended to publish in several parts. The first part of the catalog (published in 2014)¹ covered the family *Hesperiidae*, which is represented in the collection numbering more than 1.7 thousand specimens of *Hesperiidae* of the world fauna. The second part of the catalogue is devoted to family *Papilionidae*, which is represented in the collection, numbering more than 2 thousand specimens of swallowtail butterflies of the world fauna. The following parts will be presented to all the other families of butterflies: *Pieridae*, *Nymphalidae* and *Lycaenidae*.

All parts of the catalogue published by a single structure: first a brief history of collection gives, then it is given the statistical characteristics of the collection data, then – a systematic list of taxa represented in the collection, and finally, the main part – a systematic catalogue including full label data for each specimen. At the end a list of literature and an alphabetical list of taxa mentioned in the catalogue give. Catalogue accompanied black and white as well as color photos of the pretty collection specimens of butterflies.

Your comments and suggestions to the author of this catalogue, as well as orders for it can be sent to the author by e-mail: va-korolev@bk.ru.

Introduction

This monograph is dedicated to Sergei Korolev – my son and helpers collecting of butterflies

In the presented Part II of the Catalogue describes the private collection of butterflies (*Lepidoptera*) of subfamilies *Baroniinae*, *Parnassiinae* and *Papilioninae* in the family *Papilionidae*, collected by the author over a period of about 50 years. This Catalogue is intended for professional's lepidopterists, and for a wide range of fans of butterflies, including Swallowtail butterflies (*Papilionidae*).

Family *Papilionidae* – one of the favorite among collectors of the World. They are attracted by the beauty of butterflies and their extraordinary diversity. Collections of Swallowtail butterflies are widely represented in many museums around the world. Nevertheless, we cannot say so far, that this family is fully and fairly well understood. Many questions on the biology, ecology, distribution and particularly taxonomy of Swallowtail butterflies still unsolved. Many questions of intraspecific variation taxonomy are particularly difficult. Systematics and phylogeny of Swallowtail butterflies successfully solved recently by using the latest molecular biology techniques.

According to Häuser, C.L. et al., (2010) 552 extant species have been identified. But, almost every year lepidopterist find and describe new species of Swallowtail butterflies in different parts of the world.

The name “swallowtail” refers to a tail-like extension on the edge of the hindwing that is found in many, though not all, papilionids. The function of this tail is not known, but genetic studies in some species of *Papilio* suggest the tail is a labile character whose expression is controlled by a single gene (Clarke and Sheppard 1960; Clarke et al. 1968).

The distribution of Swallowtail butterflies is very specifically. They are distributed across the tropical and temperate regions of all continents except Antarctica.

Various species of Swallowtail inhabit altitudes ranging from sea level to high mountains, as in the case of most species of *Parnassius*. The majority of swallowtail species and the greatest diversity in form and lifestyle are found in the tropics and subtropical regions between 20°N and 20°S, particularly Southeast Asia, and between 20°N and 40°N in East Asia. Only 12 species are found in Europe and only one species, *Papilio 5achaon* is found in the British Isles (Coombs S., 2010). North America has 40 species, including several tropical species and *Parnassius*

A phylogeny of the *Papilionidae* based on Nazari (2006, 2007) is given. The subfamily *Baroniinae* is represented by the sole representative species *Baronia brevicornis*. They are unique in the family to use the *Fabaceae* (*Leguminosae*) as their larval host plants. The *Parnassiinae*, like the *Papilioninae*, were also believed to be monophyletic based on morphological studies but recent studies based on both morphological and molecular characteristics suggest that this is not the case. It is now accepted that the subfamily *Papilioninae* is monophyletic. The Swallowtail butterflies in the nominate tribe *Papilionini* number about 225 species and studies have been made on their host-plant coevolution and phylogeny. The family *Papilionidae* includes the largest butterflies in the world, the birdwing butterflies of the genus *Ornithoptera*.

The usefulness of such a Catalogue for the scientists determined that it contains detailed information on the distribution of Swallowtails and the time period of their flight. These numbers are printed on the labels of Swallowtails. Using this data you can perform various zoogeographical

and faunal studies in different regions of the world where going to a *Papilionidae*. Among these regions the most widely represented in the *Papilioiidae* collection of Palearctic region, especially the European and Asian parts of Russia. In addition, the *Papilionidae* collection features Oriental Region (South Asia), Afrotropical Region, the Nearctic and Neotropical Regions.

Along with the data labels in the catalog also contains photos of lot taxa of Swallowtail butterflies. A considerable number of species of *Papilionidae* presented in the tables on the color photographs in the book. This makes it possible to use the Catalog and as a determinant of *Papilionidae*. Catalogue is also provided with an alphabetical list of taxa. This makes it easy to find the taxon in the collection. Also equipped with a systematic catalog of the list of Swallowtails species and subspecies. With it, you can also easily find the necessary taxon Swallowtails.

This book was created with the support of my many colleagues who collect butterflies, as well as studying the fauna and systematics of *Papilionidae*. I thank them for their help, consultations and support, and for providing the collection material. I especially G.D. Samodurov (Korolev-city, Moscow Region), A.N. Samus (Volgograd), D.V.Sobanin (Voronezh), Dr. A.N.Strel'tsov (Blagoveshchensk), Yu.I.Berezhnoi, Y.Shevniin and others. I am grateful to the thank Dr. V.K. Tuzov (Moscow) for reviewing the manuscript and made valuable comments. Also I am grateful to my son – Sergei Korolev, who accompanied me to travel, endured hardships with me and helped to catch butterflies.

The author wish to express his deepest gratitude to all persons and organizations who facilitated their field and laboratory studies.

HISTORY OF PAPILIONIDAE COLLECTION

The history of my butterflies collection family *Papilionidae* has since the inception of the 1960s, ie the period of my interest in butterflies. My first collection of butterflies were made in the summer, when my family moved to the summer holidays and vacations at our cottage near Moscow in the surroundings Khimki-city, which was at that time between the villages of New Butakovo and Aleshkino. Now on the place of this gardening Moscow Ring Road passes, but partly preserved the forest adjacent to gardening, where I basically caught butterflies. Now it is "Aleshkinsky forest", which logged in the number of protected forest parks of Moscow.

Every beginner collector of butterflies wanted to catch the biggest and most beautiful of them - Swallowtail butterflies. However, in this place Swallowtails not met me. Though among them *Papilio machaon* L. and *Iphiclides podalirius* L. were possible here. They were my dream. I was not at that time sufficient experience and knowledge to find the right species of butterflies. And I could only hope to chance. It was only years later, when my collection expanded geography, and I became to collect in the Caucasus and Crimea, I was able to catch their own first Swallowtails.

V.A.Korolev, the Crimea, Besh-Kosh Mt.,
1970

V.A.Korolev, North Caucasus, Karachaevo-Cherkesiya, 1970

Enrolling to study in the Geological Faculty of Moscow State University named M.V.Lomonosov, I began to go on geological practice and geological expedition to the Crimea (1970), the North Caucasus, and later - in Central Asia (Kazakhstan and Tajikistan). During these

visits, I tried to catch the local butterflies, including course and Swallowtails. In the 1970s, almost every summer I went on an expedition to the North Caucasus, and I spent almost butterflies gathering around North Caucasus from of Adygea Krasnodar Territory in the west to the Kalmyk steppes and valleys Kuma-river in the east. I still remember what *Iphiclides podalirius* L. was abundance on the shores of Sengileyksky Lake near Stavropol in 1970! And in the other places of North Caucasus, near Mineral Waters, Pyatigorsk, Essentuki and Kislovodsk these Swallowtails were plentiful. Besides *Zerynthia polyxena* also lived here, and in the mountains *Parnassius apollo* and *P. nordmanni* were here.

Since 1977, and for nearly ten years, I have become an annual ride in the Crimean Mountains, where I taught the geological practice with students in the area of Prohladnoe village in Bakhchisaray district (1977-1985). During these years, my collection of Swallowtails replenished local Crimean *Papilio machaon* L. and *Iphiclides podalirius* L. of different generations and from different places. Since the early 1980s, my son, Sergei, whom I took along the Crimea, began to actively assist in the collection of the Crimean butterflies, including Swallowtails. In the Crimea, he had a lot of free time (unlike me, since I worked with the students every day) and could catch butterflies every day. Here in the Crimean base of MSU butterflies lived everywhere in large quantities. Especially a lot of species of butterflies have met on the slopes of mountains Selbukhra, Prisyazhnaya, Besh-Kosh, on floral forb meadows covering the surface of the quest, in the canyons and ravines.

Vladimir & Sergey Korolev, the Crimea, Big Canyon, 1984

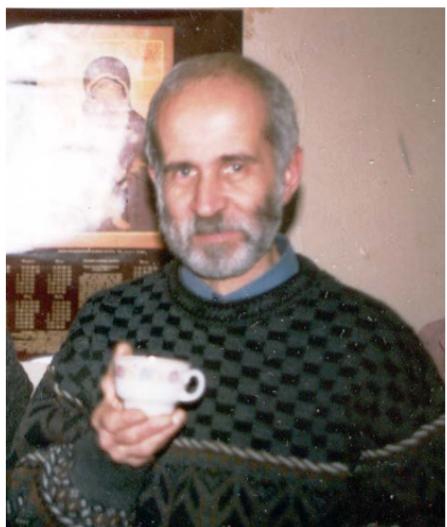

However, in the Crimea, as we know, there are only three species of *Papilionidae*, but I wanted to finally catch yourself *Papnassius* and other Swallowtails, most species of which are inhabited in the mountains of Central Asia, the Altai and the Far East. The magnificent swallowtail of Maak (*Papilio maackii* Ménétríés, 1859) from the Far East at that date seemed a pipe dream, because then a trip to these places is not possible for various reasons.

V.A.Korolev, the Crimea, Chufut-Kale, 1980

A.P.Reznichenko, 1996 (photo by
V.A.Korolev)

V.A.Ganson, 2005 (photo by V.A.Korolev)

It so happened that my first *Papilio machaon* in the Moscow region, I caught only in 1990 at the Zvenigorod Biological Station of Moscow State University in the surroundings Lutsino village (Odintsovo district). Here I also teach the geological practice with students of MSU.

Later I caught Swallowtails here regularly, and I caught them in the village in the Stupino district of Moscow region in the valley Severka river (Blagovskoe village, 2005-2014.). Where this butterfly appeared regularly on the hottest days in mid-July and after about week completely disappeared. But then, in late July and August on umbellate could find many swallowtail caterpillars, of which butterflies feed and successfully take out.

Starting from the 1980s, my constant companion in tours and expeditions for butterflies became my son - Sergei, with whom we collect at first in the Crimea (1980-1985) and then in the Tien Shan (1990-1996) and Southern Urals (1994). A significant number of Swallowtails in my collection were collected by Sergei, as reflected on the respective labels. Later Sergei became self-catch butterflies for me during his holiday and while traveling abroad in Greece, Spain, Italy, Croatia and other countries.

V.A.Korolev, Tien-Shan, Kungey Alatau Mts., loc. Oi-Tal village, 1990

S.V. & V.A.Korolev near N.M.Przhevalsky memorial, Przhevalsk-city (Karakol), 1990

My acquaintance with a work colleague in the Department of engineering geology at MSU - A.P.Reznichenko was the impetus for organizing the trip to Central Asia for butterflies. A.P.Reznichenko fond of mountaineering and on vacation with his family, he went to the mountains of Central Asia. In 1989 he visited the Fan Mountains (Zerafshan range), from knowing about my hobby butterflies, he brought me interesting fees of butterflies, including local *Parnassius*. Inspired by his stories about the abundance of gorgeous butterflies in Central Asian mountains, I decided the next year to go on holiday with my son in Central Asia.

Also in 1990, I met in MSU with A.L.Devyatkin - the largest specialist skippers (*Hesperiidae*). He advised me to join the Society of Naturalists entomological section headed while

V.A.Ganson – the great connoisseur of butterflies. A.L.Devyatkin helped me identify many species of butterflies. From him I received through the exchange in its collection a series of his duties *Hypermnestra helios persica* Neuburger, 1900 on the Kopet Dagh (Kara-Kala, Syunt) in 1983-1984. And later many other species of swallowtails from different places in the former USSR and abroad.

S.V. & V.A.Korolev, Inner Tien-Shan, At-Bashi Mts., 1990

V.A. & S.V. Korolev, At-Bashi Mts., caravanserai Tash-Rabat, 1990

From that time my collection of substantial replenishment of swallowtails, as well as other butterflies. I became a member of the Moscow Society of Naturalists, Entomological section, which met in the Zoological Museum of Moscow State University. There I met many prominent Moscow lepidopterist, which consultations and exchange material with them contributed to further replenish of my collection.

Among them were O.Amosov, P.V.Beda, P.V.Bogdanov, A.P.Generalov, O.G.Gorbunov, A.V.Gurko, A.V.Danchenko, A.L.Devyatkin (1957-2012), A.A.Evstigneev, A.Ermakov, A.N.Zamesov, Iroshnikov, L.V.Kaabak, V.I.Kipnis (1923-2003), A.V.Kiryanov, I.A.Klimov, N.V.Korostelev, I.V.Kuznetsov, L.N.Mazin, M.B.Marhasev, E.M.Matveev, V.S.Murzin (1927-2007), L.V.Nikolaevsky (1935-2001), S.K.Sazonov, G.D.Samodurov, A.V.Sviridov, V.V.Sinyaev, Yu.V.Sveshnikov, L.N.Solntsev, V.P.Solyanikov (1921-2006) A.V.Sochivko, E.A.Tarasov, V.V.Titov, V.K.Tuzov, L.L.Chernyshov, V.B.Chernyshev, S.V.Churkin and many others.

So, inspired A.P.Reznichenko parting words, in 1989, I began to prepare for a trip to the Tien Shan. Finally, in 1990 this journey took place. This also contributed to my acquaintance with Kyrgyz colleague, also engineer geologist – professor K.A.Kozhobaev. He kindly took me and my son Sergei on Issyk-Kul Lake in the Oi-Tal village at the foot of the southern slope Kungei Alatau. Later he organized to us a fun trip to the Inner Tien Shan - in At-Bashi Mts.

In 1990 on mountains of Kungei Alatau I and Sergei got the first experience of self-climbing in these mountains (because have not been in the real mountains). Also we have the experience catching butterflies in the mountains. Of course, at our experience of the Crimean Mountains we came in handy, but in the highlands it was not so, as in the Crimea. We spent several days in Oi-Tal, engaged catching butterflies on the surrounding slopes, visited Przheval'sk (now Karakol-city) in the eastern part of Issykkul, and then we moved to the southwest in At-Bashi-city. Along the way we overcame Dolon pass and drove a significant part of the valley of the Naryn River.

S.V.Korolev with the first *Parnassius tianschanicus*, Tash-Rabat, 1990

Dr. K.A.Kozhobaev, 2014 (photo by V.A.Korolev)

V.A.Korolev, N.Tien-Shan, Kirghizian Mts., glacier Ak-Sai, 1992

S.V.Korolev catch butterfly, Kirghizian Mts.,
valley Ala-Archa river, 1992

S.V.Korolev, Kirghizian Mts., glacier Ak-
Sai, 1992

In the vicinity of At-Bashi, we have taken several large excursions in the neighborhood: the northern slope of the At-Bashi Mts. (where in the mountains we were exposed to rain and snow due to the abrupt change of weather), in the vicinity of the At-Bashi in the mountains of solitudes Koshoy Korogen and finally, in the southwestern part of the range of At-Bashi - on the caravan route to the mountain lake Chatyrkel - near the caravanserai Tash Rabat, surrounded by alpine mountain meadows with an abundance of butterflies. There we managed to find a few interesting *Parnassius* species. It was the local subspecies *Parnassius tianschanicus*, *P. actius* and *P. mnemosyne*.

A year later, in 1992, I and Sergei took a butterfly's trip back in the Tien Shan. This time we decided to explore the valley of the Ala-Archa river on the Kyrgyz Mountains in the central part of the Tien Shan. We got to the headwaters of the Ala-Archa in the waterfall area Ak-Sai Glacier. As it turned out, it was a popular place for climbers to ascend the glacier and are near the top. Located in a tent at the foot of the glacier, we catch a few days of local butterflies, including *Parnassius*.

Then we moved to another place, descending into the valley of the Ala-Archa river and turning into one of its tributaries, right up into the mountains towards the peak Komsomolets. There we also camped for several days and were engaged in catching butterflies, including Swallowtails. Then again we went down to the valley of Ala-Archa river and so making a few stops of the camp, a few days we left in the mouth of the valley in the foothills of the Kyrgyz Range. There in one of the holes we had the last camp, and then we went back to Bishkek-city.

First *Parnassius* from the Moscow region in my collection have appeared due to familiarity with G D Samodurov, that since the mid-1970s regularly collected in Oka-Terrace Reserve. It was a *Parnassius mnemosyne weidingeri* (Bryk & Eisner, 1932) collected in 1975. Through the exchange and a gift I bought him a host of other species *Parnassius* from the different regions of Central Asia, including - *Parnassius staudingeri infernalis* Elwes, 1886 from the area to the east Bordobo on Transalai Range (1981).i

In 1994 my son and I took a trip out to the South Urals butterflies in the valley in Sakmara river in vicinity Churaevo village. One of the goals of this trip was to find the largest subspecies of apollo - *Parnassius apollo limicola* Stichel, 1906, described from the Southern Urals. Arriving by train to Karamken then we got by bus to the Churaevo village, where his final stop. Further down the Sakmara valley started gentle hills and the Ural Mountains to the side where we went.

Vladimir & Sergey Korolev, South Ural, Churaevo village vicinity, 1994

S.V.Korolev catch butterfly, South Ural, Churaevo village vicinity, 1994

V.A.Korolev catch butterfly, South Ural, Sakmara river valley, 1994

V.A.Korolev with *Parnassius apollo limicola*, South Ural, Churaevo vil. vicinity, 1994

V.A.Korolev, South Ural, Sakmara river valley, 1994

After hiking trek we camped on one of the slopes and began to catch butterflies, which was there in abundance. But *Parnassius* was not here. A day later we moved to another place in their quest.

Finally on one of the rocky ridges we found host plant of this butterfly - stonecrop (*Sedum*). On stonecrop the large females of *apollo* sat quietly, doing his thing - oviposition. Size of some of these butterflies were really impressive - the scope of their wings females reached 10 cm in females soon became males arrive. As a result, here we were able to gather here a representative series of *Parnassius apollo limicola* Stichel, 1906. Later I learned that many rare species of *Parnassus* lepidopterists looking by their host plants. For example, it is so rare and elusive *Parnassus autocrator* was found in the Pamirs.

For a long time I could not get to my collection *Zerynthia polyxena* Denis & Schiffermüller, 1775), when, finally, this butterfly I have from the meeting V.A.Alyavdin (Lipetsk), as well as for exchange with the Transcarpathian lepidopterist S.G. Popov, it caught out in the valley Tissa river in 1992.

But most large series of this butterfly, I received for gift from my former graduate student and enthusiastic lepidopterist from Volgograd - A.N.Samus. Extensive series *Zerynthia polyxena thesto* Fruhstorfer, 1908 he collected in different parts of the Volgograd Region (2002-2004). A.N.Samus presented to my collection many other swallowtails and among of them - one of the rarest butterflies - two specimens of *Parnassius arcticus* (Eisner, 1968), collected by him in Yakutia (Suntar-Hayata Mts.) and civilly presented to me.

Swallowtails from different regions of the European part of Russia, Western Siberia and Altai I acquired or exchanged from many Russian lepidopterists, including at V.Zolotuhin, S.A.Knyazev, S.B.Gundorov (1971-2012), Yu.I.Berezhnoi, R.V.Yakovlev, E.I.Malikova, V.Zurilina, Yu.Shevnnin, B.Holodov and many others.

By to exchange material with V.Titov on Entomology section of Moscow Naturalists society I received Swallowtails from the Caucasus and Southern Primorye (1988).

In 1996 Sergei and I took a trip to Uzbekistan Western Tien Shan - the area on the Big Chimgan (Chatkalsky Ridge). Our aim, among other things, was to find *Papilio alexanor* and local *Parnassius*.

Hard to get to camp "Chimghan" we climbed up the valley of Ak-Sai Glacier and camped on one of the slopes, enjoying Big Chimgan and collecting different butterflies, which then had an abundance. However, there were not many Swallowtails and *Papilio alexanor* was never found. We changed twice a parking place, took difficult ascent of the Big Chimhan Mt., but never found them. Nevertheless, a few days spent here we collected a significant amount of butterfly species and were pleased with the trip.

The oldest Swallowtails fees from the Altai, in particular - *Parnassius ariadne* [Lederer, 1853], in my collection belong to V.G.Mahat (Narymsky Mts., 1986) and S.Sazonov (Shebalino, 1988), with which I was familiar to Entomology section of Moscow Society of Naturalists and to exchange material. From Buryatia in the collection there are Swallowtails which was collected by V.G.Mahat in Tunkinskie Golsy (1993), etc.

V.A.Korolev, West Tien-Shan, go up on Big Chimgan Mt., 1996.

Recharge of swallowtails collection from the Far East is due to start exploring with A.N.Streltsov (Blagoveshchensk) and A.Yu.Kapkaev (Komsomolsk-on-Amur). In the collection there are also collections from the Far East of L.A.Nikolaevsky (1935-2001), Yu.N.Gluschenko (Khabarovsk terr., 1991) V.D.Nebaykin, Yu.I.Berezhnoy, M.I.Golovushkin, A.Timchenko, A.Gulyaev and other Russian entomologists.

V.A.Korolev & V.V.Tchikolovets, Moscow, April 2004

The most difficult was held replenishment collection of swallowtails from remote areas of Yakutia and Magadan region. In my collection the oldest collections belongs to lepidopterist from Karamken village V.V.Paleha, Magadan region (1989) and collections of V.Fedorov (1989) from Ege-Hal village in Yakutia. But the most extensive series of swallowtails from the Magadan region

came to me from my student O.A.Babakina, collected with his father in the surroundings Karamken village and Hasyн river valley in 1993-1997. Among them were collections of *Parnassius eversmanni vosnessenskii* [Menetries] in Semaschko, 1850 and *Parnassius tenuidius britae* Bryk, 1932.

As a result, I have formed a complete collection of all the swallowtails fauna in Russia, including the vast majority of subspecies.

Simultaneously there was a collection of swallowtails and replenishment it from the republics of the former USSR. Familiarity with A.A.Evstigneев and exchange material with him joined my collection of butterflies swallowtails his specimens in different areas of the Kopet Dagh (1991), Tien Shan and Pamir-Alai (Peter I Mts., 1989) and others.

V.A.Korolev & S.A.Toropov, Moscow, 2013

Replenishment of the swallowtail collection contributed my familiarity with the beginning of the 1990s with V.V.Chikolovets, happened many times in my home. I received from him (in exchange) a lot of different specimens of *Parnassius* from many regions of Central Asia: the Tien Shan and Pamir-Alai.

Correspondence acquaintance, and exchange of material with the Saratov entomologist S.B.Gundorov (1971-2012) joined my collection of swallowtails his specimens from Central Asia (Alai, 1991, etc.) and the Caucasus (Georgia, Armenia, 1996). In addition, the collection includes swallowtails collections from the Caucasus (Armenia) of V.Hambartsumian, Yu.Shevnnin etc.

The oldest swallowtail specimens from the Pamirs in my collection (*Parnassius charltonius vaparosus* Avinov, 1916 etc.) belong to M.A.Zagulyaev, which collected on Shugnon Ridge (Sangou Dara) in 1969-1972, as well as Kadamshoев (Khorog, 1987, 1990), V.P.Losmanov (Khorog, 1988) and I.G.Plujtsch (Shugnansky Mts., 1989).

In addition, there are swallowtails in the collection of I.G.Plujtsch in different regions of the Tien Shan, Alai (1989), Dzungaria and Afghanistan, including *Parnassius charltonius sochivkoi* Churkin, 2009, *Parnassius staudingeri jacobsoni* Avinov, 1913, *Parnassius boedromius sokolovi* Kreuzberg, 1990, etc.

V.A.Korolev & I.G.Plujtsch, Moscow, 2013

As a result, a very complete collection of swallowtails throughout the Soviet Union have been formed. It included all species and subspecies of butterflies subfamily *Papilioninae* and the

vast majority of species and subspecies of the subfamily *Parnassiinae* butterflies territory of the former USSR.

Later my interests and geography swallowtail collection gradually expanded and moved beyond the USSR; I began to collect swallowtail butterflies from the western and southern Europe (Greece, Spain, and Bulgaria, etc.), Southeast Asia, South and North America, Africa and other regions that have engulfed the world.

In the Soviet period to make foreign exchange butterflies, and collect abroad was nearly impossible. Therefore, among Moscow lepidopterists and other cities of the USSR few fond of collecting tropical butterflies - they were the majority of fans are not available. But later, with the collapse of the Soviet Union since the early 1990s, it became possible to travel abroad to collect butterflies in almost any country. Collectors from Russia began to travel to collect butterflies in Indonesia, Thailand, Nepal, China, Peru and many other countries, where the market for entomological collectors there are many tropical butterflies.

With the advent of Internet communication between collectors, both in the Russian and foreign colleagues further expanded. In the same period there was the trade through the Internet, which significantly facilitated the acquisition of butterflies from different countries in Asia, Africa, America and Australia. There were many trading companies, specializing in the sale of entomological material via the Internet. I also began to use the Internet to replenish my swallowtail collection.

D.V. Sobanin & V.A. Korolev, Moscow, 2013

The oldest swallowtail specimens from Western Europe in my collection - it charges the Spanish lepidopterist A.Korraleno, collected from in 1980-1985 in different Spanish provinces, and with whom I spent the exchange of collection material. Among his collections of this period in the collection are a series of different subspecies of Spanish *Zerynthia rumina* etc. Also in the collection I have swallowtails of R.Vaskues from the province of Huelva.

Many swallowtails from around the world came to my collection by purchase or exchange of material with V.K. Tuzov having among Russian collectors one of the most comprehensive private collections of tropical butterflies, including swallowtails.

A.V.Sochivko, Moscow, 2005

O.V.Pak, Moscow, 2014

Among other Western European collectors whose swallowtail specimens are in my collection, it should be noted Belgian lepidopterists Zh.Veruls (his collections in Crete, 1999, in Turkey, 1986-2000, and in Israel, 1985), F.Fastre (collections in Turkey, 1987-2001), D.Dumont (collections in Lebanon, 1999), F.Bolland (collections in Turkey, 1986) A.Legren (collections in Turkey, 1987), Jean-K.Weiss (collections in Turkey 1988), the Iranian Haz-Kozegi (collections in Iran, 2000), etc. By purchasing from Ukrainian entomologist O.V.Pak I deposited the collection of various swallowtails from Afghanistan involving both the O.V.Pak and his Ukrainian colleagues E.Ivanova, I.G.Plujtsch, etc.

Syria specimens of local subspecies *Iphiclus podalirius virgatus* (Butler, 1865) gave me my Syrian graduate student F.Hukhi (loc. Hama, 1988). From the Chinese Tibet the oldest swallowtail specimens in my collection belong to O.Ammosov, collected in 1995 in the surroundings Koro-La at an altitude of 5.4 km and there are lots to collect *Parnassius acdestis lathonius* (Bryk, 1913), and overs.

A large number of swallowtails from Southeast Asia was purchased by me from the Austrian entomologist A.Mueller, as well as in domestic (D.Sobanin, etc.) and foreign dealers and firms involved in the supply of entomological material. In the end, I managed to collect almost all kinds *Ornithoptera*, except for the gap-catch, trade and export *Ornithoptera alexandrae* Rothschild, 1907) - the largest daily butterfly world, and also to collect the vast number of species of other equally beautiful butterflies of genus *Troides*.

From the North America's most old swallowtail specimens in my collection belong S.Koehler, collected in 1981 in Montana (instances *Parnassius smintheus montanula* Bryk & Eisner, 1935), as well as collections of K.Torn from the U.S. and Canada.

The collection of swallowtails the world, presented in this catalogue, is a result of this long-term work. Now it has more than 2 thousand specimens of Swallowtails butterflies. Its characteristics and statistics presented in the next chapter.

CHARACTERISTIC OF THE COLLECTION

Just a family *Papilionidae*, there are more than 550 species of butterflies of the world fauna (by 2011, 566 species have been described). The collection includes about 400 species (near 70% of the currently known) and 700 subspecies. Most of them are common and widespread species of Swallowtail butterflies. However, there are also rare species or numerically small.

Any collection of butterflies (even the smallest) often contains interesting species and specimens. Therefore, the scientific value of entomological collections cannot be determined only by the stored specimens. There are important and their quality, as well as the selection of the collection itself. Presented collection does not contain types of *Papilionidae*, but there is a lot of topotypes – more than 160.

The collection catalogue is given for a systematic basis. In this case, we relied on recent works on the taxonomy of family *Papilionidae*. Among of them are publications of C.L.Hauser et al., (2010); R.D. Reed et al., (2010); V.Nazari (2006); T.Racheli & A.M.Cotton (2009) and overs.

Despite the fact that this family is well studied, there are still questions about its taxonomy. According to Racheli & Cotton (2009): “In modern times, Vane-Wright (2003b) indicated that the group as a whole appears monophyletic. This is based on the characters given above namely the free vein la of forewing (Miller, 1987; diagnostic, even though it might seem plesiomorphic), extended third axillary sclerite of forewing base (de Jong et al. 1996), joined cervical sclerites (Kristensen, 1976; Miller 1987), quadrifid cubitus (Clench 1955; also occurs in dismorphiine pierids), and especially the unique eversible osmeterium of the larval prothorax, confirmed by Vazquez, L. G. & Perez, H. (1967) for *Baronia*.

Moreover, Vane-Wright (2003b) pointed out that the division of *Papilionidae* into three subfamilies (based on Ehrlich 1958) is now accepted worldwide. The *Baroniinae* (with one species limited to Mexico) form a very distinct clade, the characters of which include unique patagia (Ehrlich, 1958), curiously thickened forewing radial vein, unusual membranous lateral lobe to male valve (Miller, 1987), and a special female scent organ (Hauser, 1992). Although *Baronia* is widely accepted as the stem lineage of the family (e.g., Munroe and Ehrlich, 1960; Hancock, 1983; Tyler et al., 1994), in the cladistic analyses of de Jong et al. (1996) it did not emerge as sister to the remaining *Papilionidae*; instead, this position was most often occupied by *Parnassius*. The *Parnassiinae*, which include up to 80 species in 8 genera, can be linked by their asymmetrical tarsal claws and highly sclerotized aedeagus and ostium. However, these features are absent in *Hypermnestra*, which should perhaps be excluded (see: Hiura, 1980 and Hauser, 1993). Thus the *Parnassiinae* might represent a paraphyletic lineage to the rest of the *Papilionidae* (*Baroniinae* and *Papilioninae*). Caterino et al. (2001) have found evidence from mitochondrial and nuclear DNA data that the *Parnassiinae* are indeed most probably paraphyletic, but in most of their analyses *Baronia* remained in stem position; unfortunately they did not obtain sequences for *Hypermnestra*. Yagi et al. (1999), from mitochondrial DNA evidence, also suggest that the *Parnassiinae* may not be monophyletic. These findings may not be reliable due to the authors analysis only the few species occurring in Japan.

Recently, based on molecular evidence, Nazari et al. (2007) confirmed sister-group relationships between *Hypermnestra* and *Parnassius*, and between *Archon* and *Luehdorfia*.

Monophyly of *Pamassiinae* is weakly supported and they recognize three tribes within it namely *Pamassiini*, *Luehdorfiiini* and *Zerynthiini*.

There are 3 subfamilies presented in this 2 part of Catalogus: *Baroniinae*, *Parnassinae* and *Papilionidae*. Statistical data collection are presented in the table.

Table
The statistical data of *Papilionidae* collection

Subfamily	Tribe	Number of species in the world	Number of species in the collection (%)	Number of subspecies in the collection	Number of topotypes in the collection
<i>Baroniinae</i>		1	1 (100)	1	1
<i>Parnassinae</i>	<i>Parnassiini</i>	50	48 (96)	162	18
	<i>Luehdorfiiini</i>	6	6 (100)	10	4
	<i>Zerynthini</i>	10	10 (100)	19	7
<i>Papilioninae</i>	<i>Leptocircini</i>	144	83 (58)	133	28
	<i>Teinopalpini</i>	2	2 (100)	3	2
	<i>Troidini</i>	130	76 (60)	128	50
	<i>Papilionini</i>	209	156 (75)	214	55
Total:		552	382 (70)	670	165

In the Subfamily *Baroniinae* Bryk, 1913 distinguished only 1 genus – *Baronia* Salvin, 1893. It is the monotypic genus, presented by 1 neotropic species - *Baronia brevicornis* Salvin, 1893, in the collection – 1 (100 % from described).

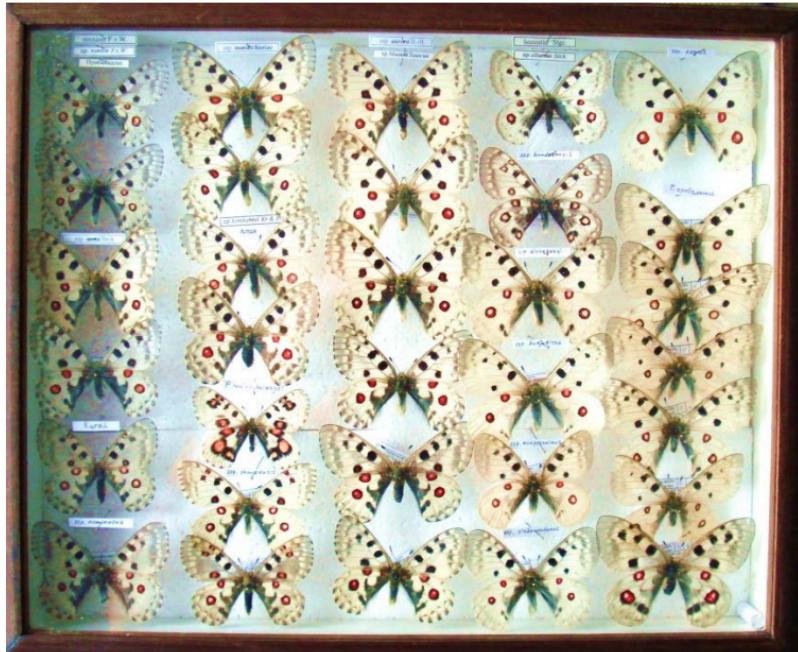

In the Subfamily *Parnassinae* Duponchel, [1835] 3 tribes distinguished (*Luehdorfiiini*, *Parnassiini* and *Zerynthini*), that all are represented in the collection. Total there are about 67 species of butterflies in this subfamily, including the collection represented 63 species (or 94% of known). In the subfamily allocated 13 genera, all of which are represented in the collection.

48 species presented in the collection, which belong to the tribe *Parnassiini* (or 96%). Among them, 162 subspecies and 18 topotypes are presented in it. The tribes *Luehdorfiiini* and *Zerynthini* are represented fully (100%). They contained in the collection 11 topotypes.

The Phylogeny of the genus *Parnassius* not fully understood. According V.Nazari (2006), eight subgenera are generally recognized within genus *Parnassius*, as follows (in chronological order; from Bryk, 1935; Häuser et al., 2005; Savela, 2005): subgenus *Parnassius* Latreille, 1804. Type species: *Papilio apollo* Linnaeus, 1758; subgenus *Koramius* Moore, [1902]. Type species: *Parnassius delphinius* Eversmann, 1840; subgenus *Tadumia* Moore, [1902]. Type species: *Papilio acco* Gray, 1852; subgenus *Kailasius* Moore, [1902]. Type species: *Parnassius charltonius* Gray, 1852; subgenus *Eukoramius* Bryk, 1935. Type species: *Parnassius imperator* Oberthür, 1883; subgenus *Lingamius* Bryk, 1935. Type species: *Parnassius hardwickii* Gray, 1831; subgenus *Driopa* Korshunov, 1988. Type species: *Papilio mnemosyne* Linnaeus, 1758; and subgenus *Sachaia* Korshunov, 1988. Type species: *Parnassius tenedius* Eversmann, 1851.

But all of these genus-level names, together with a few others that are generally overlooked (e.g. *Erythrodiopa* Korshunov, 1988; *Adoritis* Koçak, 1989; *Quinhaicus* Korshunov, 1990, and *Kreizbergius* Korshunov, 1990), have been synonymized with *Parnassius* (Munroe, 1961; Hesselbarth et al., 1995), although they are still used to designate “species-groups” within the genus (Omoto et al., 2004; Häuser et al., 2005).

More recent treatments are confined to grouping *Parnassius* species under a number of species-groups that may not correspond to the subgeneric classification (Weiss, 1991-2005; Tshikolovets, 1998-2003). The number of species included in each of these subgenera (or species-groups) varies in checklists (e.g. see Bryk, 1935; Häuser et al., 2005).

One of the collection boxes with *Parnassius*

Therefore in the presented Catalogue the phylogeny of subfamily *Parnassiinae* and genus *Parnassius* is given according to revised GloBIS/GART species checklist and Häuser et al., (2005, 2010).

Four tribes contains in the subfamily *Papilioninae*. In general, they are about 385 species, in a collection of 317 species are presented. This make up about 82% of the total species of this subfamily. The tribe *Leptocircini* represented in the collection by 58%, the tribe *Troidini* - by 60%, and the tribe *Papilionini* - 75% of the total number of species.

In addition, the collection of subfamily *Papilioninae* contains 478 subspecies. Among them there are 135 topotypes. Just a collection of *Papilionidae* presented about 670 taxa of subspecies rank and more than 160 topotypes (at about 290 specimens).

Along with this, the color aberration and the form butterflies (which have infrasubspecific status) are also widely presented in the collection. This makes it possible to judge the various intraspecific variations of Swallowtail butterflies.

Thus, in general, presented a collection of *Papilionidae* allows adequately judge this family.

Chapter 3

CHECK LIST

Systematic check list of species *Papilionidae* that are represented in the collection, is given below. It includes all the currently known genera of the family *Papilionidae* (32 genera).

Superfamily PAPILIONOIDEA
Family PAPILIONIDAE Latreille, [1802]
Subfamily BARONIINAE Bryk, 1913

Genus *Baronia* Salvin, 1893

1. *Baronia brevicornis brevicornis* Salvin, 1893

Subfamily PARNASSIINAE Duponchel, [1835]
Tribe PARNASSIINI Duponchel, [1835]

Genus *Hypermnestra* Ménétriés, 1848

2. *Hypermnestra helios helios* (Nickerl, 1846)
3. *Hypermnestra helios maxima* Grum-Grsgimailo, 1890
4. *Hypermnestra helios persica* Neuburger, 1900

Genus *Parnassius* Latreille, 1804

Subgenus *Driopa* Korshunov, 1988

5. *Parnassius (Driopa) ariadne ariadne* [Lederer, 1853]
6. *Parnassius (Driopa) ariadne clarus* Bryk et Eisner, 1933
7. *Parnassius (Driopa) clodius baldur* W.H. Edwards, 1877
8. *Parnassius (Driopa) clodius pseudogallatinus* Bryk, 1913
9. *Parnassius (Driopa) eversmanni eversmanni* ([Menetries in Siemaschko, 1850])
10. *Parnassius (Driopa) eversmanni vosnessenskii* ([Menetries in Semaschko, 1850])
11. *Parnassius (Driopa) eversmanni gornyiensis* Watanabe, 1998
12. *Parnassius (Driopa) felderii felderii* (Bremer, 1861)
13. *Parnassius (Driopa) felderii mauli* (Sheljuzhko, 1914)
14. *Parnassius (Driopa) litoreus* Stichel, 1907
15. *Parnassius (Driopa) mnemosyne republicanus* Peebles & Bryk, 1931
16. *Parnassius (Driopa) mnemosyne parnassia* Bryk, 1932
17. *Parnassius (Driopa) mnemosyne weidingeri* (Bryk & Eisner, 1932)
18. *Parnassius (Driopa) mnemosyne craspedontis* Fruhstorfer, 1909
19. *Parnassius (Driopa) mnemosyne ugrjumovi* Bryk, 1914
20. *Parnassius (Driopa) mnemosyne uralka* (Bryk, 1921)
21. *Parnassius (Driopa) mnemosyne ucrainicus* (Bryk & Eisner, 1932)
22. *Parnassius (Driopa) mnemosyne nubilosus* Christoph, 1873
23. *Parnassius (Driopa) mnemosyne rjabovi* Sheljuzhko, 1935
24. *Parnassius (Driopa) mnemosyne elisabethae* Bryk & Eisner, 1934
25. *Parnassius (Driopa) mnemosyne orientalis* Verity, 1910
26. *Parnassius (Driopa) mnemosyne nivalis* Grose-Smith, 1908
27. *Parnassius (Driopa) mnemosyne valentinae* Sheljuzhko, 1943

28. *Parnassius (Driopa) mnemosyne ochracea* Austaut, 1891
29. *Parnassius (Driopa) mnemosyne gigantea* Staudinger, 1886
30. *Parnassius (Driopa) nordmanni christophi* Bryk & Eisner, 1932
31. *Parnassius (Driopa) orleans orleans* Oberthür, 1890
32. *Parnassius (Driopa) orleans groumi* Oberthür, 1892
33. *Parnassius (Driopa) orleans johanna* Bryk, 1932
34. *Parnassius (Driopa) stubbendorfi stubbendorfi* (Menetries, 1849)
35. *Parnassius (Driopa) stubbendorfi typicus* (Bryk, 1914)
36. *Parnassius (Driopa) stubbendorfi standfussi* (Bryk, 1912)
37. *Parnassius (Driopa) stubbendorfi bodemeyeri* (Bryk, 1914)
38. *Parnassius (Driopa) stubbendorfi koreanus* Verity, 1910
39. *Parnassius (Driopa) stubbendorfi kosterini* Kreuzberg et Pljutsch, 1992
40. *Parnassius (Driopa) hoenei hoenei* Schweitzer, 1912
41. *Parnassius (Driopa) hoenei esakii* Nakahara, 1926
42. *Parnassius (Driopa) glacialis tsingtau* Bang-Haas, 1910

Subgenus *Kailasius* Moore, 1902

43. *Parnassius (Kailasius) autocrator autocrator* Avinov, 1913
44. *Parnassius (Kailasius) charltonius romanovi* Grum-Grshimailo, 1885
45. *Parnassius (Kailasius) charltonius vaporosus* Avinov, 1913 (1916)
46. *Parnassius (Kailasius) charltonius sochivkoi* Churkin, 2009
47. *Parnassius (Kailasius) augustus augustus* Fruhstorfer, 1903
48. *Parnassius (Kailasius) imperator musageta* Grum-Grshimailo, 1891
49. *Parnassius (Kailasius) loxias tashkorensis* Kreuzberg, 1984

Subgenus *Koramius* Moore, 1902

50. *Parnassius (Koramius) acdestis lathonius* (Bryk, 1913)
51. *Parnassius (Koramius) acdestis irenaophilus* Bryk, 1943
52. *Parnassius (Koramius) acdestis roweii* Sorimachi & Morita, 1994
53. *Parnassius (Koramius) cardinal* Grum-Grshimailo, 1887
54. *Parnassius (Koramius) cardinal djamila* Eisner & Naumann, 1980
55. *Parnassius (Koramius) delphius delphius* (Eversmann, 1843)
56. *Parnassius (Koramius) delphius pulchra* (Eisner, 1939)
57. *Parnassius (Koramius) delphius namanganus* (Staudinger, 1886)
58. *Parnassius (Koramius) delphius menander* Hemming, 1934
59. *Parnassius (Koramius) delphius candidatus* Bang-Haas, 1915
60. *Parnassius (Koramius) delphius constans* Bang-Haas, 1915
61. *Parnassius (Koramius) delphius karaschahrica* Bang-Haas, 1915
62. *Parnassius (Koramius) patricius patricius* Niepelt, 1911
63. *Parnassius (Koramius) maximinus maximinus* Staudinger, 1891
64. *Parnassius (Koramius) maximinus legezina* Bergmann, 1995
65. *Parnassius (Koramius) staudingeri staudingeri* A.Bang-Haas, 1882
66. *Parnassius (Koramius) staudingeri infernalis* Elwes, 1886
67. *Parnassius (Koramius) staudingeri illustris* Grum-Grshimailo, 1888
68. *Parnassius (Koramius) staudingeri hissaricus* Eisner, 1968
69. *Parnassius (Koramius) staudingeri jacobsoni* Avinov, 1913
70. *Parnassius (Koramius) hunza hunza* Grum-Grshimailo, 1888

Subgenus *Parnassius* Latreille, 1804

71. *Parnassius (Parnassius) actius actius* (Eversmann, 1843)
72. *Parnassius (Parnassius) actius minutus* Verity, 1911
73. *Parnassius (Parnassius) actius dubitabilis* Verity, 1910

74. *Parnassius (Parnassius) apollo piedemontanus* Fruhstorfer, 1909
 75. *Parnassius (Parnassius) apollo euappenninus* Verity, [1913]
 76. *Parnassius (Parnassius) apollo victorialis* Fruhstorfer, 1921 f. *montegrappensis* G. Sala, M. Bollino & de Castro, 1993
 77. *Parnassius (Parnassius) apollo moskovitus* Bryk & Eisner, 1938
 78. *Parnassius (Parnassius) apollo democratus* Krulikowsky, 1906
 79. *Parnassius (Parnassius) apollo limicola* Stichel, 1906
 80. *Parnassius (Parnassius) apollo caucasicus* Pagenstecher, 1912
 81. *Parnassius (Parnassius) apollo tkatshukovi* Sheljuzhko, 1935
 82. *Parnassius (Parnassius) apollo meinhardi* Sheljuzhko, 1924
 83. *Parnassius (Parnassius) apollo transiliensis* Eisner, 1966
 84. *Parnassius (Parnassius) apollo merzbacheri* Fruhstorfer, 1906
 85. *Parnassius (Parnassius) apollo minerva* Bang-Haas, 1910
 86. *Parnassius (Parnassius) apollo alpherakyi* Krulikowsky, 1906
 87. *Parnassius (Parnassius) apollo regius* Lukhtanov, 1997
 88. *Parnassius (Parnassius) apollo burjaticus* Nardelli & Hirschfeld, 1994
 89. *Parnassius (Parnassius) apollonius apollonius* (Eversmann, 1847)
 90. *Parnassius (Parnassius) apollonius aphrodite* Bryk et Eisner, 1934
 91. *Parnassius (Parnassius) apollonius glaucopis* (Bryk et Eisner, 1934)
 92. *Parnassius (Parnassius) apollonius daubi* (Fruhstorfer, 1903)
 93. *Parnassius (Parnassius) apollonius gloriosus* (Fruhstorfer, 1904)
 94. *Parnassius (Parnassius) apollonius poseidon* (Bryk et Eisner, 1934)

 151.*Parnassius (Sachaia) andreji dirschi* Bang-Haas, 1938
 152.*Parnassius (Sachaia) andreji ogawai* Ohya, 1987
 153.*Parnassius (Sachaia) tenedius tenedius* Eversmann, 1851
 154.*Parnassius (Sachaia) tenedius britae* Bryk, 1932

Subgenus *Tadumia* Moore, 1902

- 155.*Parnassius (Tadumia) acco gemmifer* Fruhstorfer, 1904
 156.*Parnassius (Tadumia) acco mirabilis* Bang-Haas, 1927
 157.*Parnassius (Tadumia) acco goergneri* Weiss & Michel, 1989
 158.*Parnassius (Tadumia) acco gloria* Kocman, 1996
 159.*Parnassius (Tadumia) acco andromeda* Kocman, 1996
 160.*Parnassius (Tadumia) acco gyanglaputsai* Huang, 1998
 161.*Parnassius (Tadumia) cephalus elwesi* Leech, 1893
 162.*Parnassius (Tadumia) cephalus micheli* Weiss, 1992
 163.*Parnassius (Tadumia) szechenyii germanae* (Austaut, 1906)
 164.*Parnassius (Tadumia) szechenyii evakaki* Schulte 1992
 165.*Parnassius (Tadumia) schultei schultei* Weiss & Michel, 1989
 166.*Parnassius (Tadumia) hunnyngtoni fujisawai* Kawasaki, 1995
 167.*Parnassius (Tadumia) hardwickii pundjabensis* Bryk, 1934

Tribe *LUEHDORFIINI* Chapman, 1895

Genus *Archon* Hübner, [1822]

- 168.*Archon apollinus apollinus* (Herbst, 1798)
 169. *Archon apollinus bellargus* Staudinger, 1892

170. *Archon apollinus wyatti* Koçak, 1976
171. *Archon apollinus lichyi* Carbonell & Brevignon, 1983
172. *Archon apollinaris apollinaris* (Staudinger, 1892)

Genus *Luehdorfia* Crüger, 1878

173. *Luehdorfia puziloi puziloi* (Erschoff, 1872)
174. *Luehdorfia puziloi lingiangensis* (Lee, 1982)
175. *Luehdorfia longicaudata taibai* Chou, 1994
176. *Luehdorfia chinensis chinensis* Leech, 1893
177. *Luehdorfia japonica japonica* Leech, 1889

Tribe *ZERYNTHINI* Grote, 1899

Genus *Sericinus* Westwood, 1851

178. *Sericinus montela koreana* Fixen, 1887
179. *Sericinus montela amurensis* Staudinger, 1892

Genus *Bhutanitis* Atkinson, 1873

180. *Bhutanitis mansfieldi pulchristriata* (Saigusa & Lee, 1982)
181. *Bhutanitis thaidina melli* Bryk, 1938

Genus *Zerynthia* Ochsenheimer, 1816

Subgenus *Allancastria* Bryk, 1934

182. *Zerynthia (Allancastria) cerisyi cerisyi* (Godart, [1824])
183. *Zerynthia (Allancastria) cerisyi goeksui* Kuhna, 1977
184. *Zerynthia (Allancastria) cerisyi ferdinandi* Stichel, 1907
185. *Zerynthia (Allancastria) caucasica caucasica* (Lederer, 1864)
186. *Zerynthia (Allancastria) caucasica tkatschukovi* Sheljuzhko, 1927
187. *Zerynthia (Allancastria) cretica cretica* (Rebel, 1904)
188. *Zerynthia (Allancastria) deyrollei eisneri* Bernardi, 1970
189. *Zerynthia (Allancastria) louristana louristana* (Le Cerf, 1908)

Subgenus *Zerynthia* Ochsenheimer, 1816

190. *Zerynthia (Zerynthia) polyxena polyxena* ([Denis & Schiffermüller], 1775)
191. *Zerynthia (Zerynthia) polyxena cassandra* (Geyer, 1828)
192. *Zerynthia (Zerynthia) polyxena thesto* Fruhstorfer, 1908
193. *Zerynthia (Zerynthia) rumina andalusiana* Stichel, 1907
194. *Zerynthia (Zerynthia) rumina catalonica* de Sagarra y Castellarnau, 1930
195. *Zerynthia (Zerynthia) rumina castilliana* F.Rühl, 1892
196. *Zerynthia (Zerynthia) rumina cantabricae* Gomez-Bustillo, 1971

Subfamily *PAPILIONINAE* Latreille, [1802]

Tribe *LEPTOCIRCINI* Kirby, 1896

Genus *Lamproptera* Gray, 1832

197. *Lamproptera meges ennius* (C. & R. Felder, 1865)
198. *Lamproptera meges akirai* Tsukada & Nishiyama, 1980
199. *Lamproptera meges decius* (C. & R. Felder, 1862)
200. *Lamproptera meges pessimus* Fruhstorfer, 1909
201. *Lamproptera meges virescens* (Butler, [1870])

202. *Lamproptera curius curius* (Fabricius, 1787)
203. *Lamproptera curius walkeri* (Moore, 1902)

Genus *Eurytides* Hübner, [1821]

204. *Eurytides dolicaon deileon* (C. & R. Felder, 1865)
205. *Eurytides serville serville* (Godart, [1824])
206. *Eurytides columbus* (Kollar, 1850)

Genus *Protagraphium* Munroe, [1961]

207. *Protagraphium agesilaus agesilaus* (Guérin & Percheron, 1835)
208. *Protagraphium epidaeus epidaeus* (Doubleday, 1846)
209. *Protagraphium asius asius* (Fabricius, 1781)
210. *Protagraphium dioxippus diores* (Rothschild & Jordan, 1906)
211. *Protagraphium leucaspis leucaspis* (Godart, 1819)
212. *Protagraphium thyastes thyastinus* (Oberthür, 1879)
213. *Protagraphium marcellus marcellus* (Cramer, 1777)
214. *Protagraphium philolaus philolaus* Boisduval, 1836

Genus *Protesilaus* Swainson, [1832]

215. *Protesilaus protesilaus archesilaus* (Felder & Felder, 1865)
216. *Protesilaus aguiari* (D'Almeida, 1937)
217. *Protesilaus stenodesmus* (Rothschild & Jordan, 1906)
218. *Protesilaus telesilaus telesilaus* (Felder & Felder, 1864)

Genus *Iphiclides* Hübner, [1819]

219. *Iphiclides podalirius podalirius* (Linnaeus, 1758)
220. *Iphiclides podalirius flaccidus* (Krulikowsky, 1908)
221. *Iphiclides podalirius persica* Verity, 1911
222. *Iphiclides podalirius virgatus* (Butler, 1865)
223. *Iphiclides podalirius centralasiae* von Rosen, 1929
224. *Iphiclides feisthameli feisthameli* (Duponchel, 1832)

Genus *Graphium* Scopoli, 1777

Subgenus *Pazala* Moore, 1888

225. *Graphium (Pazala) tamerlanus tamerlanus* (Oberthür, 1876)
226. *Graphium (Pazala) parus parus* (de Niceville, 1900)
227. *Graphium (Pazala) eurous eurous* (Leech, 1893)
228. *Graphium (Pazala) eurous melli* Racheli & Cotton, 2009
229. *Graphium (Pazala) mandarinus mandarinus* (Oberthür, 1879)
230. *Graphium (Pazala) mandarinus kimurai* Murayama, 1982
231. *Graphium (Pazala) mandarinus fangana* Okano, 1986
232. *Graphium (Pazala) sichuanica sichuanica* Koiwaya, 1993

Subgenus *Pathysa* Reakirt, [1865]

233. *Graphium (Pathysa) agetes agetes* (Westwood, 1841)
234. *Graphium (Pathysa) agetes iponus* (Fruhstorfer, 1902)
235. *Graphium (Pathysa) agetes chinensis* (Chou & Li, 1994)
236. *Graphium (Pathysa) androcles androcles* (Boisduval, 1836)
237. *Graphium (Pathysa) antiphates pompilius* (Fabricius, 1787)
238. *Graphium (Pathysa) antiphates itamputi* (Butler, 1885)

239. *Graphium (Pathysa) antiphates balius* Jordan, 1909
240. *Graphium (Pathysa) antiphates kalaoensis* (Rothschild, 1896)
241. *Graphium (Pathysa) aristaeus aristaeus* (Stoll, 1780)
242. *Graphium (Pathysa) aristaeus hermocrates* (C. & R. Felder, [1865])
243. *Graphium (Pathysa) aristaeus parmatius* Gray, 1852
244. *Graphium (Pathysa) aristaeus erebos* Tsukada & Nishiyama, 1980
245. *Graphium (Pathysa) decolor decolor* Staudinger, 1888
246. *Graphium (Pathysa) decolor atratus* (Rothschild, 1895)
247. *Graphium (Pathysa) euphrates domaranus* (Fruhstorfer, 1903)
248. *Graphium (Pathysa) nomius swinhoei* (Moore, 1878)
249. *Graphium (Pathysa) nomius hainana* Chou, 1994
250. *Graphium (Pathysa) dorcus butungensis* Hanafusa, 1997
251. *Graphium (Pathysa) rhesus rhesus* (Boisduval, 1836)
252. *Graphium (Pathysa) rhesus rhesulus* (Fruhstorfer, 1902)

Subgenus *Arisbe* (Hübner, [1819])

***Antheus-evombar* species group:**

253. *Graphium (Arisbe) antheus antheus* (Cramer, 1779)
254. *Graphium (Arisbe) antheus latepictulus* Strand, 1914
255. *Graphium (Arisbe) evombar evombar* (Boisduval, 1836)

***Policenes* species group:**

256. *Graphium (Arisbe) policenes policenes* (Cramer, 1775)
257. *Graphium (Arisbe) policenes telloi* Hecq, 1999
258. *Graphium (Arisbe) kirbyi kirbyi* (Hewitson, 1872)
259. *Graphium (Arisbe) colonna loncona* Suffert, 1904
260. *Graphium (Arisbe) illyris girardeaui* (Guilbot & Plantrou, 1978)
261. *Graphium (Arisbe) porthaon porthaon* (Hewitson, 1865)

***Angolanus* species group:**

262. *Graphium (Arisbe) angolanus angolanus* (Goeze, 1779)
263. *Graphium (Arisbe) angolanus baronis* (Ungemach, 1932)
264. *Graphium (Arisbe) endochus* (Boisduval, 1836)
265. *Graphium (Arisbe) ridleyanus ridleyanus* (White, 1843)
266. *Graphium (Arisbe) ridleyanus semivitreus* Schultze, 1930

***Leonidas* species group:**

267. *Graphium (Arisbe) leonidas leonidas* (Fabricius, 1793)
268. *Graphium (Arisbe) cyrus nuscyrus* (Suffert, 1904)

***Tynderaeus* species group:**

269. *Graphium (Arisbe) tynderaeus tynderaeus* (Fabricius, 1793)
270. *Graphium (Arisbe) latreillianus theorini* (Aurivillius, 1881)

***Adamastor* species group:**

271. *Graphium (Arisbe) adamastor adamastor* (Boisduval, 1836)
272. *Graphium (Arisbe) agamedes agamedes* (Westwood, 1842)
273. *Graphium (Arisbe) schubotzi schubotzi* (Schultze, 1913)
274. *Graphium (Arisbe) ucalegonides* (Staudinger, 1884)
275. *Graphium (Arisbe) hachei moebii* (Suffert, 1904)

Subgenus *Graphium* Scopoli, 1777

276. *Graphium (Graphium) agamemnon agamemnon* (Linnaeus, 1758)
277. *Graphium (Graphium) agamemnon exilis* (Rothschild, 1895)
278. *Graphium (Graphium) agamemnon plisthenes* (C. & R. Felder, 1864)
279. *Graphium (Graphium) agamemnon comodus* (Fruhstorfer, 1903)
280. *Graphium (Graphium) agamemnon ligatus* (Rothschild, 1895)
281. *Graphium (Graphium) arycles perinthus* (Fruhstorfer, 1915)
282. *Graphium (Graphium) bathycles bathycloides* (Honrath, [1884])
283. *Graphium (Graphium) bathycles manlius* Fruhstorfer, 1908
284. *Graphium (Graphium) chironides chironides* (Honrath, 1884)
285. *Graphium (Graphium) doson axion* (Felder & Felder, 1864)
286. *Graphium (Graphium) doson gyndes* (Fruhstorfer, 1907)
287. *Graphium (Graphium) doson nauta* Tsukada & Nishiyama, 1980
288. *Graphium (Graphium) doson evenomides* Honrath, 1884
289. *Graphium (Graphium) doson eurypylides* (Staudinger, 1895)
290. *Graphium (Graphium) doson sangianus* Kalis, 1941
291. *Graphium (Graphium) eurypylus eurypylus* (Linnaeus, 1758)
292. *Graphium (Graphium) eurypylus lutorius* (Fruhstorfer, 1907)
293. *Graphium (Graphium) eurypylus sallastinus* Fruhstorfer, 1902
294. *Graphium (Graphium) eurypylus mecisteus* (Distant, 1885)
295. *Graphium (Graphium) eurypylus gordion* (C. & R. Felder, 1864)
296. *Graphium (Graphium) eurypylus pamphylius* C. & R. Felder, 1865
297. *Graphium (Graphium) eurypylus lycaonides* (Rothschild, 1895)
298. *Graphium (Graphium) evenom eventus* (Fruhstorfer, 1908)
299. *Graphium (Graphium) leechi* (Rothschild, 1895)
300. *Graphium (Graphium) meyeri meyeri* (Hopffer, 1874)
301. *Graphium (Graphium) milon milon* (Felder & Felder, 1865)
302. *Graphium (Graphium) milon anthedon* (C. & R. Felder, 1864)
303. *Graphium (Graphium) monticolus monticolus* (Fruhstorfer, 1896)
304. *Graphium (Graphium) sarpedon sarpedon* (Linnaeus, 1758)
305. *Graphium (Graphium) sarpedon sarpedon f. melas* Fruhstorfer, 1907
306. *Graphium (Graphium) sarpedon connectens* Fruhstorfer, 1908
307. *Graphium (Graphium) sarpedon luctatius* Fruhstorfer, 1907
308. *Graphium (Graphium) sarpedon semifasciatus* (Honrath, 1888)
309. *Graphium (Graphium) sarpedon dodingensis* (Rothschild, 1896)
310. *Graphium (Graphium) sarpedon choredon* (C. & R. Felder, 1864)
311. *Graphium (Graphium) cloanthus cloanthus* Westwood, 1841
312. *Graphium (Graphium) sandawanum sandawanum* Yamamoto, 1977
313. *Graphium (Graphium) weiskei* (Ribbe, 1900)
314. *Graphium (Graphium) stresemanni stresemanni* Rothschild, 1916
315. *Graphium (Graphium) codrus codrus* (Cramer, 1777)
316. *Graphium (Graphium) codrus gilolensis* (Wallace, 1865)
317. *Graphium (Graphium) empedovana empedovana* (Corbet, 1941)

Subgenus *Paranticopsis* Wood-Mason & de Niceville, [1887]

318. *Graphium (Paranticopsis) encelades encelades* (Boisduval, 1836)
319. *Graphium (Paranticopsis) delesserti palawanus* (Staudinger, 1889)
320. *Graphium (Paranticopsis) macareus palawanicola* Koçak, 1980
321. *Graphium (Paranticopsis) deucalion* (Boisduval, 1836)
322. *Graphium (Paranticopsis) megaera* (Staudinger, 1888)

- 323. *Graphium (Paranticopsis) megarus marthae* Toxopeus, 1938
- 324. *Graphium (Paranticopsis) ramaceus pendleburyi* Corbet, 1941
- 325. *Graphium (Paranticopsis) stratocles stratocles* (Felder & Felder, 1862)
- 326. *Graphium (Paranticopsis) stratocles dodongi* (Page & Treadaway, 2003)
- 327. *Graphium (Paranticopsis) stratocles senectus* Tsukada & Nishiyama, 1980
- 328. *Graphium (Paranticopsis) xenocles kephisos* (Fruhstorfer, 1902)
- 329. *Graphium (Paranticopsis) thule* (Wallace, 1865)

Genus *Meandrusa* Moore, 1888

- 330. *Meandrusa payeni ciminus* (Fruhstorfer, 1909)
- 331. *Meandrusa sciron* (Leech, 1890)
- 332. *Meandrusa lachinus aribbas* Fruhstorfer, 1909

Genus *Mimoides* Brown, 1991

- 333. *Mimoides ariarathes gayi* (Lucas, 1852)
- 334. *Mimoides lysithous rurik* (Eschscholtz, 1821)
- 335. *Mimoides pausanias pausanias* (Hewitson, 1852)
- 336. *Mimoides xenia halex* (Rothschild & Jordan, 1906)
- 337. *Mimoides xenia signatus* (Tyler, Brown & Wilson, 1994)
- 338. *Mimoides xenia tabaconas* (Joycey & Talbot, 1918)
- 339. *Mimoides xynias xynias* (Hewitson, 1875)

Tribe *TEINOPALPINI* Grote, 1899

Genus *Teinopalpus* Hope, 1843

- 340. *Teinopalpus imperialis behludinii* Pen, 1936
- 341. *Teinopalpus imperialis imperatrix* de Nicéville, 1899
- 342. *Teinopalpus aureus shinkaii* Morita, 1998

Tribe *TROIDINI* Talbot, 1939

Genus *Cressida* Swainson, 1832

- 343. *Cressida cressida insularis* (Fruhstorfer, 1909)

Genus *Battus* Scopoli, 1777

- 344. *Battus belus varus* (Kollar, 1850)
- 345. *Battus belus cochabamba* (Weeks, 1901)
- 346. *Battus laodamas copanae* (Reakirt, 1863)
- 347. *Battus crassus crassus* (Cramer, 1777)
- 348. *Battus ingenuus* (Dyar, 1907)
- 349. *Battus lycidas* (Cramer, 1777)
- 350. *Battus philenor* (Linnaeus, 1771)
- 351. *Battus madyes chlorodamas* (Guenée, 1872)
- 352. *Battus madyes plinius* (Weymer, 1890)
- 353. *Battus madyes magnimacula* (Joycey & Talbot, 1925)
- 354. *Battus polydamas polydamas* (Linnaeus, 1758)

Genus *Parides* Hübner, 1819

- 355. *Parides agavus* (Drury, 1782)
- 356. *Parides bunichus damocrates* (Guenée, 1872)
- 357. *Parides bunichus perrhebus* (Boisduval, 1836)

358. *Parides montezuma* (Westwood, 1842)
 359. *Parides photinus* (Doubleday, 1844)
 360. *Parides erithalion xanthias* (Rothschild & Jordan, 1906)
 361. *Parides erithalion polyzelus* (Felder & Felder, 1865)
 362. *Parides erithalion chinchipensis* (Joycey & Talbot, 1918)
 363. *Parides eurimedes mylotes* (Bates, 1861)
 364. *Parides lysander brissonius* (Hübner, [1819])
 365. *Parides neophilus anaximenes* (C. & R. Felder, 1862)
 366. *Parides neophilus eurybates* (Gray, [1853])
 367. *Parides neophilus olivencius* (Bates, 1861)
 368. *Parides panares lycimenes* (Boisduval, 1870)
 369. *Parides sesostris sesostris* (Cramer, 1779)
 370. *Parides aeneas damis* (Rothschild & Jordan, 1906)
 371. *Parides anchises koenigi* T. Racheli, 1989
 372. *Parides vertumnus autumnus* (Staudinger, 1898)
 373. *Parides bolivar* (Hewitson, 1850)
 374. *Parides chabrias* (Hewitson, 1852)
 375. *Parides pizarro* (Staudinger, 1884)
 376. *Parides quadratus spoliatus* Staudinger, 1898

Genus *Pharmacophagus* Haase, 1892

377. *Pharmacophagus antenor* (Drury, 1773)

Genus *Byasa* Moore, 1882

378. *Byasa alcinous alcinous* (Klug, 1836)
 379. *Byasa alcinous mansonensis* (Fruhstorfer, 1901)
 380. *Byasa adamsoni adamsoni* (Grose-Smith, 1896)
 381. *Byasa polyeuctes polyeuctes* (Doubleday, 1842)
 382. *Byasa polyeuctes lama* (Oberthür, 1876)
 383. *Byasa dasarada barata* Rothschild, 1908

Genus *Atrophaneura* Reakirt, [1865]

384. *Atrophaneura aidoneus* (Doubleday, 1845)
 385. *Atrophaneura dixoni* (Grose-Smith, 1900)
 386. *Atrophaneura nox nox* (Swainson, 1822)
 387. *Atrophaneura nox nyx* (de Nicéville, 1897)
 388. *Atrophaneura kuehni* (Honrath, 1886)
 389. *Atrophaneura priapus priapus* (Boisduval, 1836)
 390. *Atrophaneura luchti* (Roepke, 1935)
 391. *Atrophaneura semperi albofasciata* (Semper, 1892)
 392. *Atrophaneura semperi supernotatus* (Rothschild, 1895)
 393. *Atrophaneura varuna varuna* (White, 1868)
 394. *Atrophaneura zaleucus* (Hewitson, 1865)

Genus *Losaria* Moore, [1902]

395. *Losaria coon coon* (Fabricius, 1793)
 396. *Losaria coon doubledayi* (Wallace, 1865)

Genus *Pachliopta* Reakirt, [1865]

397. *Pachliopta aristolochiae aristolochiae* (Fabricius, 1775)
 398. *Pachliopta aristolochiae interpositus* (Fruhstorfer, 1904)

399. *Pachliopta aristolochiae asteris* (Rothschild, 1908)
 400. *Pachliopta aristolochiae antissa* (Jordan, 1908)
 401. *Pachliopta aristolochiae goniopeltis* (Rothschild, 1908)
 402. *Pachliopta adamus adamus* (Zinken, 1831)
 403. *Pachliopta adamas lombokensis* Fruhstorfer, 1896
 404. *Pachliopta hector hector* (Linnaeus, 1758)
 405. *Pachliopta kotzebuea philippus* (Semper, 1891)
 406. *Pachliopta kotzebuea deseilus* (Fruhstorfer, 1911)
 407. *Pachliopta mariae mariae* (Semper, 1874)
 408. *Pachliopta leyensis leyensis* Murayama, 1978
 409. *Pachliopta oreon oreon* (Doherty, 1891)
 410. *Pachliopta oreon batuataensis* (?)
 411. *Pachliopta phlegon strandi* (Bryk, 1930)
 412. *Pachliopta polydorus polydorus* (Linnaeus, 1758)
 413. *Pachliopta polydorus tenimberensis* Rothschild, 1895
 414. *Pachliopta polydorus godartianus* Lucas, 1852
 415. *Pachliopta polyphones bugius* Ney, 1911
 416. *Pachliopta schadenbergi schadenbergi* (Semper, 1886)
 417. *Pachliopta schadenbergi micholitzi* (Semper, 1891)
 418. *Pachliopta liris wetterensis* (Rothschild, 1895)
 419. *Pachliopta liris pallidus* Rothschild, 1895

Genus *Trogonoptera* Rippon, [1890]

420. *Trogonoptera brookiana brookiana* (Wallace, 1855)
 421. *Trogonoptera brookiana albescens* Rothschild, 1895
 422. *Trogonoptera brookiana trogon* Snellen van Vollenhoven, 1860
 423. *Trogonoptera trojana* (Honrath, 1886)

Genus *Troides* Hübner, [1819]

Subgenus *Ripponia* Haugum & Low, 1975

424. *Troides (Ripponia) hypolitus hypolitus* (Cramer, 1775)
 425. *Troides (Ripponia) hypolitus cellularis* Rothschild, 1895
 426. *Troides (Ripponia) hypolitus sangirensis* Morisode, 2005

Subgenus *Troides* Hübner, [1819]

427. *Troides (Troides) aeacus aeacus* (C.Felder & R.Felder, 1860)
 428. *Troides (Troides) amphrysus amphrysus* (Cramer, 1782)
 429. *Troides (Troides) vandepolli vandepolli* (Snellen, 1890)
 430. *Troides (Troides) criton criton* (Felder & Felder, 1860)
 431. *Troides (Troides) criton critonides* (Fruhstorfer, 1903)
 432. *Troides (Troides) cuneifera cuneifera* (Oberthür, 1879)
 433. *Troides (Troides) plato* (Wallace, 1865)
 434. *Troides (Troides) haliphron haliphron* (Boisduval, 1836)
 435. *Troides (Troides) haliphron purahu* Kobayashi, 1987
 436. *Troides (Troides) helena helena* (Linnaeus, 1758)
 437. *Troides (Troides) helena sagittatus* Fruhstorfer, 1896
 438. *Troides (Troides) helena hephaestus* Felder, 1865
 439. *Troides (Troides) helena nereides* Fruhstorfer, 1906
 440. *Troides (Troides) helena neoris* Rothschild, 1908
 441. *Troides (Troides) helena antileuca* Rothschild, 1908

442. *Troides (Troides) helena spilota* Rothschild, 1908
 443. *Troides (Troides) magellanus magellanus* (C. Felder & R. Felder, 1862)
 444. *Troides (Troides) oblongomaculatus oblongomaculatus* (Goeze, 1779)
 445. *Troides (Troides) oblongomaculatus papuensis* (Wallace, 1865)
 446. *Troides (Troides) oblongomaculatus bandensis* Pagenstecher, 1904
 447. *Troides (Troides) plateni* Staudinger, 1888
 448. *Troides (Troides) rhadamantus rhadamantus* (Lucas, 1835)
 449. *Troides (Troides) rhadamantus bazilanicus* Fruhstorfer, 1908
 450. *Troides (Troides) rhadamantus hesiodus* Fruhstorfer, 1911
 451. *Troides (Troides) dohertyi* (Rippon, 1893)

Genus *Ornithoptera* Boisduval, [1832]

- Subgenus *Schoenbergia*** Pagenstecher, 1893
 452. *Ornithoptera (Schoenbergia) paradisea flavescentia* Rothschild, 1897
 453. *Ornithoptera (Schoenbergia) meridionalis tarunggarensis* (Joicey & Talbot, 1927)
 454. *Ornithoptera (Schoenbergia) chimaera chimaera* (Rothschild, 1904)
 455. *Ornithoptera (Schoenbergia) rothschildi rothschildi* Kenrick, 1911
 456. *Ornithoptera (Schoenbergia) goliath supremus* Röber, 1896
 457. *Ornithoptera (Schoenbergia) goliath samson* Nipelt, 1913
 458. *Ornithoptera (Schoenbergia) tithonus misresiana* Joicey & Talbot, 1915

Subgenus *Aethoaptera* Rippon, 1894

459. *Ornithoptera (Aethoaptera) victoriae epiphanies* Schmid, 1970
 460. *Ornithoptera (Aethoaptera) victoriae reginae* (Salvin, 1888)
 461. *Ornithoptera (Aethoaptera) victoriae regis* (Rothschild, 1895)
 462. *Ornithoptera (Aethoaptera) victoriae rubianus* (Rothschild, 1895)

Subgenus *Ornithoptera* Boisduval, [1832]

463. *Ornithoptera (Ornithoptera) croesus lydius* (Felder C. & Felder R., 1865)
 464. *Ornithoptera (Ornithoptera) aesacus* (Ney, 1903)
 465. *Ornithoptera (Ornithoptera) priamus priamus* (Linnaeus, 1758)
 466. *Ornithoptera (Ornithoptera) priamus poseidon* (Doubleday, 1847)
 467. *Ornithoptera (Ornithoptera) priamus poseidon* (Doubleday, 1847) f. *cronius* (Felder, 1864)
 468. *Ornithoptera (Ornithoptera) priamus poseidon* f. *triton* C. & R. Felder, 1864
 469. *Ornithoptera (Ornithoptera) priamus poseidon* f. ♀ *brunneus* (Rothschild, 1895)
 470. *Ornithoptera (Ornithoptera) priamus poseidon* f. ♀ *aurago* Fruhstorfer, 1913
 471. *Ornithoptera (Ornithoptera) priamus arruana* (Felder C. & Felder R., 1859)
 472. *Ornithoptera (Ornithoptera) priamus boisduvali* (Montrouzier, 1856)
 473. *Ornithoptera (Ornithoptera) priamus teucrus* Joicey & Talbot, 1916
 474. *Ornithoptera (Ornithoptera) priamus urvillianus* (Guerin-Meneville, 1838)

Триба *PAPILIONINI* Latreille, [1802]

Genus *Chilasa* Moore, [1881]

- Subgenus *Agehana*** Matsumura, 1936
 475. *Chilasa (Agehana) elwesi cavalerei* Le Cerf, 1923

Subgenus *Chilasa* Moore, [1881]

476. *Chilasa (Chilasa) clytia clytia* (Linnaeus, 1758)
 477. *Chilasa (Chilasa) clytia echidna* Boisduval, 1836
 478. *Chilasa (Chilasa) clytia palephates* (Westwood, 1845)
 479. *Chilasa (Chilasa) paradoxa telearchus* Hewitson, 1852
 480. *Chilasa (Chilasa) agestor agestor* (Gray, 1831)
 481. *Chilasa (Chilasa) slateri slateri* Hewitson, [1859]
 482. *Chilasa (Chilasa) slateri perses* (de Nicéville, 1894)
 483. *Chilasa (Chilasa) epycides horatius* Blanchard, 1871
 484. *Chilasa (Chilasa) osmana osmana* Jumalon, 1967
 485. *Chilasa (Chilasa) veiovis veiovis* (Hewitson, 1853)
 486. *Chilasa (Chilasa) toboroi toboroi* (Ribbe, 1907)

Genus *Papilio* Linnaeus, 1758

Subgenus *Achillides* Hübner, [1819]

487. *Papilio (Achillides) syfanius syfanius* Oberthür, 1886
 488. *Papilio (Achillides) arcturus arcturus* Westwood, 1842
 489. *Papilio (Achillides) arcturus arcturulus* Fruhstorfer, 1901
 490. *Papilio (Achillides) polycytor stockleyi* Gabriel, 1936
 491. *Papilio (Achillides) bianor bianor* Cramer, 1777
 492. *Papilio (Achillides) bianor ganesa* Doubleday, 1842
 493. *Papilio (Achillides) bianor xiei* Chou, 1994
 494. *Papilio (Achillides) bianor nakaharae* Matsumura, 1929
 495. *Papilio (Achillides) bianor doii* Matsumura, 1928
 496. *Papilio (Achillides) bianor thrasymedes* Fruhstorfer, 1909
 497. *Papilio (Achillides) maackii maackii* Ménétriés, 1859
 498. *Papilio (Achillides) maackii tutanus* Fenton, [1882]
 499. *Papilio (Achillides) maackii kurilensis* Matsumura, 1928;
 500. *Papilio (Achillides) dialis andronicus* Fruhstorfer, 1909
 501. *Papilio (Achillides) blumei blumei* Boisduval, 1836
 502. *Papilio (Achillides) blumei fruhstorferi* Röber, 1897
 503. *Papilio (Achillides) chikae hermeli* Nuyda, 1992
 504. *Papilio (Achillides) crino crino* Fabricius, 1792
 505. *Papilio (Achillides) daedalus daedalus* Felder & Felder, 1861
 506. *Papilio (Achillides) daedalus angustatus* (Staudinger, 1888)
 507. *Papilio (Achillides) krishna charlesi* Fruhstorfer, 1902
 508. *Papilio (Achillides) neumoegeni neumoegeni* (Honrath, 1890)
 509. *Papilio (Achillides) karna karna* Felder & Felder, 1864
 510. *Papilio (Achillides) paris paris* Linnaeus, 1758
 511. *Papilio (Achillides) paris tenggerensis* (Fruhstorfer, 1893)
 512. *Papilio (Achillides) paris battacorum* Rothschild, 1908
 513. *Papilio (Achillides) paris chinensis* (Rothschild, 1895)
 514. *Papilio (Achillides) paris hermosanus* Rebel, 1906
 515. *Papilio (Achillides) pericles* Wallace, 1865
 516. *Papilio (Achillides) peranthus peranthus* Fabricius, 1787
 517. *Papilio (Achillides) peranthus transiens* (Fruhstorfer, 1897)
 518. *Papilio (Achillides) peranthus baweanus* Hagen, 1896
 519. *Papilio (Achillides) peranthus fulgens* (Röber, 1891)
 520. *Papilio (Achillides) peranthus insulicola* Rothschild, 1896
 521. *Papilio (Achillides) peranthus adamantius* (C. & R. Felder, 1864)
 522. *Papilio (Achillides) lorquinianus albertsi* (Oberthür, 1880)

523. *Papilio (Achillides) ulysses ulysses* Linnaeus, 1758
 524. *Papilio (Achillides) ulysses autolycus* (C. & R. Felder, 1865)
 525. *Papilio (Achillides) ulysses telegonus* (C. & R. Felder, 1860)

Subgenus *Eleppone* Hancock, 1979

526. *Papilio (Eleppone) anactus* Macleay, 1826

Subgenus *Druryia* Aurivillius, 1881

527. *Papilio (Druryia) antimachus antimachus* Drury, 1782
 528. *Papilio (Druryia) mackinnoni mackinnoni* Sharpe, 1891
 529. *Papilio (Druryia) rex mimeticus* Rothschild, 1897
 530. *Papilio (Druryia) chrapkowskoides chrapkowskoides* Storace, 1952
 531. *Papilio (Druryia) chrapkowskoides nurettini* Koçak, 1983
 532. *Papilio (Druryia) desmondi magdae* Gifford, 1961
 533. *Papilio (Druryia) epiphorbas epiphorbas* Boisduval, 1833
 534. *Papilio (Druryia) hornimanii* Distant, 1879
 535. *Papilio (Druryia) nireus nireus* Linnaeus, 1758
 536. *Papilio (Druryia) nireus lyaeus* Doubleday, 1845
 537. *Papilio (Druryia) oribazus oribazus* Boisduval, 1836
 538. *Papilio (Druryia) charopus montuosus* Joicey & Talbot, 1927
 539. *Papilio (Druryia) gallienius* Distant, 1879
 540. *Papilio (Druryia) mechowi mechowi* Dewitz, 1881
 541. *Papilio (Druryia) mechowianus* Dewitz, 1885
 542. *Papilio (Druryia) fuelleborni neocesa* Kemal & Kocak, 2005
 543. *Papilio (Druryia) echerioides joiceyi* Gabriel, 1945
 544. *Papilio (Druryia) cynorta cynorta* Fabricius, 1793
 545. *Papilio (Druryia) zenobia* Fabricius, 1775
 546. *Papilio (Druryia) zalmoxis zalmoxis* Hewitson, 1864

Subgenus *Heraclides* Hübner, [1819]

547. *Papilio (Heraclides) anchisiades anchisiades* Esper, 1788
 548. *Papilio (Heraclides) anchisiades idaeus* (Fabricius, 1793)
 549. *Papilio (Heraclides) anchisiades capys* (Hübner, [1809])
 550. *Papilio (Heraclides) chiansiades chiansiades* (Westwood, 1872)
 551. *Papilio (Heraclides) isidorus isidorus* Doubleday, 1846
 552. *Papilio (Heraclides) isidorus tingo* T. Racheli & L. Racheli, 1995
 553. *Papilio (Heraclides) androgeus androgeus* Cramer, 1776
 554. *Papilio (Heraclides) androgeus epidaurus* Godman & Salvin, [1890]
 555. *Papilio (Heraclides) astyalus astyalus* Godart, 1819
 556. *Papilio (Heraclides) astyalus phanaeus* (Rothschild & Jordan, 1906)
 557. *Papilio (Heraclides) cresphontes* Cramer, 1777
 558. *Papilio (Heraclides) hectorides* Esper, 1794
 559. *Papilio (Heraclides) thoas cinyras* Ménétriés, 1857
 560. *Papilio (Heraclides) thoas autocles* Rothschild & Jordan, 1906
 561. *Papilio (Heraclides) torquatus torquatus* Cramer, 1777
 562. *Papilio (Heraclides) garleppi interruptus* Staudinger, 1892

Subgenus *Menelaides* Hübner, [1819]

563. *Papilio (Menelaides) bootes parcesquamata* Rosen, 1929
 564. *Papilio (Menelaides) alcmenor publilius* (Fruhstorfer, 1909)
 565. *Papilio (Menelaides) alcmenor nausithous* Oberthür, 1918

566. *Papilio (Menelaides) ascalaphus ascalaphus* Boisduval, 1836
 567. *Papilio (Menelaides) deiphobus deiphobus* Linnaeus, 1758
 568. *Papilio (Menelaides) deiphobus deiphontes* C. & R. Felder, 1864
 569. *Papilio (Menelaides) forbesi forbesi* Grose-Smith, 1883
 570. *Papilio (Menelaides) aegeus ormenus* (Guérin-Méneville, 1829)
 571. *Papilio (Menelaides) aegeus keianus* Rothschild, 1896
 572. *Papilio (Menelaides) aegeus othello* Grose-Smith, 1894
 573. *Papilio (Menelaides) albinus albinus* Wallace, 1865
 574. *Papilio (Menelaides) tydeus obiensis* Rothschild, 1898
 575. *Papilio (Menelaides) ambrax ambrax* Boisduval, 1832
 576. *Papilio (Menelaides) ambrax ambrax f. lutosa* Fruhstorfer, 1909
 577. *Papilio (Menelaides) antonio* Hewitson, 1875
 578. *Papilio (Menelaides) fuscus fuscus* Goeze, 1779
 579. *Papilio (Menelaides) fuscus heringi* Niepelt, 1924
 580. *Papilio (Menelaides) fuscus indicatus* (Butler, 1876)
 581. *Papilio (Menelaides) fuscus beccarii* (Oberthür, 1879)
 582. *Papilio (Menelaides) fuscus lapathus* Fruhstorfer, 1904
 583. *Papilio (Menelaides) fuscus pertinax* Wallace, 1865
 584. *Papilio (Menelaides) fuscus xenophilus* Mathew, 1886
 585. *Papilio (Menelaides) diophantus diophantus* Grose-Smith, 1882
 586. *Papilio (Menelaides) castor castor* Westwood, 1842
 587. *Papilio (Menelaides) castor formosanus* Rothschild, 1896
 588. *Papilio (Menelaides) euchenor euchenor* Guérin-Méneville, 1829
 589. *Papilio (Menelaides) euchenor lasos* Fruhstorfer, 1903
 590. *Papilio (Menelaides) gambrisius gambrisius* (Cramer, 1777)
 591. *Papilio (Menelaides) gambrisius buruanus* Rothschild, 1897
 592. *Papilio (Menelaides) woodfordi woodfordi* Godman & Salvin, 1888
 593. *Papilio (Menelaides) canopus canopinus* Rothschild, 1895
 594. *Papilio (Menelaides) canopus buisi* Kalis, 1941

SYSTEMATIC CATALOGUE ON THE COLLECTION

Superfamily *PAPILIONOIDEA*

Family *PAPILIONIDAE* Latreille, [1802]

Subfamily *BARONIINAE* Bryk, 1913

Genus *Baronia* Salvin, 1893

Baronia brevicornis Salvin, 1893

Original description: *Baronia brevicornis* Salvin, 1893; Trans. ent. Soc. Lond. 1893 (4): 331.

Note: species is one of the most archaic of *Papilionidae*, it characterized by high variability in color of wings; more than 25 forms and aberrations described of this species (only Mr. Vaskues, 1988, described the fifteen forms!); all of them have infrasubspecific status and only one subspecies - ssp. *rufodiscalis* Maza & White, 1987 from southeastern Mexico (NW Chiapas).

Baronia brevicornis brevicornis Salvin, 1893

Type locality: "Mexico, Guerrero".

Synonyms: f. *eusemna* Dyar, 1912; f. *phronima* Dyar, 1912; ab. *aureomaculata* Bryk, 1913; f. *puella* Bouillet, 1913; f. *gehleni* Bryk, 1931; f. *pallida* Kotzsche, 1939; f. *intemerata* Hoffmann, 1940; f. *luteotincta* Hoffmann, 1940; f. *pallida* Eisner, 1962; (preocc. Kotzsche, 1939); f. *argentea* Eisner, 1962; f. *parvisubmarginalis* Eisner, 1974; f. *intermedia* Vázquez, 1988; f. *diffusa* Vázquez, 1988.

Mexico

1. (Table I,1) *Topotypus* ♂, Mexique, Guerrero, Mezcala. 560 m. 10.07.2011. Ex coll. Korolev V.A., № P01316;

3. *Topotypus* ♂, "Baronia brevicornis ♂" / Mexico, Mezcala, Guerrero, 550 m, 10.07.2012. Ex coll. Korolev V.A., № P01598.

Subfamily *PARNASSIINAE* Duponchel, [1835]
Tribe *PARNASSIINI* Duponchel, [1835]

Genus *Hypermnestra* Ménétriés, 1848

Hypermnestra Menetries, 1848, Mem. Ac. St.-Petersb., (6)8(2 Part.), Sc. Natur. 6: 274 (= *Ismene* Nickerl, 1846, Ent. Zeitg. Stettin. 7:207 (preoccupied)). Type species of Genus – *Hypermnestra helios* Nick.

***Hypermnestra helios* (Nickerl, 1846)**

Original description: *Ismene helios* Nickerl, 1846, Ent. Zeitg. Stettin. 7:208, t. (3)a,b, (♂) c,d, (♀) e (caput) f, (palpa) g. (antenn.);

Hypermnestra helios helios (Nickerl, 1846)

Type locality: “Westliche Kirgisiensteppe”, southwestern Kazakhstan.

Synonyms: *Doritis ismene* Herrich-Schaffer, 1856; *ssp. intermedia* Verity, 1911; *helios* ab. ♂ *phaeton* Bryk, 1913; *helios* ab. *poverina* Bryk, 1913.

Kazakhstan

4. (Table I,4) ***Topotypus* ♂**, SE Kazakhstan, Ili river, Bakanas v., 3.05.2005, Ex coll. V.A.Korolev, № P00001.

Hypermnestra helios maxima Grum-Grshimailo, 1890

Type locality: «Самарканда», Samarkand, Uzbekistan.

Synonyms: =*helios* ab. *ochreomaculata* Gr.-Gr., 1890; =*helios* ab. *ochrea* Verity, 1907, (TL: «Наманган», Namangan); =*ssp. maxima* f. *fasciata* Eisner, 1954.

Uzbekistan

5. (Table I,5) ♂, “*Hypermnestra helios / maxima* ♂ / Узбекистан, Ферганская долина, г.Колхозабад, 15.05.1995. Ex coll. Гундоров С.Б.” [Uzbekistan, Fergana valley, Kolhozabad-city, 15.05.1995. Ex coll. Gundorov S.B.] (Ex coll. V.A.Korolev, № P01066).

Tadzhikistan, Gissar Mts.

6. (Table I,6) ♀, “*Hypermnestra helios / maxima* ♀ / Таджикистан, Гиссар? окр. п.Чинад, 28.05.1998, leg. Гундоров С.Б.” [Tadzhikistan, Gissar? vic. Chind village, 28.05.1998, leg. Gundorov SB] (Ex coll. V.A.Korolev, № P01065).

Hypermnestra helios persica Neuburger, 1900

Type locality: “Poin-Shakub”, N. Iran, Kopet-Dagh.

Synonyms: =*ssp. christophi* Bang-Haas, 1938, (TL: Turkmenia); =*ssp. hyrcana* Sheljuzhko, 1956 (nom. nud. *persica* Roths. nec. Neuburger), TL: «сев. Иран», N.Iran.

Turkmenia, Kopet-Dagh

7. ♂, "Копетдаг, предг. г.Сунт, 10.04.1983, Девяткин А.Л." [Kopet-Dagh, loc. Sunt, 10.04.1983, Devyatkin AL] (Ex coll. V.A.Korolev, № P00005);
8. ♂, Kopetdag, Kara-Kala, 8.06.1984, leg. Mimonov E. (Ex coll. V.A.Korolev, № P00003);
9. (Table I,9) ♂, "Зап. Копетдаг, р.Сумбур, п.Кара-Кала, 1-3.04.1991, Евстигнеев А.А." [W.Kopet-Dagh, Sumbur river, Kara-Kala village, 1-3.04.1991, Evstigneev AA.] (Ex coll. V.A.Korolev, № P00002);
10. (Table I,10) ♀, Kopetdag, Kara-Kala, 8.06.1984, leg. Mimonov E. (Ex coll. V.A.Korolev, № P00004).

Genus *Parnassius* Latreille, 1804

Subgenus *Driopa* Korshunov, 1988

***Parnassius (Driopa) ariadne* Lederer, 1853**

Original description: *Doritis* Fab. sp. *ariadne* (Lederer, 1853); Verh. zool.-bot. Ver. Wien 3 : 354
Synonyms: *clarius* Eversmann, 1843; (nom. praeocc.; junior primary homonym of *Doritis clarius* Hübner, [1806].).

***Parnassius (Driopa) ariadne ariadne* [Lederer, 1853]**

Type locality: "an den südwestlichen Vorbergen des Altai an kahlen felsigen Stellen [...] am oberen Irtisch zwischen Ustkamenogorsk und Ustbuchtarminsk gegen die chinesische Grenze zu".

Parnassius (Driopa) hoenei Schweitzer, 1912

Original description: *Parnassius stubbendorfii* ssp. *hoenei* Schweitzer, 1912. Ent. Zeitschr. 25:57.
Type locality: Japan (Iburi).

Japan

226. ♂, “*Parnassius hoenei*” / Japan, Obihiro-shi Hokkaido, Iwanaisenkyou. 18.06.2010. (Ex coll. V.A.Korolev, № P01516)

Parnassius (Driopa) hoenei esakii Nakahara, 1926

Type locality: Sakhalin.

Russia, Sakhalin is.

227. ♂, Far East of Russia, S.Sakhalin isl., Novoalexandrovsk env. 3.07.2013 / Ex coll. Korolev V.A., № P01939;

Parnassius (Driopa) glacialis Butler, 1866

Original description: *Parnassius glacialis* Butler, 1866; J. Linn. Soc. Zool. Lond. 9 (34) : 50

Note: long time this taxon considered as a subspecies *stubbendorfii* Menetries, 1849 (see Bryk, 1935). However, studies by Takashi Yagi et al. (Yagi T. et al. 2001), conducted with the help of genetic analysis confirmed the independence of this species. They established ranges overlap *P. stubbendorfii hoeni* and *P. glacialis glacialis* in southern Hokkaido.

Type locality: "Umgebung von Tsingtau (Deutsch-China)" (lower flow of Yellow-river, Shandun Prov., China).

Synonyms: *tsingtanus* A.Bang-Haas, 1910; *tajanus* Bryk, 1932.

China, Shandun prov.

228. (Table II, 228) ♀, China, Shandun Prov., 12.05.2008. (Ex coll. V.A.Korolev, № P01020)

Subgenus *Kailasius* Moore, 1902

***Parnassius (Kailasius) autocrator* Avinov, 1913**

Original description: *Parnassius charltonius* Gray subsp. *autocrator* Avinov, 1913. Horae Soc. Ent. Ross. 40 (5) : 16-17, pl. 2, f. 3.

***Parnassius (Kailasius) autocrator autocrator* Avinov, 1913**

Type locality: "in montibus Darvazi centrali lecta. [...] в горах Дарваза, несколько на запад от местонахождения *vaporosus*"; E.Pamir.

Tadzhikistan, East Pamir

229. (Table II, 229) ♂, Tadzhikistan, East Pamir, Muzkol, W.Pshart river, 4100 m, 27/07.2004; / Ex coll. V.A.Korolev, № P00282;

230. ♀, Muzkol ran., W.Pshart riv., h=3700 m, E.Pamir, Tadjikistan, 25.07-01.08.2011. Vodjanov lg. / Ex coll. Korolev V.A., № P01917.

Tadzhikistan, West Pamir

231. ♂, E. Tadzhikistan. W.Pamir. Vanch Mt. Range, Vanch district, above Gishkhan vill., 4000 m, 23-28.07.2010. O.Pak & E.Ivanova lg. (Ex coll. Korolev V.A., № P01580).

***Parnassius (Kailasius) charltonius* Gray, 1853**

Original description: *Parnassius charltonius* Gray, [1853]; Cat. lep. Ins. Coll. Brit. Mus. 1 (*Papilionidae*): 77, pl. 12, f. 7.

Type locality: "jenseits des Passes Dschirge. [...] Gipfel des Dschirge [...] (Dschirge-tal-bilj) [...] nicht unter 12,000 Fuss Meereshöhe";

Kirgizstan, Trans Alai Mt.

232. ♂, S Kirgizstan, Trans Alai Mt. rng., Aram-Kungei river, 3100 m, 14.07.2012. / Ex coll. Korolev V.A., № P01952.

***Parnassius (Kailasius) charltonius vaporosus* Avinov, 1913 (1916)**

Type locality: "Volat montibus Darvazi orientalis [...] из восточного Дарваза" (the east of area between Peter I Mts. and Vanch Mts.; South Alichursky Mts.)

Tadzhikistan, West Pamir

233. (Table II, 233) ♂, "Зап. Памир, Шугнанский хр., уроч. Сангуо-Дара, 3800 м., 17.07.1969, Загуляев М.А.", [West Pamir, Shugnan Mts., Sangou-Dara, 3800 m, 17.07.1969, Zagulyaev M.A. leg.] (Ex coll. V.A.Korolev, № P00279);
 234. ♂, "Зап. Памир, Шугнанский хр., уроч. Сангуо-Дара, 4100 м., 28.07.1972, Загуляев М.А.", [West Pamir, Shugnan Mts., Sangou-Dara, 3800 m, 17.07.1969, Zagulyaev M.A. leg.] (Ex coll. V.A.Korolev, № P00280).

***Parnassius (Kailasius) charltonius sochivkoi* Churkin, 2009**

Type locality: Ak-Bura river, NE Alai Mts.

Kirghizia, Alai Mts.

235. ♂, S. Kirgizstan, Alai Range, Isfiram-Saj Valley, Langar circ., 3100 m, 13.07.1997. I.Plyushtch lg. (Ex coll. Korolev V.A., № P01574).

***Parnassius (Kailasius) augustus* Fruhstorfer, 1903**

Original description: *Parnassius imperator augustus* Fruhstorfer, 1903; Soc. Ent. 18 (15): 113.

Note: some authors considering this taxon as a subspecies of *P. imperator*; but others – as a separate species.

***Parnassius (Kailasius) augustus augustus* Fruhstorfer, 1903**

Type locality: «... von der Sikkim Tibetanischen Grenze, gefangen auf 18,000'»; Sikkim, Tibet.

China, S.Tibet:

236. (Table II, 236) ♂, China, Kangmar, Shigatse [near Sikkim], Tibet, 10-30/VII/2014, H=4800 m / Ex coll. Korolev V.A., № P02026.

***Parnassius (Kailasius) imperator* Oberthür, 1883**

Original description: *Parnassius imperator* Oberthür, 1883; Bull. Soc. ent. Fr. 1883: lxxvii.

***Parnassius (Kailasius) imperator musageta* Grum-Grshimailo, 1891**

Type locality: "In regione Amdo dicta, in montibus ad flumen Chuan-che" (West China, Amdo Prov.).

Synonyms: *musagetus*.

China, Tibet, Kun-Lun Mts.

237. (Table II, 237) ♂, [Kun-Lun Mts.] China, Quinhai prov., Ledu, 3400 m, 20.06.2004; (Ex coll. V.A.Korolev, № P00283);

238. ♀, *P. imperator musageta*, China, Tibet, Cinhaj, Amdo, H = 3400 m, 5.07.2005. (Ex coll. V.A.Korolev, № P01117).

***Parnassius (Kailasius) loxias* Püngeler, 1901**

***Parnassius (Koramius) acdestis lathonius* (Bryk, 1913)**

Type locality: South Tibet, China.

China, South Tibet

240. (Table II, 240) ♂, [China] [S.] Tibet, Koro-la [pass], 5200-5400 m., 06.1995, leg. Ammosov O. (Ex coll. V.A.Korolev, № P00385).

Parnassius (Koramius) acdestis irenaephilus Bryk, 1943

Type locality: "Batang, alpine Zone (ca. 5000 m)" (Centr. China, Sichuan, Batang).

China, Sichuan prov.

241. (Table II, 241) *Topotypus* ♂, «*P. acdestis cinerosus*», China, Batang, Sichuan Prov., 6-15.07.2006. (Ex coll. V.A.Korolev, № P01112).

Parnassius (Koramius) acdestis roweii Sorimachi & Morita, 1994

Type locality: C.Tibet, China.

China, Tibet

242. (Table II, 242) ♂, China, Tibet, Yung-La Pass, 5000 m, 14.07.2011. (Ex coll. Korolev V.A., № P01657).

Parnassius (Koramius) cardinal Grum-Grshimailo, 1887

Original description: *Parnassius delphius* var. *cardinal* Grum-Grshimailo, 1887; in Romanoff, Mém. Lép. 3: 39.

Parnassius (Koramius) cardinal cardinal Grum-Grshimailo, 1887

Type locality: Kette Peter I [...] zum Flecken Tuptschek und an den Fuss des Kara-Schar (über 20,000 Fuss) (Peter I Mts., Tupchek-pass, Kara-Shar river, Tadzhikistan).

Tadzhikistan, Peter I Mts.

243. (Table II, 243) ♂, Tadjikistan, Peter I Mts., Lyangar, h=2800 m, 8.07.2006. (Ex coll. V.A.Korolev, № P00881).

Parnassius (Koramius) cardinal djamila Eisner & Naumann, 1980

Type locality: "N-Afghanistan, Prov. Badakhshan, 15 km NE Baharak, Kotal-e-Zardeu, Darr-e-Hazar-Tshashma, 3100 m".

Afghanistan

244. ♂, NE Afghanistan, Badakhshan, Lal Mts., Shiva Lake, 3800-3900 m. 22-25.07.2011. O. Pak leg. (Ex coll. Korolev V.A., № P01575);
245. ♂, NE Afghanistan, Badakhshan, Lal Mts., Shiva Lake, 3800-3900 m. 22-25.07.2011. O. Pak leg. (Ex coll. Korolev V.A., № P01576);
246. (Table II, 246) ♂, NE Afghanistan, Badakhshan, Lal Mts., Shiva Lake, 3500-3600 m. 24-25.07.2011. O. Pak leg. (Ex coll. Korolev V.A., № P01586);
247. ♂, NE Afghanistan, Badakhshan, Lal Mts., Shiva Lake, 3500-3600 m. 24-25.07.2011. O. Pak leg. (Ex coll. Korolev V.A., № P01587);
248. ♂, NE Afghanistan, Badakhshan, Lal Mts., Shiva Lake, 3500-3600 m. 24-25.07.2011. O. Pak leg. (Ex coll. Korolev V.A., № P01589);

249. ♀, NE Afghanistan, Badakhshan, Lal Mts., Shiva Lake, 3500-3600 m. 24-25.07.2011. O. Pak leg. (Ex coll. Korolev V.A., № P01588);
250. ♀, NE Afghanistan, Badakhshan, Lal Mts., Shiva Lake, 3800-3900 m. 22-25.07.2011. O. Pak leg. (Ex coll. Korolev V.A., № P01577).

Parnassius (Koramius) delphius (Eversmann, 1843)

Original description: *Parnassius delphius* Eversmann, 1843; Bull. Soc. Imp. Nat. Moscou, 16 (3): 541, pl. 7, f. 1A-B

Note: the species characterized by the formation of melanistic forms - dark aberrations having infrasubspecific status. Among them are described f. *satanas* Bang-Haas, 1910 and f. *styx* Staudinger, 1886.

Parnassius (Koramius) delphius delphius (Eversmann, 1843)

Type locality: "...cum duabus praecedentibus speciebus in iisdem locis [...] in promontoriis Altaicis australibus"; corrected TL: E.Kazakhstan, Dzhungaria, Tarbagatai.

Kazakhstan, Dzhungaria

251. ♂, SE Kazakhstan, Dzhungarsky Alatau, Toksonbai Mt. Range, Uitas Mt. envir., 3000-3300 m a.s.l., 29.06.2012. K.Dovgailo leg. (Ex coll. Korolev V.A., № P01796).

Parnassius (Koramius) delphius pulchra (Eisner, 1939)

Type locality: "Kungei Ala Tau, Kok-Bulak" (Tien-Shan, Kungei Alatau Mts., Kok-Bulak, Kirghizia).

Synonyms: *menander* Hemming, 1934.

Kazakhstan, N.Tien-Shan, Transili Alatau Mts.

252. (Table II, 252) ♂, "Зайлийский Алатау, долина р.Чилик, окр. п.Саты, оз.Кюльсай, 25.07.1991, Щаденков А.А.", [Transili Alatau, Chilik river valley, loc. Saty village, Kulsai lake, 25.07.1991, Stshadenkov A.A. leg.] (Ex coll. V.A.Korolev, № P00370);

253. (Table II, 253) ♀, f. *styx* Staudinger, 1886, "Зайлийский Алатау, долина р.Чилик, окр. п.Саты, оз.Кюльсай, 25.07.1991, Щаденков А.А.", [Transili Alatau, Chilik river valley, loc.

Kazakhstan, Ketmen Mts.

254. ♂, IOB Казахстан, хр. Кетмень, окр. п. Б.Кетмень, 3100 м, 15.07.1992, С.Каунов leg. [SE Kazakhstan, Ketmen Mts., loc. Big Ketmen vil., 3100 m, 15.07.1992. S.Kaunov leg.] (Ex coll. Korolev V.A., № P01635);
255. ♂, f. *styx* Staudinger, 1886, IOB Казахстан, хр. Кетмень, окр. п. Б.Кетмень, 3100 м, 15.07.1992, С.Каунов leg. [SE Kazakhstan, Ketmen Mts., loc. Big Ketmen vil., 3100 m, 15.07.1992. S.Kaunov leg.] (Ex coll. Korolev V.A., № P01636);
256. ♀, f. *styx* Staudinger, 1886, IOB Казахстан, хр. Кетмень, окр. п. Б.Кетмень, 3100 м, 15.07.1992, С.Каунов leg. [SE Kazakhstan, Ketmen Mts., loc. Big Ketmen vil., 3100 m, 15.07.1992. S.Kaunov leg] (Ex coll. Korolev V.A., № P01637).

258

262

264

***Parnassius (Koramius) delphius namanganus* (Staudinger, 1886)**

Type locality: "von den Alpen bei Namangan" (east part of Chatkal Mts., - Tshikolovets, 2000:85).

Kirghizia, N.Tien-Shan, Kirghizski Mts.

257. ♂, "Киргизский хр., ущелье р.Шамси, 28.06.1992, Чиколовец В.В.", [Kirghizski Mts., Shamsi river canyon, 28.06.1992, Tshikolovets V.V. leg.] (Ex coll. V.A.Korolev, № P00372);
258. ♂, "Киргизский хр., ущелье р.Шамси, 28.06.1992, Чиколовец В.В.", [Kirghizski Mts., Shamsi river canyon, 28.06.1992, Tshikolovets V.V. leg.] (Ex coll. V.A.Korolev, № P00373);
259. (Table II, 259) ♀, "Киргизский хр., ущелье р.Шамси, 28.06.1992, Чиколовец В.В.", [Kirghizski Mts., Shamsi river canyon, 28.06.1992, Tshikolovets V.V. leg.] (Ex coll. V.A.Korolev, № P00374);
260. (Table II, 260) ♀, "Киргизский хр., ущелье р.Шамси, 28.06.1992, Чиколовец В.В.", [Kirghizski Mts., Shamsi river canyon, 28.06.1992, Tshikolovets V.V. leg.] (Ex coll. V.A.Korolev, № P00375);
261. ♀, "Киргизский хр., ущелье р.Шамси, 28.06.1992, Чиколовец В.В.", [Kirghizski Mts., Shamsi river canyon, 28.06.1992, Tshikolovets V.V. leg.] (Ex coll. V.A.Korolev, № P00376).

***Parnassius (Koramius) delphius menander* Hemming, 1934**

Type locality: Inner Tien Shan?

Note: some authors considering this taxon as a synonym of ssp. *pulchra* (Eisner, 1939).

Kirghizia, Inner Tien-Shan, Baydulu Mts.

262. ♂, “Внутренний Тянь-Шань, [хр.Байдулу], пер. Долон, 3200 м, 3.07.1976, Самодуров Г.Д.”, [Inner Tien-Shan, Baydulu Mts., Dolon pass, 3200 m, 3.07.1976, Samodurov G.D. leg.] (Ex coll. V.A.Korolev, № P00377);
263. ♂, “Внутренний Тянь-Шань, [хр.Байдулу], пер. Долон, 3200 м, 3.07.1976, Самодуров Г.Д.”, [Inner Tien-Shan, Baydulu Mts., Dolon pass, 3200 m, 3.07.1976, Samodurov G.D. leg.] (Ex coll. V.A.Korolev, № P00378);
264. ♂, f. *satanas* A.Bang-Haas, 1910; “Внутренний Тянь-Шань, [хр.Байдулу], пер. Долон, 3200 м, 3.07.1976, Самодуров Г.Д.”, [Inner Tien-Shan, Baydulu Mts., Dolon pass, 3200 m, 3.07.1976, Samodurov G.D. leg.] (Ex coll. V.A.Korolev, № P00379);
265. ♂, Kirghizstan, Inner Tien-Shan, Baiduly M. Range, upper stream of Kara-Unkyur river, 3200-3500 m a.s.l., 7.07.2009. N.Rubin & Yu. Sobolevskaya leg. (Ex coll. V.A.Korolev, № P01797).

Parnassius (Koramius) delphius candidatus Bang-Haas, 1915

Type locality: "Thianschan or., Juldus (Kuldscha, Ili, Issykkul) Ingiltschek".

Kirghizia, C.Tien-Shan, Terskey Alatau Mts.

266. (Table II, 266) ♂, *P. delphius candidatus*, Kirghizstan, Tian-Shan, E.Terskei-Alatau Mts., Bayankol riv., 13-18.06.2005. (Ex coll. V.A.Korolev, № P01108).

Parnassius (Koramius) delphius constans Bang-Haas, 1915

Type locality: "Aksatal (Chantengri)";

Kirghizia, E.Tien Shan, E.Terskei Alatau Mt.

267. ♂, Kirgizstan, E Terskei Alatoos Mt. rng., Chon-Ashoo pass, 3400 m, 1.07.2013. / Ex coll. Korolev V.A., № P01945;

Parnassius (Koramius) delphius karaschahrica Bang-Haas, 1915

Type locality: "Tianschan or. mer., Kourgak-Taon, Sudabhang des Thian-schan, nordwestl. Karaschahr (Kutscha mount.), Juli, 3500 m“.

SE Kirghizia, Dzhany-Dzher Mt.

268. ♂, SE Kirgizstan, Dzhany-Dzher Mt. rng., Akbaital gorge, 3800 m, 5.07.2011. / Ex coll. Korolev V.A., № P01946.

Parnassius (Koramius) patricius Niepelt, 1911

Original description: *Parnassius patricius* Niepelt, 1911; Int. Ent. Ztg 5 (38): 274,

Parnassius (Koramius) patricius patricius Niepelt, 1911

Type locality: «vom Thian-Schan Gebirge (Turkestan)» (loc. Naryn, Inner Tien-Shan, Kirghizia).

Kirghizia, Inner Tien-Shan, Dzhetim-bel Mts.

269. (Table II, 269) ♂, *P. patricius patricius*, Kirgizstan, Dzhetym Bel Mts., Suek pass, h=3900 m, 25-30.06.2007. (Ex coll. V.A.Korolev, № P01110);
270. (Table II, 270) ♀, *P. patricius patricius*, Kirgizstan, Dzhetym Bel Mts., Suek pass, h=3900 m, 25-30.06.2007. (Ex coll. V.A.Korolev, № P01111).

Kirghizia, N.Tien-Shan, Terskei Alatau Mts.

364. ♂, Kirghizstan, N.Tian-Shan, Terskei Alatau Mts., Altyn, Araschan, 1900 m, 10.07.2000.
Berezhnoi Yu.I. leg. (Ex coll. V.A.Korolev, № P00869);
365. ♂, Kirghizstan, N.Tian-Shan, Terskei Alatau Mts., Altyn, Araschan, 1900 m, 10.07.2000.
Berezhnoi Yu.I. leg. (Ex coll. V.A.Korolev, № P00870);
366. ♂, Kirghizstan, N.Tian-Shan, Terskei Alatau Mts., Altyn, Araschan, 1900 m, 10.07.2000.
Berezhnoi Yu.I. leg. (Ex coll. V.A.Korolev, № P00871).

Parnassius (Parnassius) apollo merzbacheri Fruhstorfer, 1906

Type locality: designated as «Tian-Shan»; Ili-Gebiet, Boro-Choro-Gebirge» (NE Tien-Shan, Dzungaria).

Kazakhstan, Dzungaria

367

368

369

372

367. ♂, Kazakhstan, Dzungarian Alatau Mt. R., Almaty Province, Panfilov district, 40 km N from Zharkent town, junction rivers Bolshoi and Sredniy Usek, 2000 m, 24-28.06.2012. S.Rybalkin. (Ex coll. Korolev V.A., № P01558);
368. ♂, SE Kazakhstan, Almaty reg., Kerbulak distr., 10 km NE Rudnichnyi sttl, Koksu riv., Dzungarskyi Alatau mt. rdg. 8.07.2013. H=1400 m. Leg. Samus A.N. (Ex coll. Korolev V.A., № P01777);
369. ♂, SE Kazakhstan, Almaty reg., Kerbulak distr., 10 km NE Rudnichnyi sttl, Koksu riv., Dzungarskyi Alatau mt. rdg. 8.07.2013. H=1400 m. Leg. Samus A.N. (Ex coll. Korolev V.A., № P01778);
370. ♂, SE Kazakhstan, Almaty reg., Kerbulak distr., 10 km NE Rudnichnyi sttl, Koksu riv., Dzungarskyi Alatau mt. rdg. 8.07.2013. H=1400 m. Leg. Samus A.N. (Ex coll. Korolev V.A., № P01779);
371. ♂, SE Kazakhstan, Almaty reg., Kerbulak distr., 10 km NE Rudnichnyi sttl, Koksu riv., Dzungarskyi Alatau mt. rdg. 8.07.2013. H=1400 m. Leg. Samus A.N. (Ex coll. Korolev V.A., № P01780);
372. ♀, SE Kazakhstan, Almaty reg., Kerbulak distr., 10 km NE Rudnichnyi sttl, Koksu riv., Dzungarskyi Alatau mt. rdg. 8.07.2013. H=1400 m. Leg. Samus A.N. (Ex coll. Korolev V.A., № P01781).

Parnassius (Parnassius) apollo minerva Bang-Haas, 1910

Type locality: «Juldus» (E.Dzungarian Tien-Shan)

SE Kazakhstan, Dzhungaria, Boro-Khoro Mts.

373. ♂, Dzhungaria, Boro-Khoro Mts., Tyshkana vic., 2100 m. 14.07.1990. I.G.Pljushtch leg. (Ex coll. Korolev V.A., № P01581);
374. ♂, Dzhungaria, Boro-Khoro Mts., Tyshkana vic., 2100 m. 14.07.1990. I.G.Pljushtch leg. (Ex coll. Korolev V.A., № P01582);
375. ♂, Dzhungaria, Boro-Khoro Mts., Tyshkana vic., 2100 m. 14.07.1990. I.G.Pljushtch leg. (Ex coll. Korolev V.A., № P01583).

Parnassius (Parnassius) apollo alpherakyi Krulikowsky, 1906

Type locality: Altai.

Russia, North Altai

376. ♂, Russia, S.Siberia, N. Altai Mts., Kosh-Agach distr., Chagan-Uzun v., 1300 m. 5.07.2011. / Ex coll. Korolev V.A., № P01961.

Parnassius (Parnassius) apollo regius Lukhtanov, 1997

Type locality: "Kasachstan, Altai, Ust-Kamenogrsk-Gebiet, Syrjanovsk, 450 m";

NE Kazakhstan, S.Altai, Narymsky Mt.

377. ♂, NE Kazakhstan, S.Altai Mts., Narymsky Mt. rng., Maiemer v., 700 m, 9.07.2013. / Ex coll. Korolev V.A., № P01951.

Parnassius (Parnassius) apollo burjaticus Nardelli & Hirschfeld, 1994

Type locality: "Südost-Rußland, Burjatia-Region, südliche Seite des Baikal-Sees, Khamar-Daban-Gebirge, 25 km nordwestl. von Ulan Ude".

Russia, Buryatiia

378. ♂, Russia. E. Siberia, Republic of Buryatia, near Ulan-Ude city, 20.06-5.07.2011. leg. Filippov A., Filippov E. / Ex coll. Korolev V.A., № P01958.

Parnassius (Parnassius) apollonius (Eversmann, 1847)

Original description: *Doritis apollonius* (Eversmann, 1847); Bull. Soc. Imp. Nat. Moscou 20 (3) : 71, pl. 3, f. 1-2

Parnassius (Parnassius) apollonius apollonius (Eversmann, 1847)

Type locality: "in Songariae montibus"; E.Kazakhstan.

E Kazakhstan, Zaisan Lake

379. ♂, E Kazakhstan, Zaisan Lake Area, 15 km E Karasu, N 47° 47' 96", E 83° 39' 81", 600 m a.s.l., 26.05.2011. N.Rubin leg. (Ex coll. Korolev V., № P01794).

Parnassius (Parnassius) apollonius aphrodite Bryk et Eisner, 1934

Type locality: Ili river valley, SE Kazakhstan.

SE Kazakhstan, Transili Alatau Mts.

380. ♀, SE Kazakhstan, Transili Alatau Mt. Range, Ulken-Bugutty Mts., N 43° 31'40", E 79°01'40.2", 1400-1650 m a.s.l., 7-8.06.2011. N.Rubin & Yu. Sobolevskaya leg. (Ex coll. Korolev V., № P01795).

Parnassius (Parnassius) apollonius glaucopis (Bryk et Eisner, 1934)

Type locality: "Belomurun, Karatau" (Syr-Dar'insky Karatau, Balamurun, S.-E. Kazakhstan).

Kazakhstan, Syr-Dar'insky Karatau

381. (Table III, 381) ♂, Ю.Казахстан, хр. Сырдарынинский Карагатай, окр. г.Кентая. 700 м., 10-20.05.1994. И.Плющ leg. [S.Kazakhstan, Syr-Dar'insky Karatau, Kentau loc., 700 m, 10-20.05.1994. I. Pljushtch leg., (Ex coll. Korolev V., № P01619);

Uzbekistan, Ugamsky Mts.

383. ♂, "Угамский хр., окр. к.Пскем, 1600 м, 29.06.1989, Самодуров Г.Д.", [Ugamsky Mts., loc. Pskem village, 1600 m, 29.06.1989, Samodurov G.D. leg.] (Ex coll. V.A.Korolev, № P00284).

Parnassius (Parnassius) apollonius daubi (Fruhstorfer, 1903)

Type locality: "aus dem Serafschan Gebirge, südöstlich von Samarkand [...] am Sary Ob" (Zeravshan Mts., to south from Samarkand, Uzbekistan).

Synonyms: *horaki* Kreuzberg, 1989; *wernerii* Weiss, 1990.

Uzbekistan, Turkestansky Mts.

384. ♂, "Туркестанский хр., кишл. Усмат, 1500 м., 26.06.1988, Чиколовец В.В.", [Turkestansky mts., Usmat village, 1500 m, 26.06.1988, Tchikolovets V.V. leg.] (Ex coll. V.A.Korolev, № P00285);

385. ♂, “Туркестанский хр., кишл. Усмат, 1500 м., 26.06.1988, Чиколовец В.В.”, [Turkestan mts., Usmat village, 1500 m, 26.06.1988, Tchikolovets V.V. leg.] (Ex coll. V.A.Korolev, № P00286).

384

385

386

387

Parnassius (Parnassius) apollonius gloriosus (Fruhstorfer, 1904)

Type locality: "Alexander-Gebirge" (Kirghizsky Mts., Kirghizia)

Kirghizia, N.Tien-Shan, Kirghizsky Mts.

386. ♂, Kirgizstan, N. Kirgizski Mt. rng., Aksu river, 1800 m, 1.06.2004; (Ex coll. V.A.Korolev, № P00287).

Parnassius (Parnassius) apollonius poseidon (Bryk et Eisner, 1934)

Type locality: "Tashkent" (Uzbekistan).

Kirghizia, West Tien-Shan, Chatkal Mts.

387. ♂, Kirhizstan, Chatkal Mt. rng., Chanach river, 2500 m, 28.06.2003; (Ex coll. V.A.Korolev, № P00288).

Kirghizia, Talas Mts.

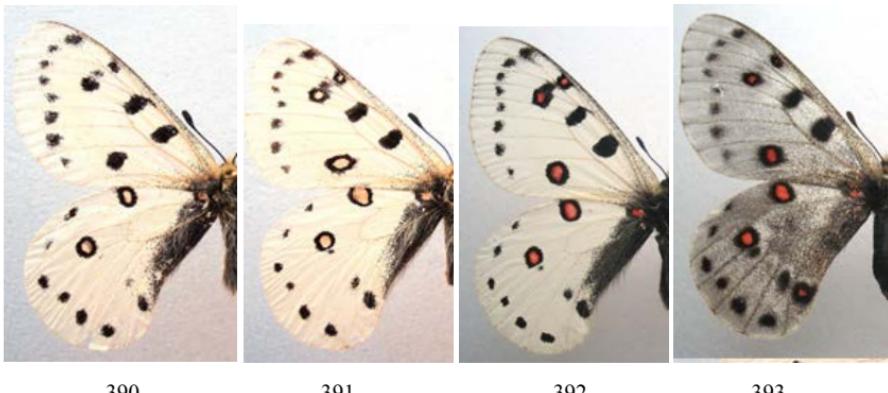

388. ♀, Киргизия, хр. Таласский Алатай, п.Новониколаевка, 29.06.1993. С.Шлыков leg. [Kirghizia, Talassky Alatau Mts., Novonikolaevka village, 29.06.1993. S.Shlykov leg.] (Ex coll. Korolev V.A., № P01638);

389. (Table III, 389) ♀, Киргизия, хр. Таласский Алатай, п.Новониколаевка, 29.06.1993. С.Шлыков leg. [Kirghizia, Talassky Alatau Mts., Novonikolaevka village, 29.06.1993. S.Shlykov leg.] (Ex coll. Korolev V.A., № P01639).

Parnassius (Parnassius) apollonius narynus Fruhstorfer, 1908

Type locality: "Naryn" (Naryntau Mts., Kirghizia).

390. ♂, Kirghizstan, [Inner Tien-Shan], Moldo-Too Mts., Kurtka canyon, 2300 m. 26.06.1996.
I.G.Plyushtch leg. (Ex coll. Korolev V.A., № P01578)
391. ♂, Kirghizstan, [Inner Tien-Shan], Moldo-Too Mts., Kurtka canyon, 2300 m. 26.06.1996.
I.G.Plyushtch leg. (Ex coll. Korolev V.A., № P01579)

390

391

392

393

Kirghizia, Fergansy Mts.

392. ♂, “*P. apollonius narynus*”, Kirgizstan, Ferganskyi Mts., 1600 m, Kazarman town, 2-25.05.2008. (Ex coll. V.A.Korolev, № P01116);
393. ♀, “*P. apollonius narynus*”, Kirgizstan, Ferganskyi Mts., 1600 m, Kazarman town, 2-25.05.2008. (Ex coll. V.A.Korolev, № P01114).

***Parnassius (Parnassius) bremeri* Bremer, 1864**

Parnassius (Parnassius) nomion shansiensis Eisner, 1955

Type locality: China, Shan-Xi Prov.

China, Shan-Xi prov.

448. ♂, China, Shan-Xi Prov., Tai Hang Shan, 15.08.2012. Ex coll. Korolev V.A., № P01846;
449. ♂, China, Shan-Xi Prov., Tai Hang Shan, 15.08.2012. Ex coll. Korolev V.A., № P01847;

Parnassius (Parnassius) nomion koiwayai Ohya & Inomata, 1988

Type locality: China,

China, Qinghai prov.

450. ♂, China, Qinghai, Qaidam, 3500 m. 20.07.2010. Ex coll. Korolev V.A. № P01918;

Parnassius (Parnassius) nomion korshunovi Kreuzberg et Pljushtsh, 1992

Type locality: Altai.

Kazakhstan, Southern Altai

451. ♂, “Южный Алтай, Рахмановские Ключи, р. Черная Берель, 2400 м., 10.08.1990, Резниченко А.П.”, [Southern Altai, Rahmanovskie Kluchi, Black Berel river, 2400 m, 10.08.1990, Reznichenko A.P. leg.]. (Ex coll. V.A.Korolev, № P00441)
452. (Table III, 452) ♀, “Южный Алтай, Рахмановские Ключи, р. Черная Берель, 2400 м., 10.08.1990, Резниченко А.П.”, [Southern Altai, Rahmanovskie Kluchi, Black Berel river, 2400 m, 10.08.1990, Reznichenko A.P. leg.]. (Ex coll. V.A.Korolev, № P00442)

Parnassius (Parnassius) nomion aurora O.Bang-Haas, 1933

Type locality: “Transbaikalia”.

Russia, Amur reg.

453. ♂, “Амурская обл., окр. п.Ядрено, 28.07.1995, Стрельцов А.Н.”, [Amur reg., loc. Yadrino village, 28.07.1995, Strel'tsov A.N. leg.] (Ex coll. V.A.Korolev, № P00443);
454. ♂, “Амурская область, Свободненский р-н, с.Малая Сазанка, 16-20.07.1996, Стрельцов А.Н.”, [Amur reg., Svobodnensky distr., Malaya Sazanka village, 16-20.07.1996, Strel'tsov A.N. leg.] (Ex coll. V.A.Korolev, № P00444);
455. ♂, “Амурская область, Свободненский р-н, с.Малая Сазанка, 16-20.07.1996, Стрельцов А.Н.”, [Amur reg., Svobodnensky distr., Malaya Sazanka village, 16-20.07.1996, Strel'tsov A.N. leg.] (Ex coll. V.A.Korolev, № P00445).

Russia, Khabarovsk terr.

456. ♂, “Хабаровский кр., п.Облучье, 22.07.1995, Стрельцов А.Н.”, [Khabarovsk terr., Obluch’ie village, 22.07.1995, Strel’tsov A.N. leg.] (Ex coll. V.A.Korolev, № P00446);
457. ♂, “Хабаровский кр., п.Облучье, 15.07.1995, Стрельцов А.Н.”, [Khabarovsk terr., Obluch’ie village, 22.07.1995, Strel’tsov A.N. leg.] (Ex coll. V.A.Korolev, № P00447);
458. ♀, “[Хабаровский кр.], 9 км СЗ п.Облучье, 19.07.1993, Стрельцов А.Н.”, [Khabarovsk terr., 9 km NE from Obluch’ie village, 19.07.1993, Strel’tsov A.N. leg.] (Ex coll. V.A.Korolev, № P00448).

Parnassius (Parnassius) phoebus (Fabricius, 1793)

Original description: *Papilio phoebus* Fabricius, 1793; Ent. Syst. 3 (1): 181.

Note: previously butterflies, that live in different regions of the Alps, has been attributed as *phoebus*; but later they began to devote a separate species - *sacerdos* Stichel, 1906 (see below). Last name proposed as a substitute for a taxon *delius* Esper, 1800 (TM: Alps near Geneva), which is not valid because is the junior homonym *Papilio delius* Drury, 1782.

Parnassius (Parnassius) phoebus phoebus (Fabricius, 1793)

Type locality: «Siberia», type unknown; according neotype in zoological museum of Berlin TL is: – «Altai, Ongudai», (Kuraiskyi Mts., Russia) (Bryk, 1935: 219; Коршунов, 2002:191).

Synonyms: *altaica* Menetries, 1859; *alpestris* Verity, 1911; *melanica* Verity, [1911]; *leucostigma* Austaut, 1912; *punctatus* Bryk, 1912; *reciprocus* Bryk, 1913; *halasicus* Huang & Murayama, 1992.

Russia, Northern Altai

459. (Table III, 459) ♂, “Алтай, Курайский хр., п.Акташ, 1500 м., 14-21.06.2008. Бережной Ю.И.”, [Altai, Kuraiskyi Mts., Aktash village, 1500 m, 14-21.06.2008, Berezhnoi Yu.I. leg.] (Ex coll. V.A.Korolev, № P00803);

Parnassius (Parnassius) phoebus intermedius (Menetries, 1851)

Type locality: Tarbagatai and Saur, Kazakhstan.

Synonyms: *sauricus* Lukhtanov, 1999 (TL: Kazakhstan, Ust-Kamenogorsk, Saur, Kyzylkiya, 2900 m).

S.Alтай, Narymskyi Mts.

508. ♂, Ю.Алтай, Нарымский хр., Новоберёзовка, 2500 м, 30.06.1986. Ex coll. Korolev V.A. [S.Altaï, Narymskyi Mts., Novoberezovka vil., 2500 m, 30.06.1986.] (Ex coll. Korolev V.A., № P01604);
509. ♀, Ю.Алтай, Нарымский хр., Новоберёзовка, 2500 м, 30.06.1986. Ex coll. Korolev V.A. [S.Altaï, Narymskyi Mts., Novoberezovka vil., 2500 m, 30.06.1986.] (Ex coll. Korolev V.A., № P01605).

Kazakhstan, SW Altai

510. ♀, “Южный Алтай, Рахмановские Ключи, р.Черная Берель, 2400 м, 10.08.1990, Резниченко А.П.”, [Southern Altai, Rahmanovskie Kluchi, Black Berel river, 2400 m, 10.08.1990, Reznichenko A.P. leg.] (Ex coll. V.A.Korolev, № P00331);

511. ♀, “Южный Алтай, Рахмановские Ключи, р.Черная Берель, 2400 м, 10.08.1990, Резниченко А.П.”, [Southern Altai, Rahmanovskie Kluchi, Black Berel river, 2400 m, 10.08.1990, Reznichenko A.P. leg.] (Ex coll. V.A.Korolev, № P00330).

Parnassius (Parnassius) phoebus sedakovi ([Menetries] in Siemaschko, [1850])

Type locality: Irkutsk, Russia.

Synonyms: *amalthea* Bryk & Eisner, 1935 (TL: Mondy, Buryatia, Russia).

Russia, Buryatia

512. ♂, “Бурятия, В.Саян, Тункинские Гольцы, с.Монды, 2100 м, 10.07.1993, Махат В.Г.”, [Buryatia, E.Sayan Mts., Tunkinskie Goltsy, Mondy village, 2100 m, 10.07.1993, Mahat V.G. leg.] (Ex coll. V.A.Korolev, № P00332) (**topotypus** of *amalthea* Bryk & Eisner, 1935);

513. ♂, “Бурятия, В.Саян, Тункинские Гольцы, с.Монды, 1800 м, 15.07.1993, Махат В.Г.”, [Buryatia, E.Sayan Mts., Tunkinskie Goltsy, Mondy village, 1800 m, 15.07.1993, Mahat V.G. leg.] (Ex coll. V.A.Korolev, № P00333) (**topotypus** of *amalthea* Bryk & Eisner, 1935).

Parnassius (Parnassius) phoebus chingizid Yakovlev, 2006

Type locality: W Mongolia, Bayan-Ulegei aimak, middle stream of Elt-Gol river (Kara-Irtys basin), 2100-2300 m;

W.Mongolia

514. ♂, W.Mongolia, Bayan-Olgii Aimak, Tsengel Sum (District), Yelt-Gol River (top stream), 2000 m, 48°05'N; 89°10'E, 5-7.07.2005. Doroshkin V.V. (Ex coll. Korolev V.A., № P01555).

***Parnassius (Parnassius) sacerdos* Stichel, 1906**

Original description: *Parnassius phoebus sacerdos* Stichel, 1906.

Note: taxon was originally designated as a subspecies *phoebus* Fabricius, 1793; but recently considered by several authors (see, for example, Häuser (1993: 138); Shepard & Manley (1998: 718), Hirschfeld & Schäffler (2004: 1), etc.) as a separate species (see note at *Parnassius phoebus* Fabricius, 1793). In accordance with this, all previously allocated alpine subspecies *phoebus* now regarded as subspecies of *sacerdos* Stichel, 1906.

***Parnassius (Parnassius) sacerdos tessinorum* Fruhstorfer, 1921**

Type locality: "Tessiner Alpen der Verzasca-Gruppe. Cima di Cagnone aus 2000-2400 m [...] Cima Bianca, ca. 1800-2000 m; ... Oberes Val Lodrino, zwischen der Alpe Piavacra und Stuvello, ca. 1800 m. [...] zu beiden Seiten des Cagnonepasses und zwar am Nordwesthang der Cima die Cagnone am Laghetto d'Efra, ca. 1900 m im obersten Val Verzasca"; (Tessin, Switzerland).

Switzerland, Alps

515. (Table III, 515) ♂, Svizzera, Ticino, Fusio, 1200-1400 m, 23.07.2011. Giuseppe Vignari leg. (Ex coll. V.A.Korolev, № P01444);
516. ♂, Svizzera, Ticino, Fusio, 1200-1400 m, 23.07.2011. Giuseppe Vignari leg. (Ex coll. V.A.Korolev, № P01445).

***Parnassius (Parnassius) smintheus* Doubleday, [1847]**

Original description: *Parnassius smintheus* Doubleday, [1847]; In: Gen. diurn. Lepid. (1)(3): 26; 27, no. 8, pl. 4*, fig. 4 ♂ D.

***Parnassius (Parnassius) smintheus smintheus* Doubleday, [1847]**

Type locality: «Rocky Mountains», Canada; clarified: “vicinity of Rock Lake, [near Jasper] Alberta (53°27'N, 118.°16'W)” (Shepard J., 1984, Quaest. Entomol. 20(1): 40-41).

Canada, Alberta, Rocky Mts.

517. ♂, Canada, Alberta, Halestone Battl., 28.07.2000. Fernando A.E. leg. (Ex coll. V.A.Korolev, № P01135);
518. (Table III, 518) ♂, Canada, Alberta, Halestone Battl., 28.07.2000. Fernando A.E. leg. (Ex coll. V.A.Korolev, № P01136);

519. **Topotypus** ♂, Canada, Alberta, Rocky Mts., Plateau Mountain, 6500 ft., 2.08.2009. Fernando A.E. leg. (Ex coll. V.A.Korolev, № P01137).

***Parnassius (Parnassius) smintheus sayii* Edwards, 1863**

Type locality: “Pikes Peak”; corrected TL: “gold region west of Denver” according F. Brown, 1975, Trans. Am. Entomol. Soc. 101(1): 6; neotype from “Running Creek Field Sta., 6950’, Elbert Co., Colo., T9S R65W, SW ¼ 25”, USA.

Synonyms: *hermodorus* Hy. Edwards, 1881; *polus* Ehrmann, 1917; *utahensis* Rothschild, 1918; *montanus* Ehrmann, 1918; *catullius* Fruhstorfer, 1923; *aristion* Fruhstorfer, 1923; *sordellus* Fruhstorfer, 1923; *hollandi* Bryk & Eisner, 1935; *dakotaensis* Bryk & Eisner, 1935; *rotgeri* O. Bang-Haas, 1938 (see: Warren, A.D. et al., 2012).

USA, Ytah

520. ♂, «*Parnassius phoebus sayi* f. *hermador* ♂» / USA, Utah, Duschesne Co., Wigman Lake, 11000 ft. 6-12.07.1990. Leg. K.Thorne (Ex coll. V.A.Korolev, № P01171).

***Parnassius (Parnassius) smintheus rubina* Wyatt, 1961**

Type locality: “Liberty Peak, 3.120 m, Ruby Gebirge, südlich von Elko, Nevada”.

USA, Nevada

521. ♂, “*Parnassius smintheus rubiana*” / USA, Nevada, Elko Co., 9.07.1987. (Ex coll. V.A.Korolev, № P01293);
522. ♀, “*Parnassius smintheus rubiana*” / USA, Nevada, Elko Co., 12.07.1987. (Ex coll. V.A.Korolev, № P01294).

520

 (Ex coll. Korolev V.A., № P01648).

Subgenus *Sachaia* Korshunov, 1988

***Parnassius (Sachaia) arcticus* (Eisner, 1968)**

Original description: *Tadumia simo* subsp. *arctica* Eisner, 1968; Zool. Meded. 43 (2): 15, pl. 1, f. 7-8.

Type locality: "in den Bergen östlich von Werchnosensk" (probably – Verkhoyansk, basin of Yana-river, Yakutia).

Note: taxon was originally erroneously described by Eisner (1968) as a subspecies of *simo*, which is absent in Siberia. In addition, designated the holotype, was a female (the type is stored in the Royal Museum of Natural History in Leiden, coll. Eisner). Eisner later made a correction and marked it as a subspecies of *tenedius* (Eisner, 1969, 176). On this basis Yu.P.Korshunov led redescription of this taxon called *amosovi* (look: Korshunov, 1988, 2000, 2002).

Synonyms: *amosovi* Korshunov, 1988 (TL: Suntar-Hayata Mts., upper of Eastern Khandyga river, Yakutia, Russia).

Russia, Yakutia, Suntar-Khayata Mts.

576. ♂, "Parnassius arctica ♂ / Russia, East Siberia, Yakutia Tompon distr. Suntar-Khajata, Razvilka-Nezhdanenskoye path, Kuranakh pass, H 1300-1350 m. Date: 19.06.2010, Point 5. Leg. Samus A.N." (Ex coll. V.A.Korolev, № P01061);

577. ♂, Russia, East Siberia, Yakutia Tompon distr. Suntar-Khajata, Razvilka-Nezhdanenskoye path, Kuranakh pass, H 1300-1350 m. Date: 19.06.2010, Point 5. Leg. Samus A.N. (Ex coll. V.A.Korolev, № P01062).

***Parnassius (Sachaia) boedromius* Püngeler, 1901**

Genus *Bhutanitis* Atkinson, 1873

Bhutanitis mansfieldi (Riley, 1939)

Original description: *Armandia* sp. *mansfieldi* Riley, 1939; Entomologist 72: 207.

Note: only 3 specimens of this butterfly, described by Riley in 1939 on charges of M.Mansfield conducted him in 1918 in Yunnan, China (holotype ♀ "... ex coll. G. Forrest" in the British Museum Nat. history) has been known for a long time. In 1981 S.Umezawa found this butterfly north - in the mountains Kongashan, Sichuan, and has been described ssp. *pulchrstriata* (holotype: ♀, 7.IV.1981, S. Umesawa leg. in coll. IZAS, Beijing).

Bhutanitis mansfieldi pulchrstriata (Saigusa & Lee, 1982)

Type locality: "China, Sichuan, Prov. Lutien, Xinxing [...] (2,200 m)".

China, Sichuan

656. *Topotypus* ♂, China, Sichuan Prov., loc. Kanting, Mt. Kongashan, 4.04.2007. (Ex coll. V.A.Korolev, № P00679);
657. *Topotypus* ♂, "Bhutanitis mansfieldi pulchrstriata" / China, Sichuan, Kanting, Mt. Kongashan, 12.05.2009. (Ex coll. V.A.Korolev, № P01312);
658. *Topotypus* ♂, China, Sichuan, Kanting, Mt. Kongashan. 19.04.2010. (Ex coll. V.A.Korolev, № P01138).

Bhutanitis thaidina (Blanchard, 1871)

Original description: *Armandia thaidina* Blanchard, 1871; C. R. hebd. Seanc. Acad. Sci., 72: 809, nota 3.

Bhutanitis thaidina melli Bryk, 1938

Type locality: "Taipeschan im Tsinling. S. Shensi" (Tibet, Shaanxi Province); holotypus: ♂, 25.VI.1935, H. Höne leg., (presumably coll. H. Höne, in coll. ZFMK, Bonn).

China, Shaanxi prov.

659. *Topotypus* ♂, China, Shaanxi prov., Tsinling, 25-30.08.2006, (Ex coll. V.A.Korolev, № P00010);
 660. *Topotypus* ♂, China, Shaanxi prov., Tsinling, 25-30.08.2006, (Ex coll. V.A.Korolev, № P01139);
 661. *Topotypus* ♂, "Bhutanitis thaidina melli" ♂ / China, Shaanxi prov., Tsinling, 15.05.2009. (Ex coll. V.A.Korolev, № P01311).

Genus *Zerynthia* Ochsenheimer, 1816

Subgenus *Allancastria* Bryk, 1934

Zerynthia (Allancastria) cerisyi (Godart, [1824])

Original description: *Thais cerisyi* Godart, 1819; Encyclopédie Méthodique. 9 (1): 234, pl. 20, f. 3-4.

Synonyms: *destrigata* Schultz, 1908; *flavomaculata* Schultz, 1908; *martini* Fruhstorfer, 1906.

Zerynthia (Allancastria) cerisyi cerisyi (Godart, [1824])

Type locality: Turkey.

Turkey

662. (Table IV, 662) *Topotypus* ♂, Turkwie, Izmir, Efes, Selcuk, 100 m, 16.04.1988. J.Verhulst leg. / Ex coll. V.A.Korolev, № P01411;
 663. (Table IV, 663) *Topotypus* ♀, Turkwie, Anatolie, Kusadasi. 16.04.1986. F.Bollanf leg. / Ex coll. V.A.Korolev, № P01412.

Zerynthia (Allancastria) cerisyi goeksui Kuhna, 1977

Type locality: "Mut. Göksutal", Turkey.

664

665

Turkey

664. *Topotypus* ♂, Turkuie, Goksu Valley, 2 km avant Koselerli, route Silifke-Mut, 9.04.1986. J.Verhulst leg. (Ex coll. V.A.Korolev, № P01413);
665. *Topotypus* ♀, Turkuie, Goksu, Env. Kargicak, 200 m, 20-22.04.1987. Ph. Fastre - A.Legrain (Ex coll. V.A.Korolev, № P01414).

Zerynthia (Allancastria) cerisyi ferdinandi Stichel, 1907

Type locality: "vom Schipka-Pass [...] Lowetsch, Bulg. [...] (? Rumänien)".

Rumania

666. ♂, Romania, Dobrudsha-south. Near Baneasa, 15.05.2006, (Ex coll. V.A.Korolev, № P00456).

667. ♀, Romania, Dobrudsha-south. Near Baneasa, 15.05.2006, (Ex coll. V.A.Korolev, № P00457).

Zerynthia (Allancastria) caucasica (Lederer, 1864)

Original description: *Thais cerisyi* var. *caucasica* Lederer, 1864; Wien. ent. Monats. 8 (5) : 165, pl. 3, f. 1-2.

Zerynthia (Allancastria) caucasica caucasica (Lederer, 1864)

Type locality: "bei Kutais [...] in Imeretien" (Georgia, Kutaisi env.).

Synonyms: *cachetica* Sheljuzhko, 1927; *completa* Sheljuzhko, 1927; *melania* Sheljuzhko, 1927; *divisa* Sheljuzhko, 1927; *nigripuncta* Sheljuzhko, 1927.

Zerynthia (Allancastria) caucasica tkatschukovi Sheljuzhko, 1927

Type locality: loc. Sochi, NW Caucasus (Krasnodar Territory).

Russia, Black-sea coast of Caucasus

670. *Topotypus* ♂, Russia, W.Caucasus, Sochi env., 30.04.2003, (Ex coll. V.A.Korolev, № P00009).

Zerynthia (Allancastria) cretica (Rebel, 1904)

Original description: *Thais Cerisyi* var. *cretica* Rebel, 1904, Verh. Zool.-Bot. Ges. Wien 54: 2.

Variation and areal: endemic of Crete Is.

Type locality: "Kreta [...] im zentralen Teile der Insel bei Asitaes", Crete.

Synonyms: *cretica* f. *schulzi* Bryk, 1932.

Crete Is., Greece:

671. ♂, Crete, Lashiti, Vrissos-Roussakiana, 150-850 m, 9-12.04.1999. J.Verhulst leg. (Ex coll. V.A.Korolev, № P01407).

***Zerynthia (Allancastria) deyrollei* (Oberthür, 1869)**

Original description: *Thais deyrollei* Oberthür, 1869, Petites Nouv. Ent. 1 (2): 3

Zerynthia (Allancastria) deyrollei eisneri Bernardi, 1970

Type locality: "Aintab", Turkey.

Liban:

672. ♂, "18 Liban – Mont Liban, Env. Barouk, N 33°41.846' -E35°40.803' / 110 m, 12.04.1999 / Dominique Dumont leg. (Ex coll. V.A.Korolev, № P01409)

Israel:

673. ♀, Israel, Galilee, Hare-Meron, 1100 m, 9.04.1985. J.Verhulst leg. (Ex coll. V.A.Korolev, № P01410).

***Zerynthia (Allancastria) louristana* (Le Cerf, 1908)**

Original description: *Thais Cerisyi* var. *louristana* Le Cerf, 1908

Zerynthia (Allancastria) louristana louristana (Le Cerf, 1908)

Type locality: "Perse [...] Montagnes du Ouristan : Tchabar Dooul à Kirmanchah (900 à 1.470 mètres d'altitude)", (Iran).

Iran

674. (Table IV, 674) ♂, Iran, Prov. Hamadan, Nehavand, 2000-2500 m, M.Zagros, 25-27.04.2000. Leg. Hacz-Koszegi (Ex coll. V.A.Korolev, № P01408)

Subgenus *Zerynthia* Ochsenheimer, 1816

***Zerynthia (Zerynthia) polyxena* ([Denis & Schiffermüller], 1775)**

Original description: *Papilio polyxena* Denis & Schiffermüller, 1775; Ankündung eines systematischen Werkes von den Schmetterlingen der Wienergegend: 162.

Zerynthia (Zerynthia) polyxena polyxena ([Denis & Schiffermüller], 1775)

Type locality: "Wien", (Austria).

Moldova

675. (Table IV, 675) ♂, Moldova, Chisinau (Kishinev) municipality, Ciocana, Colonita village. 27.04.2012. Leg. Bodnari I.I. (№ P01549);

676. (Table IV, 676) ♀, Moldova, Chisinau (Kishinev) municipality, Ciocana, Colonita village. 27.04.2012. Leg. Bodnari I.I. (№ P01550);

Ukraine, Transcarpathian

677. ♂, “Закарпатье, долина р.Тисы, г.Виноградов, 12.05.1993, Попов С.Г.” [Transcarpathian, Tisa-river valley, Vinogradov. 12.05.1993. Popov S.G. leg.] (Ex coll. V.A.Korolev, № P00030);

678. ♂, “Закарпатье, долина р.Тисы, г.Виноградов, 12.05.1993, Попов С.Г.” [Transcarpathian, Tisa-river valley, Vinogradov. 12.05.1993. Popov S.G. leg.] (Ex coll. V.A.Korolev, № P00031).

Russia, Lipetsk Region

679. ♂, “Россия, г.Липецк, 1.04.1992, ex ovo, Алявдин В.А. leg.” [Russia, Lipetsk. 1.04.1992, ex ovo, Alyavdin V.A. leg.] (Ex coll. V.A.Korolev, № P00027);

680. ♂, “Россия, г.Липецк, 1.04.1992, ex ovo, Алявдин В.А. leg.” [Russia, Lipetsk. 1.04.1992, ex ovo, Alyavdin V.A. leg.] (Ex coll. V.A.Korolev, № P00028);

681. ♂, “Россия, г.Липецк, 2.04.1992, ex ovo, Алявдин В.А. leg.” [Russia, Lipetsk. 2.04.1992, ex ovo, Alyavdin V.A. leg.] (Ex coll. V.A.Korolev, № P00029).

Russia, North Caucasus

682. ♂, Russia, Stavropol prov., Debry st., Kokurtly Mt., 500 m, 15.05.2003, leg. Birukov A.N. (Ex coll. V.A.Korolev, № P00458);

683. *Aberration* ♀, Russia, Stavropol prov., Debry st., Kokurtly Mt., 500 m, 15.05.2003, leg. Birukov A.N. (Ex coll. V.A.Korolev, № P00459).

Zerynthia (Zerynthia) polyxena cassandra (Geyer, 1828)

Type locality: Alpes Maritimes (Italy).

Italy

684. ♂, Central Italy, Toscana, Collesalvetti (Li) 100 m, 2.04.2011. Giuseppe Vignari leg. (Ex coll. V.A.Korolev, № P01442);
685. ♀, Central Italy, Toscana, Collesalvetti (Li) 100 m, 2.04.2011. Giuseppe Vignari leg. (Ex coll. V.A.Korolev, № P01443).

Thailand

759. ♂, N.Thailand, Chiang Mai, 15.04.2011. Ex coll. Korolev V.A. (№ P01376);

760. ♀, N.Thailand, Chiang Mai, 15.04.2011. Ex coll. Korolev V.A. (№ P01377);

761. ♂, Thailand. Chiang Mai, 10-16.10.2012. Ex coll. Korolev V.A. (№ P01543);

762. ♂, Thailand. Chiang Mai, 10-16.10.2012. Ex coll. Korolev V.A. (№ P01544);

763. ♀, Thailand. Chiang Mai, 10-16.10.2012. Ex coll. Korolev V.A. (№ P01545).

Malaysia

764. ♀, W. Malaysia , Cameron Highlands. 15.10.2011. Ex coll. Korolev V.A. (№ P01505);

765. ♂, W. Malaysia , Cameron Highlands. 15.10.2011. Ex coll. Korolev V.A. (№ P01506).

Lamproptera curius (Fabricius, 1787)

Original description: *Papilio curius* Fabricius, 1787; Mantissa Insectorum 2: 9, no. 71.

Lamproptera curius curius (Fabricius, 1787)

Type locality: “Siam” (not designated)

Myanmar (Burma)

766. ♂, Myanmar. Shan province, ab. 15 km N Hsipaw. Tu river (22.42N 97.20E) 1-4.08.2005. leg. A. Sokolov / Ex coll. Korolev V.A. (№ P01783);

767. ♂, Myanmar. Shan province, ab. 15 km N Hsipaw. Tu river (22.42N 97.20E) 1-4.08.2005. leg. A. Sokolov / Ex coll. Korolev V.A. (№ P01784);

768. ♂, Myanmar. Shan province, ab. 15 km N Hsipaw. Tu river (22.42N 97.20E) 1-4.08.2005. leg. A. Sokolov / Ex coll. Korolev V.A. (№ P01782);
769. ♂, Myanmar. Shan province, ab. 15 km N Hsipaw. Tu river (22.42N 97.20E) 1-4.08.2005. leg. A. Sokolov / Ex coll. Korolev V.A. (№ P01785).

Malaysia

770. ♂, «*Lamproptera curius* F. ♂», Malaysia, Kelantan. 23.11.2004. Ex coll. Korolev V.A. (№ P01269);
771. ♂, W. Malaysia, Cameron Highlands. 15.10.2011. Ex coll. Korolev V.A. (№ P01507);
772. ♂, W. Malaysia, Cameron Highlands. 15.10.2011. Ex coll. Korolev V.A. (№ P01508).

Thailand

773. ♂, Thailand, Yala loc., 10-15.10.2011. Ex coll. Korolev V.A. (№ P01509);
774. ♂, Thailand, Yala loc., 10-15.10.2011. Ex coll. Korolev V.A. (№ P01510).

Lamproptera curius walkeri (Moore, 1902)

Type locality: “Hong Kong”.

China, Guangxi prov.

775. ♂, South China, Guangxi Prov., Guilin, 16-20.07.2014. Ex coll. Korolev V.A., № P01898;
776. ♂, South China, Guangxi Prov., Guilin, 16-20.07.2014. Ex coll. Korolev V.A., № P01899;
777. ♂, South China, Guangxi Prov., Guilin, 16-20.07.2014. Ex coll. Korolev V.A., № P01900;
778. ♂, South China, Guangxi Prov., Guilin, 16-20.07.2014. Ex coll. Korolev V.A., № P01915;
779. ♂, South China, Guangxi Prov., Guilin, 16-20.07.2014. Ex coll. Korolev V.A., № P01916.

775

776

777

779

Genus *Eurytides* Hübner, [1821]

***Eurytides dolicaon* (Cramer, [1775])**

Original description: *Papilio dolicaon* Cramer, [1775]; Uitl. Kapellen 1 (1-7): 25, pl. 17, f. C, D.

Eurytides dolicaon deileon (C. & R. Felder, 1865)

Type locality: "Bogota" (Colombia)

Peru

780. (Table V, 780) ♂, Peru, Uanuko prov., Tingo Maria, 10.1996. Ex coll. Korolev V.A. (№ P00857);

***Eurytides serville* (Godart, [1824])**

Original description: *Papilio serville* Godart, [1824]; Encyclopédie Méthodique. 9 (2): 809.

Eurytides serville serville (Godart, [1824])

Type locality: "Amer. Merid." (Peru?).

Peru

781. (Table V, 781) ♂, Peru, Uanuko prov., Tingo Maria, 10.1996. Ex coll. V.A.Korolev (№ P00858);

782. ♂, Peru, Tingo Maria, 03.1997. Ex coll. Korolev V.A. (№ P00859);

783. ♂, N. Peru, San Martin Province, Juanjuy, 16.10.2003. Ex coll. Korolev V.A. (№ P01209);

784. ♂, N. Peru, San Martin Province, Juanjuy, 10.10.2000. Ex coll. Korolev V.A. (№ P01210);

785. ♂, C.Peru, Lima, Callao, Jorge Chaves vic., 14.07.2003. Ex coll. Korolev V.A (№ P01211);

786. ♂, N.-E. Peru. Amazonas Region, Rodriguez de Mendoza Province, 6.05.1998. Ex coll. Korolev V.A. (№ P01212);

***Eurytides columbus* (Kollar, 1850)**

Original description: *Papilio columbus* Kollar, 1850; Denkschr. Akad. Wiss. Wien. 1: 351, pl. 42, f. 1-2

Type locality: "Venezuela ad ripas fluminis Meta" (Rio Meta, Colombia).

Synonyms: *hippodamus* Doubleday, [1845]; *burtoni* Reakirt, 1868; *hippodamus* var. *fulva* Oberthür, 1879.

Note: some authors considered it as ssp. of *serville* Godt., 1824 (Lamas, 1995: 56; 2004:88; Häuser C.L. et al., 2002), another – as a separate species (Munroe, 1961: 41; Hancock, 1983: 46; Savela. 1999-2011).

Colombia

787. (Table V, 787) ♂, Columbia, loc. Bogota, 05.1988. Ex coll. Korolev V.A. (№ P00860).

Genus *Protographium* Munroe, [1961]

Note: some authors considering butterflies of this genus as a genus *Neographium* Möhn, 2002.

***Protographium agesilaus* (Guérin & Percheron, 1835)**

Original description: *Papilio agesilaus* Guérin-Méneville & Percheron, 1835; Gen. Ins. Lep: pl. 1.

***Protographium agesilaus agesilaus* (Guérin & Percheron, 1835)**

Type locality: «R. Magdalena, Colombia».

Peru

788. (Table V, 788) ♂, N.-E. Peru. Amazonas Region, Rodriguez de Mendoza Province, 6.05.1998. Ex coll. Korolev V.A. (№ P01214);

789. ♂, Peru, Uanuko prov., Tingo Maria, 16.02.2006. Ex coll. Korolev V.A. (№ P00864);

790. ♂, Peru, Loreto prov., Iquitos, 18.10.1996. Ex coll. Korolev V.A. (№ P00865);

791. ♂, N.-E. Peru. Amazonas Region, Rodriguez de Mendoza Province, 6.05.1998. Ex coll. Korolev V.A. (№ P01213);

792. ♂, N.-E. Peru. Amazonas Region, Rodriguez de Mendoza Province, 6.05.1998. Ex coll. Korolev V.A. (№ P01215);

793. ♂, N. Peru, San Martin Province, Juanjuy, 15.08.2003. Ex coll. Korolev V.A. (№ P01248);

794. ♀, N.-E. Peru. Amazonas Region, Rodriguez de Mendoza Province, 6.05.1998. Ex coll. Korolev V.A. (№ P01216).

***Protographium epidaeus* (Doubleday, 1846)**

Original description: *Papilio epidaeus* Doubleday, 1846; Gen. diurn. Lep. (1): 15, pl. 3, f. 1.

***Protographium epidaeus epidaeus* (Doubleday, 1846)**

Type locality: Mexico, Yucatán; Honduras.

Mexico

795. ♂, "Protagraphium e. epidaus" / Mexico Veracruz, Catemaco loc., 12.08.2013. Ex coll. Korolev V.A., № P01827.

Protagraphium asius (Fabricius, 1781)

Original description: *Papilio asius* Fabricius, 1781; Spec. Ins. 2: 5.

Protagraphium asius asius (Fabricius, 1781)

Type locality: not designated ("S. Amer."): probably loc. Rio de Janeiro, Brazil.

Synonyms: *Papilio astyagis* Drury, 1782; Illust. Nat. Hist. Exot. Insects 3 : 47, pl. 35, f. 4, TL: Brazil, Rio de Janeiro; *Papilio manlius* Perty, [1833]; in Spix & Martius, Delectus Anim. articulat. Brasil: 151, pl. 29, f. 1 (preocc. Fabricius, 1798), TL: Brazil, Minas Gerais; *f. albofasciatus* (Zikán, 1937) (*Papilio*); TL: Brazil, Rio de Janeiro.

Brazil

796. (Table V, 796) ♂, Brazil, 18.09.2008. Ex coll. Korolev V.A. (№ P00917).

Protagraphium dioxippus (Hewitson, [1856])

Original description: *Papilio dioxippus* Hewitson, 1856; Ill. exot. Butts [1] (Papilio II): [3], pl. [2], f. 3-4, TL: New Granada.

Protagraphium dioxippus diores (Rothschild & Jordan, 1906)

Type locality: "Peru" (Peru).

Peru

797. (Table V, 797) ♂, Peru, Uanuko prov., Tingo Maria, 14.04.2005. Ex coll. Korolev V.A. (№ P00862);
798. ♂, Peru, Loreto, Momon River, San Juan de Polis. 5.03.2005. Ex coll. Korolev VA (№ P00697).

***Protographium leucaspis* (Godart, 1819)**

Original description: *Papilio leucaspis* Godart, 1819; Encyclopédie Méthodique. 9 (1): 55, TL:
"Peru?"

***Protographium leucaspis leucaspis* (Godart, 1819)**

Type locality: "Peru?" (Peru).

Peru

799. (Table V, 799) ♂, Peru, Tingo Maria, May 2005. Ex coll. Korolev V.A. (№ P00861);

800. ♂, N.-E. Peru. Amazonas Region, Rodriguez de Mendoza Province, 11.01.2003. Ex coll. Korolev V.A. (№ P01208).

***Protographium thyastes* (Drury, 1782)**

Original description: *Papilio thyastes* Drury, 1782; Illust. Nat. Hist. Exot. Insects 3 : 47, pl. 35, TL:
Brazil, Rio de Janeiro.

***Protographium thyastes thyastinus* (Oberthür, 1879)**

Type locality: Ecuador.

Peru

801. (Table V, 801) ♂, Peru, Loreto, Momon River, San Juan de Polis. 8.02.2007. Ex coll. Korolev
V.A. (№ P00710).

***Protographium marcellus* (Cramer, 1777)**

Original description: *Papilio marcellus* Cramer, [1777]; Uitl. Kapellen 2 (9-16): 4, pl. 98, f. F, G.

***Protographium marcellus marcellus* (Cramer, 1777)**

Type locality: Virginia, USA.

Synonyms: *telamonides* (C. Felder & R. Felder, 1864).

USA, South Carolina

802. (Table V, 802) ♂, «*Eurytides marcellus* f. *telamonides* ♂» / USA, South Carolina, Aiken Co,
16.04.2008. Ex coll. Korolev V.A. (№ P01183).

***Protographium philolaus* Boisduval, 1836**

Original description: *Papilio philolaus* Boisduval, 1836; Hist. nat. Ins., Spec. gén. Lépid. 1 : 256

***Protographium philolaus philolaus* Boisduval, 1836**

Type locality: "Mexique", Mexico.

Mexico

803. ♂, Mexico, Guerrero. 12.07.2002 / Ex coll. Korolev V.A., № P01972.

Genus *Protesilaus* Swainson, [1832]

Protesilaus protesilaus (Linnaeus, 1758)

Original description: *Papilio protesilaus* Linnaeus, 1758; Syst. Nat. (Edn 10) 1: 463, TL: "America septentrionali" [South America, Guianas?].

Protesilaus protesilaus archesilaus (Felder & Felder, 1865)

Type locality: Nova Granada, Bogotá.

Synonyms: *Papilio protesilaus rubrocinctus* Eimer, 1889; Artb. Verwandtsch. Schmett. [1]: 106 [?], TL: Colombia; =*Papilio pumilus* Röber, 1926; TL: Colombia.

Peru

804. (Table V, 804) ♂, N. Peru, San Martin Province, Juanjuy, 16.08.2003. Ex coll. Korolev V.A. (№ P01217).

Protesilaus aguiari (D'Almeida, 1937)

Original description: *Iphiclides aguiari* d'Almeida, 1937;

Type locality: «Brazil, Pará».

Synonyms: *Papilio aristosilaus* Zikán, 1937; TL: «Brazil, Amazonas».

Peru

805. (Table V, 805) ♂, Peru, loc. Ikitos, 14.04.2007. Ex coll. Korolev V.A. (№ P00688).

Protesilaus stenodesmus (Rothschild & Jordan, 1906)

Original description: *Papilio stenodesmus* Rothschild & Jordan, 1906; Novit. Zool. 13 (3): 722, pl. 9, f. 68.

Type locality: «Paraguay».

Argentina

806. (Table V, 806) ♂, Argentina, Dos de Mayo. Missiones. 500 m, 3.10.2006. Ex coll. Korolev V.A., № P00699.

Protesilaus telesilaus (Felder & Felder, 1864)

Original description: *Papilio telesilaus* C. & R. Felder, 1864; Verh. zool.-bot. Ges. Wien 14 (3): 301.

Protesilaus telesilaus telesilaus (Felder & Felder, 1864)

Type locality: "Amazonia, Nova Granada, Brasilia austral."

Peru

807. (Table V, 807) ♂, Peru, Uanuko prov., Tingo Maria, 13.02.2006. Ex coll. Korolev V.A. (№ P00863);

808. ♂, Peru, Loreto, 18.09.2007. Ex coll. Korolev V.A. (№ P00926).

Genus *Iphiclidess* Hübner, [1819]

Iphiclidess podalirius (Linnaeus, 1758)

Original description: *Papilio Podalirius* Linnaeus, 1758; Syst. Nat. (Edn 10) 1 : 463 nota.

Iphiclidess podalirius podalirius (Linnaeus, 1758)

Type locality: “Europae australis & Africae Brassica”, Livorno, Toscana (Italy).

Synonyms: *Podalirius europaeus* Swainson, 1833; *podalirius var. zanclaeus* Zeller, 1847 (TL: Messina, Sicily); *smirnensis* Eimer, 1889; *inalpina* Verity, 1911; *valesiaca* Verity, 1911; *interjecta* Verity, 1911; *creta* Verity, 1911 (TL: Greece, Athens);

Note: List of Synonyms, aberrations and individual forms have bee given in Lenpke (1932, 1933), Verity (1947), Bridges (1988) and Recheli & Cotton (2009).

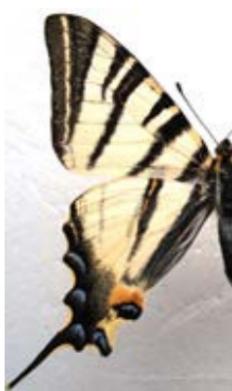

Slovenia

809. ♂ *gen. aest.*, Slovenia, Kocevje vicinity, 1.07.2012. Ex coll. Korolev V.A., № P01837.

Croatia

810. ♀ *gen. aest.*, Croatia, loc. Seget Vranjica, 8.07.2013. S.V. & V.S.Korolev lg. (Ex coll. Korolev V.A., № P01649);

811. ♀ *gen. aest.*, Croatia, Ciovo Isl., loc. Okrug Gornji, 19.07.2013. S.V. & V.S.Korolev lg. (Ex coll. Korolev V.A., № P01651);

Russia, Volgograd reg.

838. ♂ *gen. vern.* 10.05.2004, S.Russia, Volgograd-city, Gornaya Polyana hollow, Samus A. (Ex coll. Korolev V.A., № P00076);
839. ♂ *gen. vern.* 10.05.2004, S.Russia, Volgograd-city, Gornaya Polyana hollow, Samus A. (Ex coll. Korolev V.A., № P00077);
840. ♂, *gen. aestiva*, S.Russia, Volgograd reg., Illovlya distr., Tryostrovskaya vil. env., 16.07.2006. Samus A. (Ex coll. Korolev V.A., № P00992).

Russia, North Caucasus

841. ♂ *gen.aestiva*. Северный Кавказ, Ставропольский кр., с.Ново-Александровская, 24.07.1970, Королев В.А. [North Caucasus, Stavropol distr., Novo-Alexandrovskaya village, 24.07.1970, Korolev V.A.] (Ex coll. Korolev V.A., № P00075);
842. ♂ *gen.aestiva*. Северный Кавказ, Ставропольский кр., с.Ново-Александровская, 24.07.1970, Королев В.А. [North Caucasus, Stavropol distr., Novo-Alexandrovskaya village, 24.07.1970, Korolev V.A.] (Ex coll. Korolev V.A., № P00074);

843. ♂ *gen. aestiva*. Северный Кавказ, окр. Ставрополя, оз. Сенгилеевское, степь, 21.07.1970, Королев В.А. [North Caucasus, Stavropol vic., Sengileevskoe Lake, steppe, 21.07.1970, Korolev V.A.] (Ex coll. Korolev V.A., № P00073);

Russia, Great Caucasus, Krasnodar reg.

844. ♂, *gen. vern.*, Caucasus, Sochi vic., 15.05.2005. Бережной Ю. лег. (Ex coll. Korolev V.A., № P00938).

Abkhazia, Great Caucasus

845. ♂, *gen. aestiva*, Абхазия, п. Цандрипш (Гантиади). 12.08.2011. Блудушкина Л.Б. лег. [Abkhazia, Tsandripsh village (Gantiadi), 12.08.2011, Bludushkina L.B.] (Ex coll. Korolev V.A., № P01025).

845

846

848

849

***Iphiclides podalirius flaccidus* (Krulikowsky, 1908)**

Type locality: «Восточная Россия (Вятка, Казань)», East Russia (Vyatka, Kazan).

Note: some authors considered this taxon as a junior subjective synonym of nominative subspecies.

Russia, South Ural

846. ♂, *gen. vern.*, South Ural, Orenburg prov., Kuvandyk vil., 25.05.2005. Бережной Ю.И. лег. (Ex coll. Korolev V.A., № P00732);

847. ♂, *gen. vern.*, South Ural, Orenburg prov., Kuvandyk vil., 25.05.2005. Бережной Ю.И. лег. (Ex coll. Korolev V.A., № P00733).

***Iphiclides podalirius persica* Verity, 1911**

Type locality: “Persien”, (Iran).

Armenia

848. ♀, Армения, окр. г. Арагац, с. Антарут, 1800 м., 1.06.1996, лег. Гундоров С.Б. [Armenia, Aragats Mt. Vic., Antarut village, 1800 m, 1.06.1996. leg. Gundorov S.B.] (Ex coll. Korolev V.A., № P01051).

Iphiclides podalirius virgatus (Butler, 1865)

Type locality: "Syria. [...] at Damascus".

Note: Some authors (Racheli & Cotton, 2009:17) considering this taxon as a synonym of nominative subspecies.

Syria

849. ♂ *gen.aestiva*. Syria, Hama Region, Kufor-Buhem Village, 20.08.1989, Fadl Khuikhi leg. (Ex coll. Korolev V.A., № P00078);
850. ♂ *gen.aestiva*. Syria, Hama Region, Kufor-Buhem Village, 20.08.1989, Fadl Khuikhi leg. (Ex coll. Korolev V.A., № P00079);
851. ♀ *gen.aestiva*. Syria, Hama Region, Kufor-Buhem Village, 20.08.1989, Fadl Khuikhi leg. (Ex coll. Korolev V.A., № P00080);
852. ♀ *gen.aestiva*. Syria, Hama Region, Kufor-Buhem Village, 20.08.1989, Fadl Khuikhi leg. (Ex coll. Korolev V.A., № P00081).

Iphiclides podalirius centralasiae von Rosen in Seitz, 1929

Type locality: "mountains to the north of Dcharkent in the Ili District" [N.Tien Shan].

Note: Racheli & Cotton (2009:17) considering this taxon as a form of nominative subspecies: "Form *centralasiae* is small, yellowish, with intense black bands on both wings, the 3rd and 4th after the basal band approach each other at the costal margin and enclose a yellow area as far as the median vein. As stated before it is just a univoltine altitudinal form with typical markings of the first *podalirius* generation".

E.Kazakhstan, Monrak Mts.

853. ♂ *gen. vern.* E Kazakhstan, Monrak Mt. Range, N 47°18'40", E 84°36'42", 1250 m a.s.l., 27-28.05.2011. N.Rubin, K.Dovgailo & Yu. Sobolevskaya leg. (Ex coll. Korolev V.A., № P01789).

E.Kazakhstan, Tarbagatai Mts.

854. ♂ *gen. vern.* E Kazakhstan, SW Tarbagatai Mt. Range, Blagodatnoe environs, 1000 m a.s.l., 2.06.2011. N.Rubin & Yu. Sobolevskaya leg. (Ex coll. Korolev V.A., № P01790).

Iphiclides feisthameli (Duponchel, 1832)

Original description: *Papilio feisthamelii* Duponchel, 1832; in Godart, Hist. nat. Lépid. Fr. (Suppl.) 1 : 7, pl. 1, f.

Note: some authors (Fernandez-Rubio, 1991; Tennent, 1996, Wohlfahrt, 1996, 1998) considered this taxon as a separate species, but others (Collins & Morris 1985, De Prins & Iversen 1996, Hancock 1983, Munroe 1961, Tolman & Lewington 1997; Racheli & Cotton, 2009) – as a conspecific with *I. podalirius* and subspecies.

Iphiclides feisthameli feisthameli (Duponchel, 1832)

Type locality: «...environs de Barselone ... Alger» (SE Spain and Algeria).

Spain

855. ♂, Spain, Segovia, Las Parcelas La Granja. 1400 m. 6.08.2012. / Ex coll. Korolev V.A., № P01944;

South France

856. (Table V, 856) ♂, France, Betlans, Pyr[enees]. Or[ientales]. 8.05.2005. / Ex coll. Korolev V.A., № P01415.

Genus *Graphium* Scopoli, 1777

Subgenus *Pazala* Moore, 1888

Graphium (Pazala) tamerlanus (Oberthiir, 1876)

Первоописание: *Papilio tamerlanus* Oberthür, 1876; Étud. d'Ent. 2 : 13, pl. 2, f. 1.,

Graphium (Pazala) tamerlanus tamerlanus (Oberthiir, 1876)

Type locality: «Moupin», China

China, Sichuan prov.

857. ♂, China, Sichuan Prov., loc. Yaan. 1–10.08.2013. Ex coll. Korolev V.A., № P01850.

Graphium (Pazala) parus (de Niceville, 1900)

Original description: *Papilio Parus* de Niceville, 1900, l. Bombay Nat. Hist. Soc. 13 (1):172

Graphium (Pazala) parus parus (de Niceville, 1900)

Type locality: "Tse Kou, Western China" [Yanmen, Mekong valley, N Yunnan, China].

Synonyms: = *Cosmadesmus tamerlanus incertus* O. Bang-Haas, 1927, Horae Macrolep. Reg. Pal. 1: 1; Type locality: "China mer. occ.: Szetschwan, Tatsienlu, Tsekou, Siaolu"; =

Cosmodesmus tamerlanus taliensis O. Bang-Haas, 1927, Horae Macrolep. Reg. Pal. I: 2; Type locality: "China mer. occ.: Junnan, Tali".

China, Sichuan prov.

858. (Table V, 858) ♂, China, Hanyuan, Sichuan, 1200-1500 m, 20-25.04.2008. Ex coll. Korolev V.A. (№ P00778);

921. ♂, E. Myanmar (Burma), Shan State, Mong Hpayak District., 1-6.06.2010. Ex coll. Korolev V.A., № P01745.

Vietnam

922. ♂, N Vietnam, Tam Dao National Park. 1-10.06.2013. Ex coll. Le Xuan Xung / Ex coll. Korolev V.A., № P01746.

Thailand

923. ♂, Thailand, loc. Chiangmay, 12.02.2005, ex coll. Korolev V.A., № P00112;

924. ♂, Thailand, 5.11.2005, ex coll. Korolev V.A., № P00315;

925. ♂, North. Thailand, Chiang Mai. 10-15.04.2013. Ex coll. Korolev V.A., № P01743;

926. ♂, North. Thailand, Chiang Mai, 2-8.10.2013. Ex coll. Korolev V.A., № P01811.

Laos

927. ♂, North. Laos, Luang Prabang prov., Mekong river valley, 1-10.06.2012. Ex coll. Korolev V.A. (№ P01744).

Cambodia

928. ♂, Cambodia, Pnom Penh vicinity, 15.10.2013. Ex coll. Korolev V.A., № P01812.

***Graphium (Pathysa) nomius hainana* Chou, 1994**

Original description: *Pathysa nomius hainana* Chou,1994 : in Chou et al., Monographia Rhopalocerorum Sinensium. 173,751.

Type locality: Hainan, China.

China, Hainan Is.

929. ♂, China, Hainan Province, Qiongzhong Prefecture, 900 m, 22-29.07.2009. / Ex coll. Korolev V.A., № P02006.

***Graphium (Pathysa) dorcus* (de Haan, 1840)**

Original description: *Papilio dorcus* de Haan, 1840; Verh. Nat. Gesch. Ned. Overz. Bez. (Zool.): 35.

***Graphium (Pathysa) dorcus butungensis* Hanafusa, 1997**

Type locality: "Buton Is." (Indonesia).

Indonesia, Buton Is.

930. *Topotypus ♂*, "Graphium dorcus butungensis", Indonesia, Buton Is., 14.10.2011. Ex coll. Korolev V.A. (№ P01396).

***Graphium (Pathysa) rhesus* (Boisduval, 1836)**

Original description: *Papilio rhesus* Boisduval, 1836; Hist. nat. Ins., Spec. gén. Lépid. 1: 253.

***Graphium (Pathysa) rhesus rhesus* (Boisduval, 1836)**

Type locality: "Bengal" (error), corrected Type locality: N. and E. Sulawesi.

Indonesia, Sulawesi Is.

931. (Table V, 931) *Topotypus ♂*, Indonesia, SE Sulawesii, loc. Kendari, 16-20.03.2011. Ex coll. Korolev V.A.. (№ P01373);

932. *Topotypus ♂*, Indonesia, SE Sulawesii, loc. Kendari, 16-20.03.2011. Ex coll. Korolev V.A.. (№ P01374);

933. *Topotypus ♂*, Indonesia, Centr. Sulawesi, Palolo Palu. 16-20.08.2014. Ex coll. Korolev V.A., № P02013.

***Graphium (Pathysa) rhesus rhesulus* (Fruhstorfer, 1902)**

Type locality: «Süd-Celebes [...] am Wasserfall bei Maros» (South Sulawesi, Indonesia).

Note: some authors (Vane-Wright & de Jong, 2003: 93) considered as a infrasubspecific form of *Graphium (Pathysa) rhesus* (Boisduval, 1836).

Indonesia, Buton Is.

934. ♂, Indonesia, Buton Isl., 10.05.2005, ex coll. Korolev V.A. (№ P00083);

935. ♂, Indonesia, Buton Isl., 14.08.2010. Ex coll. Korolev V.A. (№ P00960).

Indonesia, Sulawesi Is.

936. *Topotypus* ♂, Indonesia, S.Sulawesii Isl., 15.02.2009, Ex coll. Korolev V.A. (№ P00943).

Subgenus *Arisbe* (Hübner, [1819])

Antheus-evombar species group:

***Graphium (Arisbe) antheus* (Cramer, 1779)**

Original description: *Papilio antheus* Cramer, 1779 *in* Cramer, [1779-80]. Die Uitlandsche Kapellen voorkomende in de drie waerreldeelen Asia, Africa en America 3: 71.

Graphium (Arisbe) antheus antheus (Cramer, 1779)

Type locality: [Africa]: “op het Eiland Amboina”; Sierra Leone (Larsen, 2005).

Central African Republic

937. (Table V, 937) ♂, Centr. Afric. Republic, Bangui env., 20.11.2009. / Ex coll. Korolev V.A., № P01159.

Zambia

938. ♂, Zambia, 10.03.2005, ex coll. Korolev V.A. (№ P00115).

Graphium (Arisbe) antheus latepictulus Strand, 1914

Type locality: “D.O. Afrika, Kongoë, Kunusi”, Tanzania.

Congo

939. (Table V, 939) ♂, C.Africa, Congo, loc. Kinshasa, 20.04.1999, / ex coll. Korolev V.A., № P00114.

***Graphium (Arisbe) evombar* (Boisduval, 1836)**

Original description: *Papilio evombar* Boisduval, 1836. In: [Roret, Suites à Buffon], Histoire naturelle des Insectes. Species général des Lépidoptères 1: 254.

Type locality: "Madagascar".

Madagascar

940. (Table VI, 940) *Topotypus* ♂, Madagascar, loc. Sakaraha, 12.03.2005. / Ex coll. Korolev V.A., № P00113.

Policienes species group:

***Graphium (Arisbe) policienes* (Cramer, 1775)**

Original description: *Papilio policienes* Cramer, 1775 *in* Cramer., [1775-6]. Die Uitlandsche Kapellen voorkomende in de drie waerreldeelen Asia, Africa en America 1: 61.

***Graphium (Arisbe) policienes policienes* (Cramer, 1775)**

Type locality: [Africa]: "Surinamen", considered TL: West Africa.

Zaire, Kivu prov.

941. (Table VI, 941) ♂, Zaire (D.R.Congo), Prov. Kivu, Mamove, 1-7.03.2013. / Ex coll. Korolev V.A. № P01713;
942. ♂, Zaire, Kivu prov., Mapimbi loc., 15.12.2012. / Ex coll. Korolev V.A. № P01714.

Uganda

943. ♂, West Uganda, Bwamba, Bindibugyo, 17.02.2011. Ex coll. Korolev V.A. № P01715

***Graphium (Arisbe) policienes telloi* Hecq, 1999**

Type locality: Central African Republic: "RCA, Région Nord, P.N., Brendja 12.XII.1998, leg J. Tello." In MRAC, Tervuren.

Central African Republic

944. *Topotypus* ♂, "*Graphium policienes telloi*" / North CAR, loc. Brenja. 13.12.2013. / Ex coll. Korolev V.A., № P01828;
945. ♂, Centr. Africa, C.A.R., Bangui, 16.05.1988. / Ex coll. Korolev V.A., № P00123.

***Graphium (Arisbe) kirbyi* (Hewitson, 1872)**

Original description: *Papilio kirbyi* Hewitson, 1872. Entomologist's Monthly Magazine 9: 146 (146-147).

***Graphium (Arisbe) kirbyi kirbyi* (Hewitson, 1872)**

Type locality: "Lagos". Erroneous, evised TL: East Africa, Tanzania (Lectotype in: Smith & Vane-Wright, 2001, Bulletin of the Natural History Museum Entomology Series 70 (2): 540 (503-719)).

Tanzania

946. (Table VI, 946) ♂, Tanzania, Tanga, Forest Nguu, 12.03.2009. Ex coll. Korolev V.A. (№ P00920).

***Graphium (Arisbe) colonna* (Ward, 1873)**

Original description: *Papilio colonna* Ward, 1873; Ent. mon. Mag. 10 : 151.

***Graphium (Arisbe) colonna loncona* Suffert, 1904**

Type locality: "Mikindani und Lindi, Deutsch-Ost-Africa".

Tanzania

947. (Table VI, 947) ♂, Tanzania, Morogoro, Forest Sanje, 12.02.2008. Ex coll. Korolev V.A. (№ P00918).

***Graphium (Arisbe) illyris* (Hewitson, 1873)**

Original description: *Papilio illyris* Hewitson, 1873. Entomologist's Monthly Magazine 9: 232.

***Graphium (Arisbe) illyris girardeaui* (Guilbot & Plantrou, 1978)**

Type locality: "Empire centrafricain, Bangui", Central African Republic, Bangui.

Central African Republic

948. **Topotypus** ♂, R.C.A., Bangui, 16.04.2010. Ex coll. Korolev V.A. (№ P00961).

***Graphium (Arisbe) porthaon* (Hewitson, 1865)**

Original description: *Papilio porthaon* Hewitson, 1865 in Hewitson, 1862-6. Illustrations of new species of exotic butterflies 3: 4.

Type locality: [Mozambique]. "Zambesi".

Tanzania

949. (Table VI, 949) ♂, Tanzania, Tanga, Forest Utungou, 15.03.2007. / Ex coll. Korolev V.A., № P00919.

Angolanus species group:

Graphium (Arisbe) angolanus (Goeze, 1779)

Original description: *Papilio angolanus* Goeze, 1779; Ent. Beyträge 3 (1): 87

Graphium (Arisbe) angolanus angolanus (Goeze, 1779)

Type locality: "Angolae", Angola.

Synonyms: *pylades* Fabricius, 1793. Invalid; junior primary homonym of *Papilio pylades* Stoll, [1782]; [Castniidae].] [Synonymized with *G. angolanus baronis* (Ungemach, 1932) by Smith & Vane-Wright, 2001. (Bulletin of the Natural History Museum Entomology Series 70 (2): 582 (503-719)); = *houzeoui* Dufrane, 1946; *calabar* Hancock, 1985.

Angola

950. (Table VI, 950) ♂, Africa, Angola, 15.01.2009. / Ex coll. Korolev V.A., № P00927.

Graphium (Arisbe) angolanus baronis (Ungemach, 1932)

Type locality: Ethiopia: "Baro".

Central African Republic

951. ♂, C.A.R., 15.02.2006. / Ex coll. Korolev V.A., № P00088;

952. ♂, "*Graphium pylades angolanum* ♂"/ CAR, Bangui loc., 14.02.2014. / Ex coll. Korolev V.A., № P01826.

Graphium (Arisbe) endochus (Boisduval, 1836)

Original description: *Papilio endochus* Boisduval, 1836. In: [Roret, Suites à Buffon] Histoire naturelle des Insectes. Species général des Lépidoptères 1: 243.

Type locality: "à Madagascar".

Madagascar

953. *Topotypus* ♂, Madagascar, loc. Tamatabe, 16.02.2006, ex coll. Korolev V.A. (№ P00130).

***Graphium (Arisbe) ridleyanus* (White, 1843)**

Original description: *Papilio ridleyanus* White, 1843. Annals and Magazine of Natural History 12 (1): 262.

***Graphium (Arisbe) ridleyanus ridleyanus* (White, 1843)**

Type locality: “oras fluminis Zaire”. Lectotypus in: Smith & Vane-Wright, 2001 Bulletin of the Natural History Museum Entomology Series 70 (2): 590.

Central African Republic

954. (Table VI, 954) ♂, Centr. Africa, C.A.R., loc. Bangui, 12.03.1988. / Ex coll. Korolev V.A., № P00089;

955. ♂, Centr. Afric. Republic. 20.09.2007. / Ex coll. Korolev V.A., № P00701.

***Graphium (Arisbe) ridleyanus semivitreus* Schultze, 1930**

Type locality: Central African Republic: “Mongoumba”

Note: some authors (Smith & Vane-Wright, 2001) considered this taxon as a synonym of nominative subspecies.

Central African Republic

956. *Topotypus* ♂, “*Graphium ridleyanus semivitreus*”, C.A.R., Mongoumba, 16.01.2010. / Ex coll. Korolev V.A., № P01297;

957. (Table VI, 957) *Topotypus, forma* ♂, “*Graphium ridleyanus semivitreus*”, C.A.R., Mongoumba, 22.01.2010. / Ex coll. Korolev V.A., № P01298.

***Leonidas* species group:**

***Graphium (Arisbe) leonidas* (Fabricius, 1793)**

Original description: *Papilio leonidas* Fabricius, 1793. Entomologia Systematica emendata et aucta 3 (1): 35.

Graphium (Arisbe) leonidas leonidas (Fabricius, 1793)

Type locality: “Africa”, not designated.

Cameroon

958. ♂, Centr. Africa, Cameroon, Sanaga, 10.04.1988. /Ex coll. Korolev V.A., № P00131.

Central African Republic

959. (Table VI, 959) ♂, C.A.R., Bangui env., 21.11.2009. / Ex coll. Korolev V.A., № P01158.

Zimbabwe

960. ♂, Zimbabwe, Nat. Park “Viktoria Falls”. 18.03.2014. leg. & coll. V.Tuzov / Ex coll. Korolev V.A., № P01786.

Uganda

961. ♂, Ouganda, Bwindi NP, Impencheable forest, Buhoma Area, 15.03.2014. Ex coll. M.Bonnard / Ex coll. Korolev V.A., № P01977.

Graphium (Arisbe) cyrus (Boisduval, 1836)

Original description: *Papilio cyrus* Boisduval, 1836; Hist. nat. Ins., Spec. gén. Lépid. 1: 239

Graphium (Arisbe) cyrus nuscyrus (Suffert, 1904)

Type locality: “Mojange”, Madagascar.

Madagascar

962. (Table VI, 962) ♂, Madagascar, 18.01.2008. / Ex coll. Korolev V.A., № P00932;

963. ♂, Madagascar, 1-5.03.2008. / Ex coll. Korolev V.A., № P00773.

Tynderaeus species group:

Graphium (Arisbe) tynderaeus (Fabricius, 1793)

Original description: *Papilio tynderaeus* Fabricius, 1793. Entomologia Systematica emendata et aucta 3 (1): 35.

Graphium (Arisbe) tynderaeus tynderaeus (Fabricius, 1793)

Type locality: not designated, probably – Sierra Leone (Larsen, 2005).

Congo

964. (Table VI, 964) ♂, Centr.[al] Africa, Congo, loc. Kinshasa, 12.04.1989. / Ex coll. Korolev V.A., № P00095.

Graphium (Arisbe) latreillianus (Godart, [1819])

Original description: *Papilio latreillianus* Godart, 1819 *in* Latreille & Godart, [1819], [1824]. Encyclopédie Méthodique. Histoire Naturelle [Zoologie] 9 Entomologie: 44 (1-328 [1819], 329-828 [1824]).

Graphium (Arisbe) latreillianus theorini (Aurivillius, 1881)

Type locality: "Gaboon".

Cameroon

965. (Table VI, 965) ♂, Cameroon, 15.12.2004. / Ex coll. Korolev V.A., № P00094.

***Adamastor* species group:**

Graphium (Arisbe) adamastor (Boisduval, 1836)

Original description: *Papilio adamastor* Boisduval, 1836; Hist. nat. Ins., Spec. gén. Lépid. 1: 371

Synonyms: *houzeoui* Dufrane, 1946; *guineensis* Dufrane, 1946; *dimbroko* Berger, 1950; *zongo* Berger, 1950.

Graphium (Arisbe) adamastor adamastor (Boisduval, 1836)

Type locality: "Côte de Guinée".

Central African Republic

966. (Table VI, 966) ♂, Centr. Afric. Republic. 19.10.2007. / Ex coll. Korolev V.A., № P00700.

Graphium (Arisbe) agamedes (Westwood, 1842)

Original description: *Papilio agamedes* Westwood, 1842; Ann. Mag. nat. Hist. 9 : 38

Graphium (Arisbe) agamedes agamedes (Westwood, 1842)

Type locality: «Ashantee, tropical Africa», Ghana.

Central African Republic

967. (Table VI, 967) ♂, C.A.R., Bangui, 12.11.2004. / Ex coll. Korolev V.A., № P00132;

968. ♂, "Graphium agamedes" / C.A.R., Bangui, 16.11.2011. / Ex coll. Korolev V.A., № P01296.

Graphium (Arisbe) schubotzi (Schultze, 1913)

Original description: *Papilio [odin]* var. *schubotzi* Schultze, 1913. Entomologische Rundschau 30: 73 (73-74); [Invalid; junior primary homonym of *Papilio odin* Fabricius, 1793 [*Riodinidae*].];

Graphium (Arisbe) schubotzi schubotzi (Schultze, 1913)

Type locality: "Duma, Ubangi-Distrikt; Angu, Ubangi-Distrikt"; Democratic Republic Congo.

Synonyms: *Graphium auriger schubotzi* (Schultze, 1913); *Graphium schubotzi* (Schultze, 1913).
Smith & Vane-Wright, 2001: 622 stat. rev.

Central African Republic

969. (Table VI, 969) ♂, «*Graphium odin schubotzi*», RCA, Motomato, 15.02.2009. Ex coll. Korolev V.A. (№ P01390);
970. ♂, «*Graphium odin schubotzi*», RCA, Motomato, 15.02.2009. Ex coll. Korolev V.A. (№ P01391).

***Graphium (Arisbe) ucalegonides* (Staudinger, 1884)**

Original description: *Papilio ucalegonides* Staudinger, 1884 *in* Staudinger & Schatz, 1884-8.
Exotischer Schmetterlinge 1: 10 (333 pp.). Bayern.

Type locality: [Angola, Quango] (Larsen, 2005): “Innern Ost afrikas”.

Central African Republic

971. ♂, R.C.A., loc. Maka, 14.05.2013. Ex coll. Korolev V.A., № P01838;

1101.♂, W. Malaysia, Cameron Highlands 15-20.10.2011. Ex coll. Korolev V.A. (№ P01332);
1102.♂, W. Malaysia, Cameron Highlands 15-20.10.2011. Ex coll. Korolev V.A. (№ P01333).

1101

1103

1104

1105

Graphium (Graphium) sarpedon semifasciatus (Honrath, 1888)

Type locality: "Kiukiang (China)", Jiujiang Mt.

China, Guanchzhou prov.

- 1103.♂, SE China, Guanchzhou Prov., Loc. Kanton, 09.2002, ex coll. Korolev V.A. (№ P00103).

Graphium (Graphium) sarpedon dodingensis (Rothschild, 1896)

Type locality: "Halmahera", Indonesia.

Indonesia, Morotai Is.

1104. ♂, Indonesia, Morotai Isl., Maluku islands, 18.11.2009. Ex coll. Korolev V.A. (№ P01271).

***Graphium (Graphium) sarpedon choredon* (C. & R. Felder, 1864)**

Type locality: "Australia, Nova Guinea, Ins. Waigou, Woodlark".

Indonesia, West Irian

1105. ♂, Indonesia, New Guinea, W.Papua, loc. Timika. 22.08.2002. Ex coll. Korolev V.A. (№ P01273).

***Graphium (Graphium) cloanthus* Westwood, 1841**

Original description: *Papilio cloanthus* Westwood, 1841; Arcana entomologica, 1: pl. 11, f. 2, (442).

***Graphium (Graphium) cloanthus cloanthus* Westwood, 1841**

Type locality: N.India.

China, Yunnan prov.

1106. (Table VII, 1106) ♂, S. China, Yannan Prov., 23.02.2006, ex coll. Korolev V.A. (№ P00124);

1107. ♂, South China, Yunnan Prov., Wenshan vic., 1-10.06.2014. / Ex coll. Korolev V.A., № P01990.

Vietnam

1108. ♂, N Vietnam, Tam Dao National Park. 1-10.06.2013. Ex coll. Le Xuan Xung / Ex coll. Korolev V.A. (№ P01731);

1109. ♂, N. Vietnam. Thanh Son – Ha Giang Province, 10-15.06.2014. Le Xuan Xung leg. / Ex coll. Korolev V.A., № P01988;

1110. ♂, N. Vietnam. Thanh Son – Ha Giang Province, 10-15.06.2014. Le Xuan Xung leg. / Ex coll. Korolev V.A., № P01989.

Thailand

1111. ♂, North. Thailand. Chiang Mai, loc. Doi Suthep, 15-20.06.2012. Ex coll. Korolev V.A. . (№ P01732).

Laos

1112. ♂, North. Laos, Luang Prabang prov., Mekong river valley, 1-10.06.2012. Ex coll. Le Xuan Xung / ex coll. Korolev V.A. (№ P01733).

Myanmar (Burma)

1113. ♂, E. Myanmar (Burma), Shan State, Mong Hpayak District., 1-6.06.2010. Ex coll. Korolev V.A. (№ P01736).

***Graphium (Graphium) sandawanum* Yamamoto, 1977**

Original description: *Graphium sandawanum* Yamamoto, 1977; Trans. lep. Soc. Jap. 28 (3): 87.

***Graphium (Graphium) sandawanum sandawanum* Yamamoto, 1977**

Type locality: "Philippines, Mindanao, Mt. Apo", Philippines.

Philippines, Mindanao Is.:

1114. (Table VII, 1114) ***Topotypus*** ♂, Philippines, Mindanao Isl., loc. Apo Mts., 5.02.2004, ex coll. Korolev V.A. (№ P00120).

***Graphium (Graphium) weiskei* (Ribbe, 1900)**

Original description: *Papilio weiskei* Ribbe, 1900; Insekten-Börse 17 (39): 308.

Type locality: "Neuguinea (englischer Theil) [...] in einer Höhe von ca. 7000 Fuss engl.".

Indonesia, West Irian

1115. (Table VII, 1115) ***Topotypus*** ♂, Indonesia, Irian Jaya, 16.02.2006, ex coll. Korolev V.A. (№ P00087);

1116. ***Topotypus*** ♂, W. Irian, Arfak [Isl] (!), 15.02.2009. Ex coll. Korolev V.A. (№ P00965);

1117. ***Topotypus*** ♂, Indonesia, W.Irian, Mt. Arfak. 10-15.05.2013. Ex coll. Korolev V.A. (№ P01750).

***Graphium (Graphium) stresemanni* Rothschild, 1916**

Original description: *Papilio weiskei stresemanni* Rothschild, 1915; in Rothschild & Durrant, Lep. B.O.U. Exp. New Guinea: 4.

Type locality: "Ceram"; Ceram Is., Indonesia.

***Graphium (Graphium) stresemanni stresemanni* Rothschild, 1916**

Indonesia, Ceram Is.

1118. (Table VII, 1118) ***Topotypus*** ♂, Indonesia, Ceram Isl., 20.01.2011. Ex coll. Korolev V.A. (№ P01156).

***Graphium (Graphium) codrus* (Cramer, 1777)**

Original description: *Papilio codrus* Cramer, [1777]; Uitl. Kapellen 2 (9-16): 127, pl. 179, f. A, B.

***Graphium (Graphium) codrus codrus* (Cramer, 1777)**

Type locality: Buru, Ambon, Serang, [Indonesia].

Indonesia, Ceram Is.

1119. (Table VII, 1119) ♂, Indonesia, Ceram Isl., 10.02.2005, ex coll. Korolev V.A., № P00133.

Type locality: "Bachan, Ternate, Halmahera".

Indonesia, Halmahera Is.

1120. ♂, "*Graphium codrus gilolensis* ♂" / Indonesia, N. Halmahera, Mt. Gamkonora. 25.02.2013.
Ex coll. Korolev V.A. (№ P01710).

***Graphium (Graphium) empedovana* (Corbet, 1941)**

Original description: *Papilio empedovana* Corbet, 1941; J. fed. Malay St. Mus. 18 (5): 805.

***Graphium (Graphium) empedovana empedovana* (Corbet, 1941)**

Type locality: "Celebes"(?)

Indonesia, Java Is.

1121. (Table VII, 1121) ♂, Indonesia, Java, 12.03.2006, ex coll. Korolev V.A. (№ P00097);

1122. ♀, Indonesia, Java, 12.03.2006, ex coll. Korolev V.A. (№ P00098).

Subgenus *Paranticopsis* Wood-Mason & de Niceville, [1887]

***Graphium (Paranticopsis) encelades* (Boisduval, 1836)**

Original description: *Papilio encelades* Boisduval, 1836; Hist. nat. Ins., Spec. gén. Lépid. 1: 376.

***Graphium (Paranticopsis) encelades encelades* (Boisduval, 1836)**

Type locality: "Moluques"(?), revised Type locality: Sulawesi Is..

Indonesia, Sulawesi Is.

1123. (Table VII, 1123) ♂, “*Graphium encelades*” ♂ / Indonesia, S.Sulawesi, Puncak. 10.04.1998.
/ Ex coll. Korolev V.A., № P01480.

***Graphium (Paranticopsis) delesserti* (Guérin-Méneville, 1839)**

Original description: *Papilio delessertii* Guérin-Méneville, 1839; Rev. zool. (Soc. Cuvier) 2 (8): 233-235.

Type locality: Penang, Malaysia.

Graphium (Paranticopsis) delesserti palawanus (Staudinger, 1889)

Type locality: Palawan Is., Philippines.

Philippines, Palawan Is.

1124. (Table VII, 1124) ♂, Philippines, Palawan Isl., 20.12.2004, ex coll. Korolev V.A., № P00092.

***Graphium (Paranticopsis) macareus* (Godart, 1819)**

Original description: *Papilio macareus* Godart, 1819; Encyclopédie Méthodique. 9 (1): 21, 76, no. 144.

Type locality: “Java”; Indonesia.

Graphium (Paranticopsis) macareus palawanicola Koçak, 1980

Type locality: Palawan Is., Philippines.

Philippines, Palawan Is.

1125. (Table VII, 1125) ♂, Philippines, Palawan Isl., 12.03.2006, ex coll. Korolev V.A. № P00093.

***Graphium (Paranticopsis) deucalion* (Boisduval, 1836)**

Original description: *Papilio deucalion* Boisduval, 1836; Hist. nat. Ins., Spec. gén. Lépid. 1: 375.

Type locality: "Moluques" [error]; corrected Type locality – Sulawesi Is. (Indonesia).

Indonesia, Sulawesi Is.

1126. (Table VII, 1126) ♂, Indonesia, Centr. Sulawesi, Luulul, 10.10.2008. Ex coll. Korolev V.A. (№ P01287).

***Graphium (Paranticopsis) megaera* (Staudinger, 1888)**

Original description: *Papilio megaera* Staudinger, 1888; Corr.-Bl. Ent. Ver. Iris 1 (5): 275.

Type locality: Palawan Is., Philippines.

Philippines, Palawan Is.

1127. (Table VII, 1127) ♂, Philippines, Palawan Isl., 3.11.2004, ex coll. Korolev V.A., № P00096.

***Graphium (Paranticopsis) megarus* (Westwood, 1844)**

Original description: *Papilio megarus* Westwood, 1844; Arcana entomologica, 2: 98, pl. 72, f. 2.

***Graphium (Paranticopsis) megarus marthae* Toxopeus, 1938**

Type locality: "E.Java, Bali"; Indonesia.

Indonesia, Bali Is.

1128. (Table VII, 1128) ♂, "*Graphium megarus marthae* ♂" / Indonesia, W. Bali, 10.2012. Ex coll. Korolev V.A. (№ P01696).

***Graphium (Paranticopsis) ramaceus* (Westwood, 1872)**

Original description: *Papilio ramaceus* Westwood, 1872; Trans. ent. Soc. Lond. 1872 (2) : 95, pl. 5, f. 3.

***Graphium (Paranticopsis) ramaceus pendleburyi* Corbet, 1941**

Type locality: "India orientali (circa Pulo Penang ?)", Malaysia.

Synonyms: *Papilio leucothoe* Westwood, 1845 : Arcana Ent. 2:128, pl.79, fig.3. TL. India orientali (circa Pulo Penang ?)" (homonym); *Papilio ramaceus dealbatus* Pendlebury, 1939: J. Fed. Malay St. Mus. 18:381-382. (homonym).

Malaysia

1129. (Table VII, 1129) ♂, W. Malaysia , Cameron Highlands, 15-20.10.2011. Ex coll. Korolev V.A. (№ P01472);

1130. ♂, W. Malaysia , Cameron Highlands, 15-20.10.2011. Ex coll. Korolev V.A. (№ P01473).

Thailand

1131. ♂, Thailand, Yala, Than To, 10-13.10.2011. Ex coll. Korolev V.A. (№ P01536).

***Graphium (Paranticopsis) stratocles* (Felder & Felder, 1862)**

Original description: *Papilio stratocles* C. & R. Felder, 1861; Wien. ent. Monats. 5 (10): 298, n. 4.

***Graphium (Paranticopsis) stratocles stratocles* (Felder & Felder, 1862)**

Type locality: "Mindanao" [error?]; Philippines.

Philippines, Mindoro Is.

1132. (Table VII, 1132) ♂, Philippines, Mindoro Isl., 6.11.2006, ex coll. Korolev V.A. (№ P00316).

***Graphium (Paranticopsis) stratocles dodongi* (Page & Treadaway, 2003)**

Type locality: "Iwahig"; ?Palawan Is., Philippines.

Synonyms: *Arisbe (Paranticopsis) stratocles dodongi*; Page & Treadaway, 2003.

Philippines, Palawan Is.

1133.♂, Philippines, Palawan Isl., 12.10.2004, ex coll. Korolev V.A. (№ P00090).

Graphium (Paranticopsis) stratocles senectus Tsukada & Nishiyama, 1980

Type locality: "Luzon, Marinduque"; Philippines.

Philippines, Luzon Is.

1134.♂, Philippines, Luzon Isl., 10.04.2005, ex coll. Korolev V.A. (№ P00091).

Graphium (Paranticopsis) xenocles (Doubleday, 1842)

Original description: *Papilio xenocles* Doubleday, 1842; in Gray, Zool. Miscell. (2d): 74.

Type locality: "Sylhet" (NE India).

Graphium (Paranticopsis) xenocles kephisos (Fruhstorfer, 1902)

Type locality: Chiem-Hoa, N.Vietnam.

Vietnam

1135.♂, N Vietnam, Tam Dao National Park. 1-10.06.2013. Ex coll. Le Xuan Xung / Ex coll. Korolev V.A., № P01818;

Thailand

1136. (Table VIII, 1136) ♂, Thailand, Chiang Rai, Wiang Pa Pao, 17.09.2005. Ex coll. Korolev V.A.. (№ P00711);

1137. ♂, Thailand, Chiang Mai, 10-16.10.2012. Ex coll. Korolev V.A.. (№ P01546).

Graphium (Paranticopsis) thule (Wallace, 1865)

Original description: *Papilio thule* Wallace, 1865; Trans. Linn. Soc. Lond. 25 (1): 63, pl. 7, f. 1

Type locality: "New Guinea", corrected TL: W.Irian.

Synonyms: *Papilio thule leuthe* Grose-Smith, 1894; Novit. zool. 1 (2): 333, TL: German New Guinea; *Papilio goldiei* Godman & Salvin, 1880; Proc. zool. Soc. Lond. 1880: 613, 614 (note), TL: New Guinea; *Papilio felixi* Joicey & Noakes, 1915; Trans. ent. Soc. Lond. 1915 (2): 178, pl. 21, f. 2, TL: Biak.

Indonesia, W.Irian

1138. (Table VIII, 1138) *Topotypus* ♂, "*Graphium thule* ♂" / Indonesia, W.Papua, Nabire. 02. 2013. Ex coll. Korolev V.A. (№ P01697).

Genus *Meandrusa* Moore, 1888

Meandrusa payeni (Boisduval, 1836)

Original description: *Papilio payeni* Boisduval, 1836; Hist. nat. Ins., Spec. gén. Lépid. 1: 235.

Type locality: "Java"; Indonesia.

Meandrusa payeni ciminus (Fruhstorfer, 1909)

Type locality: " Sumatra; Malay" (Malaysia, Indonesia).

Malaysia

1139. (Table VIII, 1139) ♂, Malaysia, 15.02.2009. Ex coll. Korolev V.A., № P00909.

Meandrusa sciron (Leech, 1890)

Original description: *Papilio sciron* Leech, 1890; Entomologist, 23: 192.

Type locality: "Chia-Kou-Ho [...] Huang-mu-Chung" (SW China).

China, Sichuan prov.

1140. (Table VIII, 1140) ♂, "*Meandrusa sciron*" ♂ / China. Sichuan Prov., Daba Mtn., 15.08.2001 Ex coll. Korolev V.A., № P01521;

1141. ♂, China, W. Sichuan, Wenchuan env., 1900 m, 1.07.2011. / Ex coll. Korolev V.A., № P01956.

Meandrusa lachinus (Fruhstorfer, 1902)

Original description: *Papilio gyas* subsp. *lachinus* Fruhstorfer, 1902.

Type locality: "N. Burma" (Myanmar).

N. Thailand

1142. ♂, Thailand, Chiang Mai, Fang. 13.11.2009. Ex coll. Korolev V.A., № P00923;

1143. (Table VIII, 1143) ♂, Thailand, Phang, 17.03.2008. Ex coll. Korolev V.A., № P00970).

Genus *Mimoides* Brown, 1991

***Mimoides ariarathes* (Esper, 1788)**

Original description: *Papilio ariarathes* Esper, 1788; Die ausl. Schmett. : 57, pl. 14, f. 2, (TL: not designated: "S. Amer.").

***Mimoides ariarathes gayi* (Lucas, 1852)**

Type locality: "Cusco", Peru.

Synonyms: *cynamon* (Gray, 1853).

Peru

1144. (Table VIII, 1144) ♂, Peru, Loreto, Momon River, San Juan de Polis. 5.03.2007. Ex coll. Korolev V.A. (№ P00702);

1145. ♂, N. Peru, San Martin Province, Juanjuy, 30.08.2000. Ex coll. Korolev V.A. (№ P01192).

***Mimoides lysithous* (Hübner, [1821])**

Original description: *Hectorides lysithous* Hübner, [1821]; Samml. exot. Schmett. 2 : pl. 106.

***Mimoides lysithous rurik* (Eschscholtz, 1821)**

Type locality: Brazil (Santa Catarina).

Argentina, Missiones state

1146. (Table VIII, 1146) ♂, Argentina, Dos de Mayo. Missiones. 500 m., 1.12.2005. Ex coll. Korolev V.A. (№ P00698).

***Mimoides pausanias* (Hewitson, 1852)**

Original description: *Papilio pausanias* Hewitson, 1852; Trans. ent. Soc. Lond. (2) 2 (1) : 22, pl. 6, f. 2.

***Mimoides pausanias pausanias* (Hewitson, 1852)**

Type locality: British Guiana; Brazil, Ega Is.

Peru

1147. (Table VIII, 1147) ♂, Peru, Loreto prov., Iquitos, 20.07.1996, ex coll. V.Tuzov // Ex coll. Korolev V.A. (№ P00853);

1148. ♂, Peru, Tingo Maria, 6.02.2006. Ex coll. Korolev V.A. (№ P00854);

1149. ♂, N. Peru, San Martin Province, Juanjuy, 15.08.2003. Ex coll. Korolev V.A. (№ P01225).

***Mimoides xeniades* (Hewitson, 1867)**

Original description: *Papilio xeniades* Hewitson, 1867; Trans. ent. Soc. Lond. (3) 5: 561.

***Mimoides xeniades halex* (Rothschild & Jordan, 1906)**

Type locality: "Colombia".

Colombia

1150. *Topotypus* ♂, Colombia, Bogota loc., 17.02.1998. Ex coll. Korolev V.A., № P01932;

***Mimoides xeniades signatus* (Tyler, Brown & Wilson, 1994)**

Type locality: Peru, Bolivia.

Synonyms: *harmodius* (Doubleday, 1846); Ann. Mag. nat. Hist. 18 (121) : 374 (preocc. Cramer, 1779), (TL: «Bolivia»).

Bolivia

1151. ♂, Bolivia, Jurua river, 18.01.2008. Ex coll. Korolev V.A., № P01930;

1152. ♂, Bolivia, Jurua river, 18.01.2008. Ex coll. Korolev V.A., № P01931.

Peru

1153. (Table VIII, 1153) ♂, Peru, Tingo Maria, May 2005. Ex coll. Korolev V.A. (№ P00849);

1154. ♂, N. Peru, San Martin Province, Juanjuy, 10.01.2004. Ex coll. Korolev V.A. (№ P01194);

1155. ♂, C.Peru, Lima, Callao, Jorge Chaves vic., 14.02.2003. Ex coll. Korolev V.A. (№ P01195);

1156. ♂, C.Peru, Lima, Callao, Jorge Chaves vic., 14.02.2003. Ex coll. Korolev V.A. (№ P01196);

1157. ♂, N.-E. Peru, Amazonas Dept., Pedro Ruiz Gallo, 22.12.2001. Ex coll. Korolev V (№ P01223);

1158. ♂, N.-E. Peru. Amazonas Region, Rodriguez de Mendoza Province, 22.10.2002. Ex coll. Korolev V.A. (№ P01224);

1159. ♂, Peru, Huanuco, Tingo Maria, Huallaga riv., 10-20.03.2014. Ex coll. M.Miranda / Ex coll. Korolev V.A., № P01927;
1160. ♂, Peru, Huanuco, Tingo Maria, Huallaga riv., 10-20.03.2014. Ex coll. M.Miranda / Ex coll. Korolev V.A., № P01928;
1161. ♂, Peru, Huanuco, Tingo Maria, Huallaga riv., 10-20.03.2014. Ex coll. M.Miranda / Ex coll. Korolev V.A., № P01929.

1154

1157

1158

1162

Mimoides xenia tabaconas (Joyce & Talbot, 1918)

Type locality: "River Tabaconas, N. Peru, 6000 ft".

Peru

1162. *Topotypus* ♂, Peru, Cajamarca reg., San Ignacio Province, River Tabaconas. 13.01.2002. Ex coll. Korolev V.A. (Экз. № P01193).

Mimoides xynias (Hewitson, 1875)

Original description: *Papilio xynias* Hewitson, 1875; Ent. mon. Mag. 12: 153.

Mimoides xynias xynias (Hewitson, 1875)

Type locality: "Bolivia".

Synonyms: *Papilio trapeza* f. *trapezoides* Niepelt, 1913; (TL: Peru).

Peru

1163. (Table VIII, 1163) ♂, Peru, Tingo Maria, May 2005. Ex coll. Korolev V.A. (№ P00848).

Tribe *TEINOPALPINI* Grote, 1899

Genus *Teinopalpus* Hope, 1843

Teinopalpus Hope, 1843; Trans. linn. Soc. Lond. 19 (2): 131; Type species: *Teinopalpus imperialis* Hope, 1843.

Teinopalpus imperialis Hope, 1843

Original description: *Teinopalpus imperialis* Hope, 1843; Trans. linn. Soc. Lond. 19 (2) : 131, pl. 11, f. 1-2♂; *Teinopalpus parryae* Hope, 1843; Trans. linn. Soc. Lond. 19 (2) : 131, pl. 11, f. 3-4♀.

Synonyms: *Teinopalpus imperialis himalaicus* Rothschild, 1898; Novit. Zool. 5 (3): 602, TL: Bhutan.

Teinopalpus imperialis behludinii Pen, 1936

Type locality: Mt. Behludin, Sichuan, China.

China, Sichuan prov.

1164. *Topotypus* ♂, SW China, Szechuan Province, loc. Bailuding, 50 km N from Chengdu, 2-10. 06.2013. Ex coll. Korolev V.A., № P01831;

1165. *Topotypus* ♀, SW China, Szechuan Province, loc. Bailuding, 50 km N from Chengdu, 2-10. 06.2013. Ex coll. Korolev V.A., № P01832;

1166. (Table VIII, 1165) ♂, China, Sichuan, 6.06.2008. / Ex coll. Korolev V.A., № P00921.

1164

1165

1166

Type locality: Shan States to Upper Tenasserim, Myanmar (Burma).

Synonyms: according Racheli & Cotton (2009) *imperatrix* synonimezed with ssp.*bhumipoli*, *gerrilesi* and *gillesi* (from N Thailand, NW Thailand and NE Laos respectively); Cotton & Racheli (2006), when synonymizing these taxa with *imperatrix*, mistakenly also synonymized *hakkaorum* Schaffler (2004) (Type locality: China, Guangdong, Lianhua Shan, 60 km. ost1. Meizhou, 1400 m.).

North Vietnam

***Battus madyes plinius* (Weymer, 1890)**

Type locality: “N.Peru, prov. Chachapoyas Moyamba”.

Peru

1186. ♂, Peru, Loreto. Amazonas river, 13.02.2008. Ex coll. Korolev V.A. (№ P00893);

1187. ♂, Peru, Loreto, Momon river. 10-12.12.2007. Ex coll. Korolev V.A. (№ P00896);

1188. ♂, N. Peru, San Martin Province, Juanjuy, 16.10.2003. Ex coll. Korolev V.A. (№ P01229);

1189. ♂, N.-E. Peru. Amazonas Region, Rodriguez de Mendoza Province, 11.01.2003. Ex coll. Korolev V.A. (№ P01230).

1186

1187

1190

1192

***Battus madyes magnimacula* (Joicey & Talbot, 1925)**

Type locality: “W. slopes of the Andes, 10000” (N.Peru)..

Peru

1190. ♂, N. Peru, San Martin Province, Juanjuy, 10.07.2001. Ex coll. Korolev V.A. (№ P01231);

1191. ♂, N.-E. Peru. Amazonas Region, Rodriguez de Mendoza Province, 15.01.2004. Ex coll. Korolev V.A. (№ P01232);

1192. ♂, "Battus madyes magnimaculata" ♂, Peru, Tingo Maria, 17.05.2011. Ex coll. Korolev V.A. (№ P01382).

***Battus polydamas* (Linnaeus, 1758)**

Original description: *Papilio (Equites) polydamas* Linnaeus, 1758; Syst. Nat. (Edn. 10) 1: 460 (№ 11).

***Battus polydamas polydamas* (Linnaeus, 1758)**

Type locality: "Hibisco mutabili Americes" (continental Central America). In some works the Type locality has been designated as "Georgien Argentinien" (Beccaloni, G. W. et al., 2003), but in others – Surinam. The last TL followed from the cite of C. Linnaeus in original description of polydamas by publication M. Merian about Surinam ("sur. 31, t.31").

Synonyms: *Battus polydamas psittacus* (Molina, 1782).

Costa Rica

1193. ♂, Costa Rica. 17.11.2009. Ex coll. Korolev V.A. (№ P00925).

Peru:

1194. (Table VIII, 1194) ♂, Peru, Tingo Maria, 6.11.2006. Ex coll. Korolev V.A. (№ P00855);

1195. ♂, C.Peru, Lima, Callao, Jorge Chaves vic., 30.03.1999. Ex coll. Korolev V.A. (№ P01235).

Argentina

1196. ♂, Argentina, Dos de Mayo. Missiones. 500 m. 8.11.2006. Ex coll. Korolev V.A. (№ P00696).

Genus *Parides* Hübner, 1819

***Parides agavus* (Drury, 1782)**

Original description: *Papilio agavus* Drury, 1782; Illust. Nat. Hist. Exot. Insects 3: index, : 11, pl. 9, f. 4.

Type locality: Brazil (Rio de Janeiro).

Argentina

1197. (Table VIII, 1197) ♂, Argentina, Rio Parana, 5.11.2007. Ex coll. Korolev V.A. (№ P00908).

***Parides bunichus* (Hübner, 1821)**

Original description: *Menelaides bunichus* Hübner, [1821]; Samml. exot. Schmett. 2 : pl. 103.

***Parides bunichus damocrates* (Guenee, 1872)**

Type locality: Argentina.

Argentina

1198.(Table IX, 1198) ♂, Argentina, Rio Parana, 10-15.12.2007. Ex coll. Korolev V.A. (№ P00767).

***Parides bunichus perrhebus* (Boisduval, 1836)**

Type locality: Paraguay.

Brazil

1199. (Table IX, 1199) ♂, Brazil, Sao Paolo, 5.11.2010. Ex coll. Korolev V.A. (№ P00976).

***Parides montezuma* (Westwood, 1842)**

Original description: *Papilio montezuma* Westwood, 1842; Arcana entomologica, 1: 67, pl. 18, f. 3.

Type locality: Mexico.

Mexico

1200. (Table IX, 1200) ♂, Mexico, Veracruz, Catemaco 650 m, 10-15.03.2012. Ex coll. Korolev V.A. (№ P01440).

***Parides photinus* (Doubleday, 1844)**

Original description: *Papilio photinus* Doubleday, 1844; Ann. Mag. nat. Hist. 14 (93): 415

Type locality: "Mexico?".

Mexico

1201. (Table IX, 1201) ♀, Mexico, Veracruz, Catemaco, 650 m, 10-15.03.2012. Ex coll. Korolev V.A. (№ P01441).

Type locality: Japan.

East China, Jianxi prov.

1246. ♂, China, Jiangxi, Wuyi Shan Mts., Xipaihe, 27°54'N, 117°20'E, 1500 m, 04.2004. leg. V.Sinyaev / Ex coll. Korolev V.A., № P01860.

***Byasa alcinous mansonensis* (Fruhstorfer, 1901)**

Type locality: "Than-Moi, Juni-Juli 1900, 1000' Nord-Tonkin und Man-Son Gebirge", SE China.

China, Sichuan prov.

1247. (Table IX, 1247) ♂, China, Hanyuan, Sichuan, 1200-1600 m, 3-10.05.2008. Ex coll. Korolev V.A. (№ P00774).

***Byasa adamsoni* (Grose-Smith, 1896)**

Original description: *Papilio adamsoni* Grose-Smith, 1886; Ann. Mag. nat. Hist. (5) 18 (104) : 149.

***Byasa adamsoni adamsoni* (Grose-Smith, 1896)**

Type locality: "Salween River, S.Shan States"; Myanmar (Burma).

Thailand

1248. (Table IX, 1248) ♂, "Pachliopta adamsoni" ♂ / Thailand Chiang May, 15.04.2000. Ex coll. Korolev V.A. (№ P01522).

***Byasa polyeuctes* (Doubleday, 1842)**

Original description: *Papilio polyeuctes* Doubleday, 1842; in Gray, Zool. Miscell. (2d): 74.

***Byasa polyeuctes polyeuctes* (Doubleday, 1842)**

Type locality: "Sylhet", Bangladesh.

China, Sichuan prov.

1249. (Table IX, 1249) ♂, China, Sichuan, Shimian, 3-12.05.2007. 1300-1800 m. Ex coll. Korolev V.A. (№ P00579).

Thailand:

1250. ♂, Thailand, Um phang Tak. 16.03.2010. Ex coll. Korolev V.A. (№ P00967).

Myanmar (Burma)

1251. ♀, Burma, Kalan Shan, 28.04.2008. Ex coll. Korolev V.A. (№ P01021).

***Byasa polyeuctes lama* (Oberthür, 1876)**

Type locality: "Moupin", (Tibet, W. of Sichuan Province, China).

China, Tibet

1252. (Table IX, 1252) ♂, "Byasa.pol. polyeuctes" / China, Tibet, Chang Du / 15.07.2011. Ex coll. Korolev V.A. (№ P01452).

China, Guansi prov.

1253. ♂, China, Guansi Prov., 1-10.03.2008. Ex coll. Korolev V.A. (№ P00780).

***Byasa dasarada* (Moore, 1857)**

Original description: *Papilio dasarada* Moore, 1857; in Horsfield & Moore, Cat. lep. Ins. Mus. East India Coy 1 : 96.

Byasa dasarada barata Rothschild, 1908

Type locality: «Shan States and Tenasserim», Myanmar (Burma).

Thailand

1254. (Table IX, 1254) ♂, «*Atrophaneura dasarada*», Thailand, Chiang Mai, 14.08.1991. / Ex coll. Korolev V.A., № P01236.

Genus *Atrophaneura* Reakirt, [1865]

***Atrophaneura aidoneus* (Doubleday, 1845)**

Original description: *Papilio aidoneus* Doubleday, 1845; Ann. Mag. nat. Hist. (1) 16 (104): 178.

Type locality: «Himalaya» (Nepal, Butan).

China, Yunnan prov.

1255. (Table IX, 1255) ♂, “*Atrophaneura aidonea*” ♂/ China, S.Yunnan, Lanchang, Hei Mt., 2300 m/15.08.1999. Zhi leg. / Ex coll. Korolev V.A., № P01490.

***Atrophaneura dixoni* (Grose-Smith, 1900)**

Original description: *Papilio dixoni* Grose-Smith, 1900; Ann. Mag. nat. Hist. (7) 6 (32): 210

Type locality: «"Bwool, North Celebes"» (Indonesia).

Indonesia, Sulawesi Is.

1256. (Table IX, 1256) *Topotypus* ♂, Indonesia, N.Sulawesi, 12.08.2006, ex coll. Korolev V.A. (№ P00575).

***Atrophaneura nox* (Swainson, 1822)**

Original description: *Papilio nox* Swainson, 1822; Zool. Illustr. (1) 2: pl. 102

Synonyms: *memercus* Godart, [1824]; Encyclopédie Méthodique. 9 (2): 809; *neesius* Zinken, 1831; Nova Acta physico-med. [Leop. Carol.] 15 (1) : 152, pl. 14, f. 4; *henricus* Fruhstorfer, 1899; Berl. ent. Zs. 43 (3/4): 425 - junior prel. synonym *Papilio henricus* Oberthür, 1892; *henricus* Fruhst. [f] ab. *rokanus* Niepelt, 1926.

Atrophaneura nox nox (Swainson, 1822)

Type locality: "Java", Indonesia.

Indonesia, Java Is.

1257. (Table IX, 1257) *Topotypus* ♂, Indonesia, East Java isl., Mt. Argopuro, 17.08.2008. Ex coll. Korolev V.A. (№ P01238);
1258. *Topotypus* ♂, "Atrophaneura nox nox", Indonesia, E. Java, Mt. Argopuro, 1000 m, ♂ / 15.03.2011. Ex coll. Korolev V.A. (№ P01453);
1259. *Topotypus* ♀, Indonesia, East Java, Mt. Argopuro. 13.07.1997. Ex coll. Korolev V.A. (№ P01237);
1260. (Table IX, 1260) *Topotypus* ♀, "Atrophaneura nox nox" / Indonesia, E. Java, Mt. Argopuro, 1000 m/ 15.03.2011. Ex coll. Korolev V.A. (№ P01454).

Atrophaneura nox nyx (de Nicéville, 1897)

Type locality: Bali Is., Indonesia.

Indonesia, Bali Is.

1261. *Topotypus* ♂, "Atrophaneura nox nyx ♂" / Indonesia, W. Bali Is.; 09.2012. Ex coll. Korolev V.A. (№ P01707).

Atrophaneura kuehni (Honrath, 1886)

Original description: *Papilio kühni* Honrath, 1886; Berl. ent. Z. 30 (2): 294, pl. 6, f. 1.

Type locality: "Tombugu (Ost-Celebes)", E, Sulawesi, Indonesia.

Indonesia, Sulawesi Is.

1262. (Table IX, 1262) ♂, Indonesia, C. Sulawesi, 10.11.2005, ex coll. Korolev V.A. (№ P00577).

1263. *Topotypus* ♀, Indonesia, Tombugu, E. Celebes. 14.02.2009. Ex coll. Korolev V.A. (№ P01153).

Atrophaneura priapus (Boisduval, 1836)

Original description: *Papilio priapus* Boisduval, 1836; Hist. nat. Ins., Spec. gén. Lépid. 1: 190.

Type locality: "Java", West Java, Indonesia.

Indonesia, Java Is.

1264. (Table X, 1264) *Topotypus* ♂, Indonesia, W.Java, 25.02.2007. Ex coll. Korolev V.A. (№ P00683);
1265. (Table X, 1265) *Topotypus* ♀, Indonesia, W.Java, 20-25.02.2007. Ex coll. Korolev V.A. (№ P00684).

***Atrophaneura luchti* (Roepke, 1935)**

Original description: *luchti* (Roepke, 1935) (*Papilio*); Rhop. Javanica 12: pl. 7, f. 5-6.

Type locality: Java, Indonesia.

Indonesia, Java Is.

1266. (Table X, 1266) ♂, *Atrophaneura luchti* ♂, Indonesia, E.Java Is., Mt. Argopuro. 15.05.2011. Ex coll. Korolev V.A. (№ P01379).

***Atrophaneura semperi* (Felder & Felder, 1861)**

Original description: *Papilio semperi* C. & R. Felder, 1861; Wien. ent. Monats. 5 (10): 297.

Synonyms: *erythrosoma* Reakirt, [1865]; Proc. ent. Soc. Philad. 3: 447.

***Atrophaneura semperi albofasciata* (Semper, 1892)**

Type locality: "Mindoro", Philippines.

Synonyms: *albofasciatus* Staudinger, 1895; Dt. Ent. Z. Iris, 7 (2) : 349 (TL: Mindoro).

Philippines, Mindoro Is.

1267. *Topotypus* ♂, Philippines, N.Mindoro Isl., 11.03.2006. Ex coll. Korolev V.A. (№ P00576);

1268. (Table X, 1268) *Topotypus* ♀, Philippines, Mindoro, loc. Panay, 18.02.2009. Ex coll. Korolev V.A. (№ P01149).

Atrophaneura semperi supernotatus (Rothschild, 1895)

Type locality: "Bohol", Philippines.

Philippines, Leyte Is.

1269. (Table X, 1269) ♂, Philippines, Leyte Isl., 15-20.10.2007. Ex coll. Korolev V.A. (№ P00677).

***Atrophaneura varuna* (White, 1868)**

Original description: *Papilio varuna* White, 1842; Entomologist 1: 280.

***Atrophaneura varuna varuna* (White, 1868)**

Type locality: "Peneng", Malaysia.

Malaysia, Perak Is.

1270. (Table X, 1270) ♂, Malaysia, Perak Isl., 20.02.2008. Ex coll. Korolev V.A. (№ P00981).

***Atrophaneura zaleucus* (Hewitson, 1865)**

Original description: *Papilio zaleucus* Hewitson, 1865; Ill. exot. Butts [1] (*Papilio* VII-VIII): [16], pl. [8], f. 24-25.

Synonyms: *nigricans* Fruhstorfer, 1899; (preocc.); *Byasa zaleucus* ♂ v. *punctata* Evans, 1923: J. Bombay nat. Hist. Soc. 29(1):231. TL. Lower Burma. (BMNH); *Papilio zaleucus* f. *indiv.* ♂ *anomala* Rousseau-Decelle, 1947: Bull. Soc. ent. Fr. 51:128. TL. "Kalataung, Tavoy, Birmanie" (♂).

Note: some authors (Talbot, 1939:74; Inayoshi Y., 1996-2012) considered this taxon as a ssp. of *Atrophaneura varuna* (White, 1842).

Thailand

1271. (Table X, 1271) ♂, Thailand, Phrae, Wang Chin, 14.03.2007. Ex coll. Korolev V.A. (№ P00695).

Genus *Losaria* Moore, [1902]

***Losaria coon* (Fabricius, 1793)**

Original description: *Papilio coon* Fabricius, 1793; Ent. Syst. 3 (1): 10, no. 27.

***Losaria coon coon* (Fabricius, 1793)**

Type locality: "China" (error); corrected TL: Java Is.

Indonesia, Java Is.

1272. *Topoty whole* ♂, Indonesia, Java, 3.06.2006. Ex coll. Korolev V.A. (№ P00578).

Losaria coon doubledayi (Wallace, 1865)

Type locality: "Moulmein, Burma"; Myanmar.

Thailand

1273. ♂, Thailand, Phrae, Wang Chin, 13.11.2008. Ex coll. Korolev V.A. (№ P00916).

Genus *Pachliopta* Reakirt, [1865]

Pachliopta aristolochiae (Fabricius, 1775)

Original description: *Papilio aristolochiae* Fabricius, 1775; *Syst. Ent.*: 443, no. 3.

Pachliopta aristolochiae aristolochiae (Fabricius, 1775)

Type locality: Tranquebar, S.India.

India

1274. (Table X, 1274) ♂, India, Assam, 11.01.1997. Ex coll. Korolev V.A., № P00585).

1278

1277

1282

1283

1284

Pachliopta aristolochiae interpositus (Fruhstorfer, 1904)

Type locality: Taiwan Is..

Taiwan Is.

1275. *Topotypus* ♂, “*Pachl. aristol. interposita*”/ C.Taiwan, Nantou, Puli / 15.08.2010. Ex coll. Korolev V.A., № P01458);
 1276. (Table X, 1276) *Topotypus* ♀, “*Pachliopta aristolochiae interposita*”, C.Taiwan, Nantou, Puli, 16.08.2010. Ex coll. Korolev V.A., № P01389).

Pachliopta aristolochiae asteris (Rothschild, 1908)

Type locality: «Malay Peninsula and Penang».

Malaysia

1277. ♂, Malaysia, Perak Isl., 20.03.2010. Ex coll. Korolev V.A., № P00984);
 1278. ♂, W. Malaysia , Cameron Highlands / 15-20.10.2011. Ex coll. Korolev V.A., № P01485);
 1279. ♂, W. Malaysia , Cameron Highlands/ 15-20.10.2011. Ex coll. Korolev V.A. (Ex coll. Korolev V.A., № P01486).

Thailand

1280. ♂, Thailand, Yala loc., 10-15.10.2011. Ex coll. Korolev V.A., № P01487);
 1281. ♂, Thailand, Yala loc., 10-15.10.2011. Ex coll. Korolev V.A., № P01488).

Pachliopta aristolochiae antissa (Jordan, 1908)

Type locality: «Kangean Is.», Indonesia.

Indonesia, Kangean Is.

1282. *Topotypus* ♂, “*Pachl. aristol. antissa*” / Indonesia, Kangean Is./ 10-15.03.2011. Ex coll. Korolev V.A., № P01456);
 1283. *Topotypus* ♀, “*Pachl. aristol. antissa*” / Indonesia, Kangean Is./ 10-15.03.2011. Ex coll. Korolev V.A., № P01457);

Type locality: «Tenasserim, Burma; Siam northwards to Hong Kong».

Thailand

1284. ♂, Thailand, Phrae, Wang Chin. 12.02.2011. Ex coll. Korolev V.A., № P01022);
1285. ♂, Thailand. Chiang Mai, 10-16.10.2012. Ex coll. Korolev V.A., № P01542);
1286. (Table X, 1286) ♀, Thailand, Chiang Mai, 17.03.2005. Ex coll. Korolev V.A., № P00586).

***Pachliopta adamas* (Zinken, 1831)**

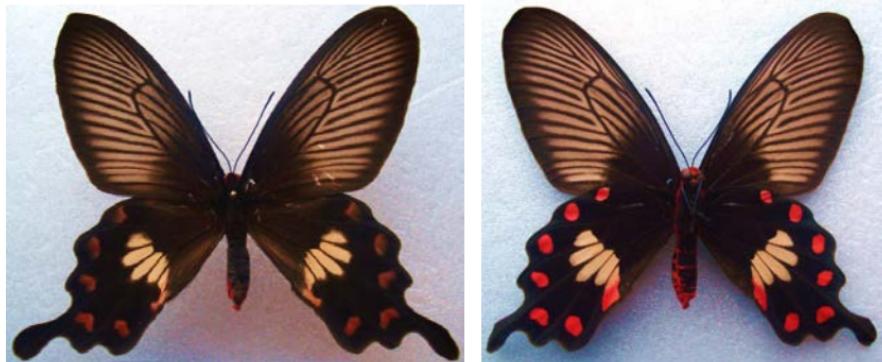

Original description: *Papilio adamas* Zinken, 1831; Nova Acta physico-med. [Leop. Carol.] **15** (1): 144.

***Pachliopta adamas adamas* (Zinken, 1831)**

Type locality: Indonesia, Java.

Indonesia, Java Is.

1287. (Table X, 1287) ♂, Indonesia, Java Isl., 18.03.2010. Ex coll. Korolev V.A., № P00982);
1288. ♂, Indonesia, E. Java, Mt. Argopuro, h = 800-1300 m / 8-15.10.2011. Ex coll. Korolev V.A., № P01455);

1289. ♀, Indonesia, Java Isl., 18.03.2010. Ex coll. Korolev V.A., № P00983).

***Pachliopta adamas lombokensis* Fruhstorfer, 1896**

Type locality: “Lombok”. Indonesia.

Indonesia, Lombok Is.

1290. *Topotypus* ♀, Indonesia, Lombok Isl., loc. Praya, 20.11.2008. Ex coll. Korolev V.A., № P01243);

1291. *Topotypus ♂*, “*Pachliopta aristolochiae lombokensis*”, Indonesia, Lombok Is., 13.12.2010.
Ex coll. Korolev V.A., № P01387);

1292. *Topotypus ♀*, “*Pachliopta aristolochiae lombokensis*”, Indonesia, Lombok Is., 13.12.2010.
Ex coll. Korolev V.A., № P01388).

Pachliopta hector (Linnaeus, 1758)

Original description: *Papilio hector* Linnaeus, 1758; *Syst. Nat.* (Edn 10) 1 : 459.

Pachliopta hector hector (Linnaeus, 1758)

Type locality: “Indiis”, (India).

India

1293. (Table X, 1293) ♂, India, loc. Calcutta, 16.04.2005. / Ex coll. Korolev V.A., № P00581;
1294. (Table X, 1294) ♀, India, Bengal, 13.03.2007. / Ex coll. Korolev V.A., № P00760.

Pachliopta kotzebuea (Eschscholtz, 1821)

Original description: *Papilio kotzebuea* Eschscholtz, 1821; in Kotzebue, Entdeck. Reise Süd-See 3 (App. 5): 202, pl. 1, f. 2a-b.

***Pachliopta kotzebuea philippus* (Semper, 1891)**

Type locality: Mindanao Is., Philippines.

Philippines, Mindanao Is.

1295. (Table X, 1295) ♂, Philippines, Mindanao Isl., 17.12.2004. / Ex coll. Korolev V.A., № P00582;

1296. ♀, Philippines, Mindanao Isl., 16.03.2006. / Ex coll. Korolev V.A., № P00583.

1296

1297

1299

***Pachliopta kotzebuea deseilus* (Fruhstorfer, 1911)**

Type locality: Mindoro Is., Philippines.

Philippines, Mindoro Is.

1297. *Topotypus* ♂, Philippines, Mindoro. 16.02.2010. / Ex coll. Korolev V.A., № P01154;

1298. *Topotypus* ♂, “*Pachl. aristol. kotzebuea*”, Philippines, Mindoro Is., / 10-15.10.2011. / Ex coll. Korolev V.A., № P01459;

1299. *Topotypus* ♀, “*Pachl. aristol. kotzebuea*”, Philippines, Mindoro Is., / 10-15.10.2011. / Ex coll. Korolev V.A., № P01460.

***Pachliopta mariae* (Semper, 1874)**

Original description: *Papilio mariae* Semper, 1878; Verh. Ver. Nat. Unterh. Hamburg 3 : 115

***Pachliopta mariae mariae* (Semper, 1874)**

Type locality: ?not designated (Philippines).

Philippines, Mindanao Is.

1300. (Table XI, 1300) ♂, Philippines, Mindanao Isl., 06.2007. Ex coll. Korolev V.A., № P00685;
1301. ♂, Philippines, Mindanao Isl., 12.06.2007. Ex coll. Korolev V.A., № P00874.

***Pachliopta leyensis* Murayama, 1978**

Original description: *Pachliopta phegeus leyensis* Murayama, 1978; Tyô to Ga 29 (3) : 153, f. 1-2.

***Pachliopta leyensis leyensis* Murayama, 1978**

Type locality: Catmon, St. Bernard, Leyte I. (Philippines, South Leyte Is.).

Philippines, Leyte Is.

1302. (Table XI, 1302) ***Topotypus* ♂**, Philippines, S.Leyte isl., Hinunomgan, 14.03.1992. Ex coll. Korolev V.A., № P01239.

***Pachliopta oreon* (Doherty, 1891)**

Original description: *Papilio (Menelaides) oreon* Doherty, 1891; J. Asiat. Soc. Bengal 60 Pt.II (2): 192.

Type locality: Sumba Is. (Indonesia).

***Pachliopta oreon oreon* (Doherty, 1891)**

Indonesia, Sumba Is.

1303. (Table XI, 1303) ***Topotypus* ♂**, Indonesia, Sumba Isl., 15.02.2006. Ex coll. Korolev V.A., № P00584).

Indonesia, Batuatas Is.

1304. ♂, “*Pachl. oreon batuataensis*” / Indonesia, Batuatas Is., 10-15.03.2011. Ex coll. Korolev V.A., № P01451).

Pachliopta phlegon (Felder & Felder, 1864)

Original description: *Papilio phlegon* C. & R. Felder, 1864; Verh. zool.-bot. Ges. Wien 14 (3) : 326.

Pachliopta phlegon strandi (Bryk, 1930)

Type locality: "[Marinduque]", Binunga", Philippines.

Philippines, Marinduque Is.

1305. ♂, Philippines, Marinduque Isl., 11.03.2006. Ex coll. Korolev V.A. (Ex coll. Korolev V.A., № P00587);

1306. ♂, Philippines, Marinduque Isl., 6.11.2006. Ex coll. Korolev V.A., № P00588).

Pachliopta polydorus (Linnaeus, 1758)

Original description: *Papilio polydorus* Linnaeus, 1763; Amoenitates Acad., 6: 401.

Pachliopta polydorus polydorus (Linnaeus, 1758)

Type locality: "India" (error), corrected Type locality: Indonesia (Amboin Is,?) (Corbet, 1949).

Indonesia, Ceram Is.

1307. (Table XI, 1307) ♂, Indonesia, Seram (Ceram) isl., Maluku islands, 16.08.2009. Ex coll. Korolev V.A., № P01246).

Pachliopta polydorus tenimberensis Rothschild, 1895

Type locality: "Tenimber Islands", Indonesia.

Indonesia, Taninbar Is.

1308. *Topotypus* ♂, Indonesia, Tanimbar isl., Maluku islands, 23.11.2009. Ex coll. Korolev V.A., № P01245).

***Pachliopta polydorus godartianus* Lucas, 1852**

Type locality: "Arfak" (West Irian, Indonesia).

Indonesia, West Irian

1309. *Topotypus* ♂, Indonesia, W.Irian, Mt. Arfak. 10-15.05.2013. Ex coll. Korolev V.A., № P01751);

1310. (Table XI, 1310) *Topotypus* ♂, Indonesia, W.Irian, Mt. Arfak. 10-15.05.2013. Ex coll. Korolev V.A., № P01752).

***Pachliopta polyphontes* (Boisduval, 1836)**

Original description: *Papilio polyphontes* Boisduval, 1836; Hist. nat. Ins., Spec. gén. Lépid. 1: 268.

***Pachliopta polyphontes bugius* Ney, 1911**

Type locality: "Süd-Celebes", S.Sulawesi (Indonesia).

Indonesia, Sulawesi Is.

1311. (Table XI, 1311) *Topotypus* ♂, Indonesia, South. Sulawesi, Bantimurung, 13.10.2005. Ex coll. Korolev V.A., № P01244).

Genus *Trogonoptera* Rippon, [1890]

***Trogonoptera brookiana* (Wallace, 1855)**

Original description: *Ornithoptera brookiana* Wallace, 1855; Proc. ent. Soc. Lond. (2) 3: 104.

Type locality: North Borneo (Malaysia territory).

***Trogonoptera brookiana brookiana* (Wallace, 1855)**

Malaysia, Borneo Is.

1318. (Table XI, 1318) *Topotipus* ♂, Malaisia, Calimantan, 1-10.02.2004, ex pupa. Ex coll. Korolev V.A., № P00610;

1319. *Topotipus* ♂, Malaisia, Isl. Borneo, 14.06.1988. Ex coll. Korolev V.A., № P00611.

***Trogonoptera brookiana albescens* Rothschild, 1895**

Type locality: Malay Peninsula.

Malaysia, Malay Peninsula

1320. (Table XI, 1320) ♀, Malay, loc. Singapur. 1-10.04.2006, ex pupa. Ex coll. Korolev V.A., № P00612.

***Trogonoptera brookiana trogon* Snellen van Vollenhoven, 1860**

Type locality: Sumatra.

Indonesia, Sumatra Is.

1321. ♂, Indonesia, Sumatra Isl. 10-15.04.2011. Ex coll. Korolev V.A., № P01429.

Trogonoptera trojana (Honrath, 1886)

Original description: *Ornithoptera trojana* Staudinger, 1889; Dt. ent. Z. Iris 2 (1) : 4.

Type locality: Palawan, Philippines.

Philippines, Palawan Is.

1322. (Table XII, 1322) *Topotipus* ♂, Philippines, Palawan Isl., 1-10.03.2006, ex pupa. Ex coll. Korolev V.A., № P00613;

1323. (Table XII, 1323) *Topotipus* ♀, Philippines, Palawan Isl., 15.12.2010. Ex coll. Korolev V.A., № P00986.

Genus *Troides* Hübner, [1819]

Subgenus *Ripponia* Haugum & Low, 1975

Troides (Ripponia) hypolitus (Cramer, 1775)

Original description: *Papilio hypolitus* Cramer, [1775]; Uitl. Kapellen 1 (1-7): 14, pl. 10, f. A-B, pl. 11, f. A-B.

Synonyms: ?*Papilio remus* Fabricius, 1777; Genera Insectorum : 250.

Troides (Ripponia) hypolitus hypolitus (Cramer, 1775)

Type locality: Ambon (Moluccas Is., Indonesia).

Indonesia, Maluku, Ceram Is.

1324. (Table XII, 1324) ♂, Indonesia, Moluccas, Ceram Isl., 02.2005. Ex pupa. Ex coll. Korolev V.A., № P01102;

1325. (Table XII, 1325) ♀, Indonesia, Moluccas, Ceram Isl., 02.2005. Ex pupa. Ex coll. Korolev V.A., № P01103.

Troides (Ripponia) hypolitus cellularis Rothschild, 1895

Type locality: "Celebes"; Sulawesi Is., Indonesia.

Synonyms: ?*Ornithoptera hippolytus*[sic] var. *celebensis* Staudinger, 1895; Dt. Ent. Z. Iris 7 (2) : 342 (?preocc. Wallace, 1865); *Papilio remus* C. & R. Felder, 1864; Verh. zool.-bot. Ges. Wien 14 (3) : 291, 333 (?preocc. Fabricius, 1777), TL: Celebes .

Indonesia, Sulawesi Is.

1326. *Topotypus* ♂, Indonesia, Sulawesi Isl., 16.01.2009. Ex pupae. / Ex coll. Korolev V.A., № P01162;

1327. *Topotypus* ♀, Indonesia, Sulawesi Isl., 16.01.2009. Ex pupae. / Ex coll. Korolev V.A., № P01163.

1326

1327

Troides (Ripponia) hypolitus sangirensis Morisode, 2005

Type locality: "Sangir Is." (Indonesia).

Indonesia, Sangir Is.

1328

1329

1328. *Topotypus* ♂, “*Troides hypolitus sangirensis* ♂” / Indonesia, Sangir Is., Tahuna, 13.02.2012.
Ex coll. Korolev V.A. № P01689;
1329. *Topotypus* ♀, “*Troides hypolitus sangirensis* ♀” / Indonesia, Sangir Is., Tahuna, 13.02.2012.
Ex coll. Korolev V.A. № P01690.

Subgenus *Troides* Hübner, [1819]

***Troides (Troides) aeacus* (C.Felder & R.Felder, 1860)**

Original description: *Ornithoptera aeacus* C. & R. Felder, 1860; Wien. ent. Monats. 4 (8): 225.

Troides (Troides) aeacus aeacus (C.Felder & R.Felder, 1860)

Type locality: ? India.

Thailand

1330. (Table XII, 1330) ♂, Thailand, Chiang Mai, 21.03.2007. Ex coll. Korolev V.A., № P00765).

China, Guandun prov.

1331. ♂, China, Sinzyan River, 15.07.2004. Ex coll. Korolev V.A., № P01082).

China, Sichuan prov.

1332. (Table XII, 1332) ♀, China, Sichuan, 12.07.2009. Ex coll. Korolev V.A., № P00939).

***Troides (Troides) vandepolli* (Snellen, 1890)**

Original description: *Papilio vandepolli* Snellen, 1890; Tijdschr. Ent. 33 : 22.

Troides (Troides) vandepolli vandepolli (Snellen, 1890)

Type locality: “W.Java; Preanger Mts, 5000-5500 ft” (Indonesia).

Indonesia, W.Java Is.

1333. (Table XII, 1333) ♂, “*Troides v. vandepolli* ♂” / Indonesia, West Java Is., Mt. Patuha, 19.09.2013. Ex coll. Korolev V.A. № P01681;
1334. (Table XII, 1334) ♀, “*Troides v. vandepolli* ♀” / Indonesia, West Java Is., Mt. Patuha, 19.09.2013. Ex coll. Korolev V.A. № P01682.

***Troides (Troides) amphrysus* (Cramer, 1782)**

Original description: *Papilio amphrysus* Cramer, [1779]; Uitl. Kapellen 3 (17-21): 43, pl. 219, f. A.

Troides (Troides) amphrysus amphrysus (Cramer, 1782)

Type locality: «Men vindtze op Java, te Batavia [...] On le trouve à Java à Batavia», (Indonesia).

Indonesia, Java Is.

1335. *Topotypus* ♂, Indonesia, W.Java, Mt. Salak, 15.03.2006. Ex coll. Korolev V.A., № P01095;
1336. *Topotypus* ♀, Indonesia, W.Java, Mt. Salak, 15-20.03.2006. Ex coll. Korolev V.A., № P01096).

1335

1336

***Troides (Troides) criton* (Felder & Felder, 1860)**

Original description: *Ornithoptera criton* C. & R. Felder, 1860; Wien. ent. Monats. 4 (8): 225.

***Troides (Troides) criton criton* (Felder & Felder, 1860)**

Type locality: «Molukkeninsel Batschian»; Batjan, Bachan Is. I Maluku island group (Indonesia).

Indonesia, Maluku Iss., Halmahera Is.

1337. ♂, Halmahera [Isl.], 04.2005. Ex coll. Korolev V.A., № P01089;
1338. ♀, Halmahera [Isl.], 04.2005. Ex coll. Korolev V.A., № P01090.

***Troides (Troides) criton critonides* (Fruhstorfer, 1903)**

Type locality: “Obi is.” (Indonesia).

Indonesia, Obi Is.

1339. *Topotypus* ♂, “*Troides criton critonides* ♂” Indonesia, South Obi Isl., Bobo, 15.01.2013. Ex coll. Korolev V.A. № P01685;
1340. *Topotypus* ♀, “*Troides criton critonides* ♀” Indonesia, South Obi Isl., Bobo, 15.01.2013. Ex coll. Korolev V.A. № P01686.

1337

1338

1340

***Troides (Troides) cuneifera* (Oberthür, 1879)**

Original description: *Ornithoptera amphisrius ab. cuneifera* Oberthür, 1879; Étud. d'Ent. 4: 110.

***Troides (Troides) cuneifera cuneifera* (Oberthür, 1879)**

Type locality: Java Is., Indonesia.

Indonesia, Java Is.

- 1341. (Table XII, 1341) ***Topotypus ♂***, Indonezia, W.Java, Mt. Wayana, 15.09.2007. Ex coll. Korolev V.A., № P01085;
- 1342. (Table XII, 1342) ***Topotypus ♀***, W.Java, Mt. Wayana, 14.11.2006. Ex coll. Korolev V.A., № P01086;
- 1343. ♂, "Troides c. cuneifera ♂" / Indonesia, East Java Is., Mt. Argopuro, 13.03.2012. Ex coll. Korolev V.A.№ P01679;
- 1344. ♀, "Troides c. cuneifera ♀" / Indonesia, East Java Is., Mt. Argopuro, 13.03.2012. Ex coll. Korolev V.A.№ P01680.

***Troides (Troides) plato* (Wallace, 1865)**

Type locality: «Timor Is.», Indonesia.

Indonesia, Timor Is.

- 1345. ***Topotypus ♂***, "Troides plato ♂" / Indonesia, Timor Is., Mt. Mutis, 12.05.2012. Ex coll. Korolev V.A. № P01683;
- 1346. (Table XII, 1346) ***Topotypus ♀***, "Troides plato ♀" / Indonesia, Timor Is., Mt. Mutis, 12.05.2012. Ex coll. Korolev V.A. № P01684.

1467

Indonesia, Sumatra Is.

1468. (Table XV, 1468) *Topotypus* ♂, “*Chilasa slateri perses* ♂” / Indonesia, N. Sumatra, Bandar Baru, 03.2012. Ex coll. Korolev V.A., № P01694.

***Chilasa (Chilasa) epycides* (Hewitson, 1862)**

Original description: *Papilio epycides* Hewitson, 1864; Ill. exot. Butts [1] (Papilio VI): [11], pl. [6], f. 16.

Chilasa (Chilasa) epycides horatius Blanchard, 1871

Type locality: "dans la principauté de Mou-pin", China.

China, Sichuan prov.

1469. (Table XV, 1469) ♂, China, Sichuan, Yaan, 1000-1200 m, 20-25.04.2008. Ex coll. Korolev V.A., № P00910;

1470. ♂, China, Sichuan Province, Yaan, 1000-1200 m, 20-25.04.2008. Ex coll. Korolev V.A., № P01143.

***Chilasa (Chilasa) osmana* Jumalon, 1967**

Original description: *Papilio osmana* Jumalon, 1967; Philip. Sci. (F) 4: 117.

Chilasa (Chilasa) osmana osmana Jumalon, 1967

Type locality: Philippines.

Philippines, Leyte Is.

1471. (Table XV, 1471) *Topotypus* ♂, *Chilasa osmana*, Philippines, Leyte Is., Mt. Balocauie. 15.05.2009. Ex coll. Korolev V.A., № P01393.

***Chilasa (Chilasa) veiovis* (Hewitson, 1853)**

Original description: *Papilio veiovis* Hewitson, 1865; Ill. exot. Butts [1] (Papilio VII-VIII): [13], pl. [7], f. 20.

***Chilasa (Chilasa) veiovis veiovis* (Hewitson, 1853)**

Type locality: "Menado" (Sulawesi Is., Indonesia).

Indonesia, Sulawesi Is.

1472. (Table XV, 1472) ♂, Indonesia, SE Sulawesi, loc. Kendari. 16-20.03.2011. Ex coll. Korolev V.A., № P01372;

1473. ♀, Indonesia, Sulawesi, 21.03.2005. Ex coll. Korolev V.A., № P00672;

1474. ♂, Indonesia, Centr. Sulawesi, Palolo Palu. 16-20.08.2014. Ex coll. Korolev V.A., № P02012.

***Chilasa (Chilasa) toboro* (Ribbe, 1907)**

Original description: *Papilio laglaizei toboro* Ribbe, 1907; Dt. ent. Z. Iris. 20 (1,2): 59, pl. 5, f. 1.

***Chilasa (Chilasa) toboro toboro* (Ribbe, 1907)**

Type locality: "von der Ostküste von Bougainville [...] aus der Gegend bei Gieta (Toboro) [...] in den Bergen", Solomon Is.

Solomon Is.:

1475. (Table XV, 1475) ♂, "*Papilio toboro*" / Solomon Islands, Santa Isabel Isl., Isabel Prov. 11.11.2011. Ex coll. Korolev V.A., № P01302;

1476. ♀, "*Papilio toboro*" / Solomon Islands, Santa Isabel Isl., Isabel Prov. 6.11.2011. Ex coll. Korolev V.A., № P01303.

Genus *Papilio* Linnaeus, 1758

Subgenus *Achillides* Hübner, [1819]

***Papilio (Achillides) syfanius* Oberthür, 1886**

Original description: *Papilio syfanius* Oberthür, 1886; Étud. d'Ent. 11 :13, pl. 1, f. 3.

Papilio (Achillides) syfanius syfanius Oberthür, 1886

Type locality: "Ta-Tsien-Lou" (W. China).

China, Yunnan prov.

1477. (Table XV, 1477) ♂, *Papilio syfanius syfanius* / China, N.Yunnan Prov. 10.06.2011/ Ex coll. Korolev V.A., № P01528.

***Papilio (Achillides) arcturus* Westwood, 1842**

Original description: *Papilio arcturus* Westwood, 1842; Ann. Mag. nat. Hist. 9: 37.

Papilio (Achillides) arcturus arcturus Westwood, 1842

Type locality: "Himalayan Mountains."

Synonyms: *Papilio arcturus ab. privatus* Röber, 1927; Int. ent. Zs. 20 (44): 400, TL: Naga Hills; *Papilio arcturus dawna* Tytler, 1939; J. Bombay nat. Hist. Soc. 41(2): 237-238, TL: Dawna Taung, Dawnas.

China, Yunnan prov.

1478. (Table XV, 1478) ♂, China, Yunnan, 13.07.2006. Ex coll. Korolev V.A., № P00717;

Vietnam:

1480. ♂, N. Vietnam. Thanh Son – Ha Giang Province, 10-15.06.2014. Le Xuan Xung leg. / Ex coll. Korolev V.A., № P02005.

Thailand

1481. ♂, Thailand, Phrae, Wang Chin, 10.04.2009. Ex coll. Korolev V.A., № P00900)

***Papilio (Achillides) arcturus arcturulus* Fruhstorfer, 1901**

Type locality: "Szechuan, China".

China, Sichuan prov.

1482. *Topotypus* ♂, *Papilio arcturus arcturulus* / China, Sechuan Prov. 16.06.2011 /Ex coll. Korolev V.A., № P01529.

***Papilio (Achillides) polycitor* Boisduval, 1836**

Original description: *Papilio polycitor* Boisduval, 1836; Hist. nat. Ins., Spec. gén. Lépid. 1: 205.

Note: some authors considered it as a ssp. of *P. bianor*.

Papilio (Achillides) polycitor stockleyi Gabriel, 1936

Type locality: "Cashmere" (NE India)

Thailand

1483. (Table XV, 1483) ♂, N.Thailand, Chiang Mai loc., 22.11.2009. Ex coll. Korolev V.A., № P01151;
1484. ♂, "Papilio polyctor stockleyi", Thailand, Umphang, Ya Mo Kwi. 14.03.2011, Ex coll. Korolev V.A., № P01314.

***Papilio (Achillides) bianor* Cramer, 1777**

Original description: *Papilio bianor* Cramer, [1777]; Uitl. Kapellen 2 (9-16): 10.

Type locality: "Kanton, China".

***Papilio (Achillides) bianor bianor* Cramer, 1777**

China, Guanjou prov.

1485. (Table XV, 1485) ♂, China, Guanjou, 22.07.2006. Ex coll. Korolev V.A., № P00712;
1486. ♀, China, Guanjou, 29.07.2006. Ex coll. Korolev V.A., № P00713).

***Papilio (Achillides) bianor ganesa* Doubleday, 1842**

Type locality: "Nepal, Assam" (India).

China, Yunnan prov.

1487. ♂, China, Yunnan, 10-20.07.2006. Ex coll. Korolev V.A., № P00681;
1488. ♀, China, Yunnan, 10-20.07.2006. Ex coll. Korolev V.A., № P00682.

China, Guangxi prov.

1489. ♂, South China, Guangxi Prov., Guilin, 1-10.05.2014. Ex coll. Korolev V.A., № P01874;
1490. ♂, South China, Guangxi Prov., Guilin, 1-10.05.2014. Ex coll. Korolev V.A., № P01875;
1491. ♂, South China, Guangxi Prov., Guilin, 1-10.05.2014. Ex coll. Korolev V.A., № P01890.

***Papilio (Achillides) bianor xiei* Chou, 1994**

Type locality: "Mengla ([...]), Yunnan" (China).

China, Yunnan prov.

1492. ♂, China, S.Yunnan, Lanchang, Hei Mt., 2300 m, 20.08.1999. Zhi leg. (Ex coll. Korolev V.A., № P01250).

***Papilio (Achillides) bianor nakaharae* Matsumura, 1929**

Type locality: „Sachalin”.

Russia, Sachalin Is.:

1493. ♂, о.Сахалин, окр. г.Южно-Сахалинска, гора Чехова, 25-28.08.1990. 550 м., Щаденков А.А. [Sachalin, Yuzhno-Sachalinsk-city vic., Chekhov Mt., 25-28.08.1990. 550 m., Stshadenkov A.A. leg.] / Ex coll. Korolev V.A., № P00714;
1494. ♀, о.Сахалин, окр. г.Южно-Сахалинска, гора Чехова, 25-28.08.1990. 550 м., Щаденков А.А. [Sachalin, Yuzhno-Sachalinsk-city vic., Chekhov Mt., 25-28.08.1990. 550 m., Stshadenkov A.A. leg.] / Ex coll. Korolev V.A., № P00715).

Papilio (Achillides) bianor doii Matsumura, 1928

Type locality: Kuril Islands.

Russia, Kuril Islands

1495. ♂, Курилы, о.Итуруп, окр. Южно-Курильска. 21.07.1991, Ладыгин В.М. [Kuril Isl., Yuzhno-Kurilsk-city env., 21.07.1991. Ladygin V.M. leg.] / Ex coll. Korolev V.A., № P00716;

Type locality: "Formosa, Polisha, Chip-Chip-Kosempo", Taiwan.

Synonyms: *kotoensis* Sonan, 1927; TL: Taiwan.

Taiwan Is.

1496. *Topotypus* ♂, C.Taiwan, Nantou, Puli, 20.07.2010. Ex coll. Korolev V.A., № P01012.

***Papilio (Achillides) maackii* Ménétriés, 1859**

Original description: *Papilio maackii* Ménétriés, 1859; Bull. Acad. Sci. St. Pétersb. 17: 212.

***Papilio (Achillides) maackii maackii* Ménétriés, 1859**

Type locality: Khingan Mts. in the Amur region to Khangar.

Russia, Amur region

1497. ♂, **gen. vern.?**, Amur region, Oblutchje vic., Malyi Chingan, 7-9.06.1999, A.N.Streltzov leg.
(Ex coll. Korolev V.A., № P00566);
1498. ♂, **gen. vern.?**, Amur region, Oblutchje vic., Malyi Chingan, 7-9.06.1999, .N.Streltzov leg.
(Ex coll. Korolev V.A., № P00567).

1681

1682

1684

Papilio (Menelaides) fuscus indicatus (Butler, 1876)

Type locality: "Port Moresby, New Guinea", Papua New Guinea.

Papua New Guinea

1681. ♂, Papua New Guinea, Bulolo, Morobe Prov., 5-10.02.2005. Ex coll. Korolev V.A., № P00647.

Papilio (Menelaides) fuscus beccarii (Oberthür, 1879)

Type locality: "Dorey", West Irian.

Synonyms: *Papilio beccarii* Oberthür, 1880; Ann. Mus. Stor. nat. Genova 15: 461, pl. 3, f. 1, TL: Waigeu, Andai.

Indonesia, West Irian

1682. ♂, Indonesia, W.Irian, (New Guinea), 14.03.2005. Ex coll. Korolev V.A., № P00648;

Papilio (Menelaides) fuscus lapathus Fruhstorfer, 1904

Type locality: "Batjan", Bachan Is., Indonesia.

Indonesia, Halmahera Is.

1683. ♂, Indonesia, Halmahera Isl., loc. Galela. 17.11.1990. Ex coll. Korolev V.A., № P01259;

1684. ♂, "*Papilio fuscus lapathus* ♂" / Indonesia, N. Halmahera, Mt. Gamkonora, 04.2013. Ex coll. Korolev V.A., № P01701.

Papilio (Menelaides) fuscus pertinax Wallace, 1865

Type locality: "Celebes", Sulawesi Is., Indonesia.

Indonesia, Sulawesi Is.

1685. ♂, Indonesia, C.Sulawesi Province, loc. Luwuk. 15.10.2008. Ex coll. Korolev V.A., № P01256;
1686. ♂, Indonesia, S. Sulawesi, Bantimurung. 23.11.2009. Ex coll. Korolev V.A., № P01266.

***Papilio (Menelaides) fuscus xenophilus* Mathew, 1886**

Type locality: Ugi, Solomon Is.

Solomons Isl.

1687. ♀, Solomons, Santa Isabel Is., 25.11.[20]10. Ex coll. Tuzov V.K. / Ex coll. Korolev V.A., № P01861.

***Papilio (Menelaides) diophantus* Grose-Smith, 1882**

Original description: *Papilio diophantus* Grose-Smith, 1883; Ent. mon. Mag. 19: 234.

***Papilio (Menelaides) diophantus diophantus* Grose-Smith, 1882**

Type locality: "Sumatra", Indonesia.

Indonesia, Sumatra Is.

1688. *Topotypus* ♂, Indonesia, Sumatra, M.I.Bempo. 14.06.2006. Ex coll. Korolev V.A., № P01257.

***Papilio (Menelaides) castor* Westwood, 1842**

Original description: *Papilio castor* Westwood, 1842; Ann. Mag. nat. Hist. 9:

Papilio (Menelaides) castor castor Westwood, 1842

Type locality: «Sylhet», Bangladesh.

India

1689. ♂, N.E. India, Bihar . 18.02.2010. Ex coll. Korolev V.A., № P01032.

1688

1689

Papilio (Menelaides) castor formosanus Rothschild, 1896

Type locality: «North Formosa, hills near Kelung, 500 to 1500 feet», N.Taiwan.

Taiwan Is.

1690. ♂, C.Taiwan, Nantou, Puli, 16.08.2010. Ex coll. Korolev V.A., № P01015.

Papilio (Menelaides) euchenor Guérin-Méneville, 1829

Original description: *Papilio euchenor* Guérin-Méneville, 1829; Voyage Coquille, 2 (2) : pl. 13, f.3.

Type locality: on one of the labels of the two Syntypes deposited in the Paris Museum, designated as «Offak», on the other - «Warou / Amboine», ie Waru located on Seram Is. and Ambon Is., located to the west of New Guinea (West Irian); current TL: W.Irian.

Synonyms: *Papilio axion* Boisduval, 1832; in d'Urville, Voy. Astrolabe (Faune ent. Pacif.) 1 : 41, TL: New Guinea; *Papilio euchenor scribonius* Fruhstorfer, 1909; Ent. Zs. 22 (43):177, TL: Waigu; *Papilio euchenor hippotas* Fruhstorfer, 1909; Ent. Zs. 22 (43): 178, TL: New Guinea.

***Papilio (Menelaides) memnon* Linnaeus, 1758**

Original description: *Papilio memnon* Linnaeus, 1758; Syst. Nat. (Edn 10) 1: 460.

***Papilio (Menelaides) memnon memnon* Linnaeus, 1758**

Type locality: TM originally was designated by C. Linnaeus as "Asia". In 1764, C. Linnaeus trying to clarify for this taxon brought new, but erroneous TL as "Luzon" (Philippines). In 1767, C. Linnaeus again changed TL on "China" that he had received new butterfly from China corresponded to old. However, it also was a mistake that later noted Rothschild (1895: 312), and then Corbett (1949: 186). Last TL considered this type of Java Island, which was supported by Tsukada and Nishiyama (in Tsukada 1982: 357). On this basis, Honey & Scoble (2001: 348) designated lectotype stored in the coll. Linnaeus Society in London - 1 ♂ "12 Memnon" [by Linnaeus], "Memnon 747" [by Smith] labelled "Deiphobus [beta]" [by Aurivillius].

***Papilio (Papilio) joanae* J. Heitzman, 1973**

Original description: *Papilio joanae* Heitzman, 1973; J. Res. Lepid. 12 (1): (1-10)

Type locality: "USA, Missouri, Bento Co, Warshaw" (USA, Montana).

USA, Texas

1840. (Table XIX, 1840) ♂, «*Papilio joanae*», USA, Texas, Whitehouse. 3-7.08.2011. (Ex coll. Korolev V.A., № P01121).

***Papilio (Papilio) zelicaon* Lucas, 1852**

Original description: *Papilio zelicaon* Lucas, 1852; Revue Mag. Zool. (2) 4 (3):136,

***Papilio (Papilio) zelicaon zelicaon* Lucas, 1852**

Type locality: "San-Francisco, California" (USA).

USA, California

1841. (Table XIX, 1841) *Topotypus ♂*, «*Papilio zelicaon* ♂» / USA, California, LA Co, San Gabriel Mtns, 15.04.2008. Leg. K.Thorne (Ex coll. Korolev V.A., № P01184).

USA, Oregon

1842. ♂, «*Papilio zelicaon* ♂» / USA, Oregon, Umatilla Co, Milton-Freewater. 18.05.1985. (Ex coll. Korolev V.A., № P01185).

Papilio (Papilio) machaon Linnaeus, 1758

Original description: *Papilio Machaon*, Linnaeus, 1758; Syst. Nat. (Edn 10) 1: 458.

Papilio (Papilio) machaon machaon Linnaeus, 1758

Type locality: "Europae Umbellatis & Ruta", Sweden.

Note: According to Higgins & Riley (1975) there is little geographical variation in machaon in Europe, although seasonal variation in wing-markings does occur.

Belorussia

1843. ♂, *gen. vern.*, Belarus, Vitebsk Region, Sennensky distr., Stshitovka vil., 30.05-15.06.2012. leg. Galkin A.N. (Ex coll. Korolev V.A., № P01548);

1844. ♂, *gen. aestiva*, Белоруссия, Витебская обл., д.Кабыще, 6.07.2009. Галкин А.Н. [Belorussia, Vitebsk reg., Kabystshe vil., 6.07.2009, Galkin A.N. leg.] (Ex coll. Korolev V.A., № P01077).

Russia, Moscow reg.

1845. ♂, *gen. vern.*, Московская обл., (Одинцовский р-н), окр. Звенигорода, д.Луцино, 2.06.1990, Королев С.В. [Moscow reg., Odintsovo distr., loc. Zvenigorod, Lutsyno vil., 2.06.1990, Korolev S.V. leg.] (Ex coll. Korolev V.A., № P00462);

1920. ♂, Магаданская обл., окр. п.Карамкен, 28.06.1999, Бабакин А.П. [Magadan reg., Karamken village, 28.06.1999. Babakin A.P. leg.] (Ex coll. Korolev V.A., № P00514).

Papilio (Papilio) machaon venchuanus Moonen, 1984

Type locality: "Sichuan, Venchuan", (China, Sichuan).

Synonyms: *Papilio machaon chinensis* Verity, 1905.

Note: ssp. *venchuanus* Moonen, 1984 – is replaced name for ssp. *chinensis* Verity, 1905, - junior objective homonym of *Papilio paris chinensis* Rothschild, 1895.

China, Sichuan prov.

1921. ♂, "Papilio machaon venchuanus"/ China, Sichuan Prov., Daba Mtn., 5-10.06.2000. (Ex coll. Korolev V.A., № P01512);

1922. (Table XIX, 1922) ♂, China, Sichuan Prov., Daba Mtn., 5-10.06.2000. (Ex coll. Korolev V.A., № P01513);
1923. *Topotypus* ♂, “*P. machaon chinensis*” / China, Sichuan, Jiulong, 12.04.2011. (Ex coll. Korolev V.A., № P01306);
1924. *Topotypus* ♂, “*P. machaon chinensis*” / China, Sichuan, Jiulong, 23.04.2011. (Ex coll. Korolev V.A., № P01307).

***Papilio (Papilio) machaon alaska* Scudder, 1869**

Type locality: USA, Alaska.

Canada, Yukon prov.

1925. ♂, Canada, Yukon Terr., 14 km Dempster HWY. 7.07.2000. Fernando A.E. leg. (Ex coll. Korolev V.A., № P01131).

Subgenus *Princeps* Hübner, [1807]

***Papilio (Princeps) dardanus* Brown, 1776**

Original description: *Papilio dardanus* Brown, 1776; New Illust. Zool.: 51,

***Papilio (Princeps) dardanus dardanus* Brown, 1776**

Type locality: not designated [West Africa].

Ghana

1926. (Table XIX, 1926) ♂, C.Africa, Ghana, loc. Conakri, 14.05.1988. Ex coll. Korolev V.A., № P00667.

Equatorial Guinea

1927. ♂, Equatorial Guinea, Pico Mt., Malabo vic. 24-26.01.2013. / Ex coll. Korolev V.A.. № P01967.

Ivory Coast

1928. ♂, Centr. Ivory Coast, loc. Tieningbove. 10-20.06.2014. Ex coll. M.Bonnard. / Ex coll. Korolev V.A., № P01965.

Научное издание

Королёв Владимир Александрович

Каталог коллекции чешуекрылых (*Lepidoptera*).

Часть II. *Papilionidae*

Оригинал-макет и вёрстка *V.A.Королёв*

Подписано в печать 1.12. 2014

Формат 62x94 1/16.Бумага офсет № 1, 80 г/м

Гарнитура Таймс. Печать офсетная.

Усл. печ. л. 20.0. Тираж 100 экз.

Книжно-издательский центр Onebook.ru

ООО «СамПолиграфист»

129090, г. Москва, Протопоповский пер., д. 6

Scientific publication

Korolev Vladimir Alexandrovich

Catalogus on the collection of Lepidoptera.

Part II. *Papilionidae*
